The Making of Princeton University James Axtell, 2021-03-09 In 1902 Professor Woodrow Wilson took the helm of Princeton University then a small denominational college with few academic pretensions. But Wilson had a blueprint for remaking the too cozy college into an intellectual powerhouse. The Making of Princeton University tells for the first time the story of how the University adapted and updated Wilson's vision to transform itself into the prestigious institution it is today. James Axtell brings the methods and insights from his extensive work in ethnohistory to the collegiate realm focusing especially on one of Princeton's most distinguished features its unrivaled reputation for undergraduate education. Addressing admissions the curriculum extracurricular activities and the changing landscape of student culture the book devotes four full chapters to undergraduate life inside and outside the classroom. The book is a livelywarts and all rendering of Princeton's rise addressing such themes as discriminatory admission policies the academic underperformance of many varsity athletes and the controversial bicker system through which students have been selected for the University's private eating clubs. Written in a delightful and elegant style The Making of Princeton University offers a detailed picture of how the University has dealt with these issues to secure a distinguished position in both higher education and American society. For anyone interested in or associated with Princeton past or present this is a book to savor.

Who Gets In and Why Jeffrey Selingo, 2020-09-15 From award winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office one that identifies surprising strategies that will aid in the college search. Getting into a top ranked college has never seemed more impossible with acceptance rates at some elite universities dipping into the single digits. In Who Gets In and Why journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a good college. Hint it's not all about the sticker on the car window. Selingo who was embedded in three different admissions offices a selective private university a leading liberal arts college and a flagship public campus closely observed gatekeepers as they made their often agonizing and sometimes life changing decisions. He also followed select students and their parents and he traveled around the country meeting with high school counselors marketers behind the scenes consultants and college rankers. While many have long believed that admissions is merit based rewarding the best students Who Gets In and Why presents a more complicated truth showing that who gets in is frequently more about the college's agenda than the applicant. In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions admissions officers often make split second decisions based on a variety of factors like diversity money and ultimately whether a student will enroll if accepted. One of the most insightful books ever about getting in and what higher education has become Who Gets In and Why not only provides an unusually intimate look at how

admissions decisions get made but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests **Princeton Alumni Weekly** Jesse Lynch Williams, Edwin Mark Norris, 1995

hear about the growing divide between rich and poor in America This compelling expos backed by up to date research locates the source of this trend where we might least expect to find it in our schools Written for a wide audience Tearing Down the Gates is a powerful indictment of American education that shows how schools colleges and universities exacerbate inequality by providing ample opportunities for advantaged students while shutting the gates on the poor and even the middle class Peter Sacks tells the stories of young people and families as they struggle to negotiate the educational system He introduces students like Ashlea who grew up in a trailer park and who would like to attend college though she faces constant obstacles that many of her more privileged classmates can't imagine Woven throughout with voices of Americans both rich and poor Tearing Down the Gates describes a disturbing situation that has the potential to undermine the American dream not just for some but for all of us At the heart of this book is a question of justice and Sacks demands that we take a hard look at what equal opportunity really means in the United States today **The Gatekeepers** Jacques

Steinberg, 2003-07-29 In the fall of 1999 New York Times education reporter Jacques Steinberg was given an unprecedented opportunity to observe the admissions process at prestigious Wesleyan University Over the course of nearly a year Steinberg accompanied admissions officer Ralph Figueroa on a tour to assess and recruit the most promising students in the country The Gatekeepers follows a diverse group of prospective students as they compete for places in the nation's most elite colleges The first book to reveal the college admission process in such behind the scenes detail The Gatekeepers will be required reading for every parent of a high school age child and for every student facing the arduous and anxious task of applying to college The Gatekeepers provides the deep insight that is missing from the myriad how to books on admissions that try to identify the formula for getting into the best colleges I really didn't want the book to end The New York Times
