## Getting To Know Catalonia:

**Getting to Know Catalonia** Josep-Maria Puigjaner, 1992      **A Citizen's Democracy in Authoritarian Times** Thomas S. Harrington, 2019-01-08 Agents of sedition who are heedlessly destroying Spain's consolidated democracy Xenophobes simply interested in protecting their own wealth who are behind the rhetoric not that different from the tribal authoritarians coming to the fore in Hungary and northern Italy These are but two of the many narrative tropes the Spanish government and the establishment press in Europe and the US are rolling out to counter the rise of separatist sentiment in Catalonia In this book Thomas S Harrington an American with a deep familiarity with Catalan culture and history argues that far from being a threat to democracy in Europe the scrupulously peaceful and people driven movement for independence in Catalonia is perhaps the best hope we have for spurring its much hoped for renewal      Digestible Governance Eugenia Afinoguénova, Lara Anderson, Rebecca Ingram, 2024-08-30 The term gastrocracy refers to the appropriation of discourses and practices related to the sourcing preparation distribution and consumption of food for political purposes The intersections of gastronomy and governance dating in Spain to the last quarter of the nineteenth century have become highly visible over the past decade when political debates around nationalism in its different forms have taken the guise of discussions about regional and local cuisines Concomitant with the rise of the slow food movement and following UNESCO's addition in 2011 of Gastronomic Meal of the French to its list of Intangible Cultural Heritage of Humanity public and private associations all around Spain have been established with the goal of achieving recognition by UNESCO for Spanish Catalan and other national cuisines In 2016 Gastro Marca España an association and a web portal was launched to raise the profile of food in Spain's national brand Eliciting wide public participation co-opted for political purposes regarded as a factor of economic development on any scale and integrated into every so called banal nationalism the production distribution and consumption of food are highly relevant for historical analysis Seeking to encourage a broader discussion about Peninsular gastrocracies this book brings together an interdisciplinary group of scholars from different sides of the Atlantic and the Pacific who have spearheaded research on gastronomy and governance in Spain      *The Emergence of National Food* Atsuko Ichijo, Venetia Johannes, Ronald Ranta, 2019-02-21 What do deep fried mars bars cod and Bulgarian yoghurt have in common Each have become symbolic foods with specific connotations located to a very specific place and country This book explores the role of food in society as a means of interrogating the concept of the nation state and its sub units and reveals how the nation state in its various disguises has been and is changing in response to accelerated globalisation The chapters investigate various stages of national food its birth emergence and decline and why sometimes no national food emerges By collecting and analysing a wide range of case studies from countries including Portugal Mexico the USA Bulgaria Scotland and Israel the book illustrates ways in which various social forces work together to shape social and political realities concerning food The contributors hailing from anthropology history sociology and political science investigate the significance of specific food

cultures cuisines dishes and ingredients and their association with national identity In so doing it becomes clearer how these two things interact and demonstrates the scope and direction of the current study of food and nationalism Getting to Know Catalonia Josep Maria Puigjaner,2002-01-01 Una presentaci n global de Catalu a como pa s en tres tiempos el primero unap anor mica hist rica y la identidad colectiva el segundo la exposici n de lasin stituciones y los poderes reales del autogobierno El tercero sit a a Catalu a e n el marco de la Europa Comunitaria M s de 400 ilustraciones y seis anexos comp lementarios de la informaci n b sica Ediciones en catal n castellano ingl s franc s y alem n **Reanimating Regions** James Riding,Martin Jones,2017-05-12 Writing regions undertaking a regional study was once a standard form of geographic communication and critique This was until the quantitative revolution in the middle of the previous century and more definitively the critical turn in human geography towards the end of the twentieth century From then on writing regions as they were experienced phenomenologically or arguing culturally historically and politically with regions was deemed to be old fashioned Yet the region is and always will be a central geographical concept and thinking about regions can tell us a lot about the history of the discipline called geography Despite taking up an identifiable place within the geographical imagination in scholarship and beyond region remains a relatively forgotten under used and in part under theorised term Reanimating Regions marks the continued reinvigoration of a set of disciplinary debates surrounding regions the regional and regional geography Across 18 chapters from international interdisciplinary scholars this book writes and performs region as a temporary permanence something held stable not fixed and absolute at different points in time for different purposes There is as this expansive volume outlines no single reading of a region Reanimating Regions collectively rebalances the region within geography and geographical thought In renewing the geography of regions as not only a site of investigation but also as an analytical framework through which to write the world what emerges is a powerful reworking of the geographic imagination Read against one another the chapters weave together timely commentaries on region and regions across the globe with a particular emphasis upon the regional as played out in the United Kingdom and regional worlds both within and beyond Europe offering chapters from Africa and South America Addressing both the political and the cultural this volume responds to the need for a consolidated and considered reflection on region the regional and regional geography speaking directly to broader intellectual concerns with performance aesthetics identity mobilities the environment and the body Handbook on Public Diplomacy Sean Aday,2025-02-12 This Handbook provides a contemporary perspective on public diplomacy scholarship and practice showcasing the growing diversity of the field Expert contributing authors identify the challenges involved in implementing successful public diplomacy and analyse how to effectively measure and evaluate programs to determine best practices Culture, Social Class, and Race in Public Relations Damion Waymer,2012-09-27 Culture Race and Class Based Perspectives in Public Relations edited by Damion Waymer covers timely and understudied topics in the field of public relations PR Via research case analysis and theoretical discussion the contributors to this volume

