Making the Right Choice Asha L. Abeyasekera, 2021-03-12 Making the Right Choice unravels the entangled relationship between marriage morality and the desire for modernity as it plays out in the context of middle class status concerns and aspirations for upward social mobility within the Sinhala Buddhist community in urban Sri Lanka By focusing on individual life histories spanning three generations the book illuminates how narratives about a gendered self and narratives about modernity are mutually constituted and intrinsically tied to notions of agency The book uncovers how becoming modern in urban Sri Lanka rather than causing inter generational conflict is a collective aspiration realized through the efforts of bringing up educated and independent women capable of making right choices The consequence of this collective investment is a feminist conundrum agency does not denote the right to choose but the duty to make the right choice hence agency is experienced not as a sense of freedom but rather as a burden of responsibility

Losing My Religion Ria Barna, 2008-03-31 We all own a very special key It is the key that unlocks all that we are and all that we could ever want and dream of wanting Access to this key is so simple yet we make it so hard This key is always there waiting for us to use it to unlock our treasure chest and to release the power within it We all want so badly to be the winner of the big lottery but little do we know we already are the winner We think winning the lottery will give us the power to do what we want with our lives If we only knew that all the power is already within us They say that in the last days the hearts of many men will fail because of fear Our hearts fail every time we make a decision based in fear instead of believing to trust what is in our hearts Our heart is each and everyones very own treasure chest that is open every time we choose to believe what is in it Now if the key to all our happiness is in our treasure chest which lies within our heart wouldnt it make sense that our number one priority in life would be to discover our heart and what lies within it Every time we make a decision aligned with our heart we tap into our power and release a potent and invisible energy into the world This energy in turn orchestrates the universe to reflect back into our lives that ultimately leads us to fulfill our purpose We must believe that all of lifes experiences situations and relationships are there to take us on a great journey A journey that creates opportunities for self discovery and that promotes self growth and awareness One experience of life is death However it is not death in the physical sense but in a spiritual sense It is dying to

who we thought we were and dying to what we thought we believed and to how we defined ourselves A lot of what we thought really isn't even our own thoughts They are actually thoughts we adopted from others They are thoughts and beliefs imposed on us by others beginning right down to when we were babies In this process to self discovery we must cut off the junk we gathered in life that are not our own in order to become in alignment to who we are God is the very essence of life the life within us and the life outside us As we continue the path of self discovery happiness is sure to follow The compass that should aid us in our journey is called bliss Following our bliss is the key to what is in your heart and ultimately to be one with God The key to our fulfillment in life is not to create separation between who God is and who we are We are one with God We are cocreators with God and we have the power to create whatever we want Constructive Therapies Michael F.