explore the ways that scholars can address issues of voice or the lack thereof that marginalized publics have encountered in the past or are currently encountering in regard to matters of culture race and class A central question this book asks is what role can and does a greater understanding of culture race and class play in helping scholars teachers students and practitioners to aid in society becoming a better place to live and work Culture as well as other divisive social constructs such as race and class must be unpacked problematized and considered carefully before the fully functioning vision of society can be deemed possible Some topics included are the Black Panther Party and Native American Activist rhetorical PR risk equity critical race theory and pedagogical approaches to teaching culture race and class This edited volume serves an important early step by scholars via the context of public relations in this process of advocating social justice as well as organizations role in helping society achieve these ends *Catalonia's Human Towers* Mariann Vaczi,2023-07-18 The building of human towers castells is a centuries old traditional sport where hundreds of men women and children gather in Catalan squares to create breathtaking edifices through a feat of collective athleticism The result is a great spectacle of effort and overcoming tension and release Catalonia s Human Towers is an ethnographic look at the thriving castells practice a symbol of Catalan cultural heritage and identity amid debates around national autonomy and secession from Spain While the main function of building castells is to grow community through a low cost intergenerational and inclusive leisure activity Mariann Vaczi reveals how this unique sport also provides a social base image and vocabulary for the independence movement Highlighting the intersection of folklore performance and sport Catalonia s Human Towers captures the subtle processes by which the body becomes politicized and ideology becomes embodied with all the desires risks and precarities of collective constructions *Mediterranean Paradiplomacies* Manuel Duran,2015-03-10 In *Mediterranean Paradiplomacies* The Dynamics of Diplomatic Reterritorialization Manuel Duran presents a new view on the phenomenon of paradiplomacy by analyzing the diplomatic activities of a number of Mediterranean substate entities as a site of political territorialization The international agency of these substate entities is giving way to new patterns of territorialization as well as alternative forms of diplomacy Duran examines the diplomatic activities of two Spanish two French and two Italian regions The book poses the question of why and how these regions operate diplomatically in a given territorial milieu and convincingly elucidates the particular patterns of reterritorialization that result from these diplomatic activities *Barcelona and Modernity* William H. Robinson,Jordi Falgàs,Carmen Belen Lord,Josefina Alix,Cleveland Museum of Art,Metropolitan Museum of Art (New York, N.Y.),2006-01-01 Catalogus van een tentoonstelling van werk van Catalaanse kunstenaars **International Books in Print**,1990 *Memory and Securitization in Contemporary Europe* Vlad Strukov,Victor Apryshchenko,2018-01-24 The volume is the first study to explore the intersection of memory and securitisation in the European context By analysing a variety of practices ranging from film to art and new media the book expands the existing theoretical framework of securitisation The authors consider memory as a precondition for contemporary integration projects such as the European Union and also

showcase how memory is used to stage international conflicts Following this memory securitisation nexus the European Union and Europe more generally emerges as an on going cultural political and social project The book also examines developments outside the EU such as the conflict in Ukraine and the creation of the Eurasian Economic Union which the authors argues have a profound impact on Europe From a consideration of historical contexts such as national referenda the discussion proceeds to media and film analysis artistic practice and more transient phenomena such as climate change

**Sustainable Diplomacy** D. Wellman, 2004-05-06 Drawing on a variety of disciplines Sustainable Diplomacy is a highly constructive work Set in the context of modern Moroccan Spanish relations this text is a direct critique of realism as it is practiced in modern diplomacy Proposing a new eco centric approach to relations between nation states and bioregions Wellman presents the case for Ecological Realism an undergirding philosophy for conducting a diplomacy which values the role of popular religions ecological histories and the consumption and waste patterns of national populations Sustainable Diplomacy is thus a means of building relations not only between elites but also between people on the ground as they together face the real possibility of global ecological destruction

**ALTERNATIVE FORMS OF KNOWING (IN) MATHEMATICS** Swapna Mukhopadhyay,Wolff-Michael Roth,2012-12-28 This book grew out of a public lecture series Alternative forms of knowledge construction in mathematics conceived and organized by the first editor and held annually at Portland State University from 2006 Starting from the position that mathematics is a human construction implying that it cannot be separated from its historical cultural social and political contexts the purpose of these lectures was to provide a public intellectual space to interrogate conceptions of mathematics and mathematics education particularly by looking at mathematical practices that are not considered relevant to mainstream mathematics education One of the main thrusts was to contemplate the fundamental question of whose mathematics is to be valorized in a multicultural world a world in which as Paolo Freire said The intellectual activity of those without power is

always characterized as non intellectual To date nineteen scholars including the second editor have participated in the series All of the lectures have been streamed for global dissemination at <http://www.media.pdx.edu/dlcmedia/events/AFK> Most of the speakers contributed a chapter to this book based either on their original talk or on a related topic The book is divided into four sections dealing with Mathematics and the politics of knowledge Ethnomathematics Learning to see mathematically Mathematics education for social justice
