Getting Smarter Every Day F:

Young Investigators Judy Harris Helm, Lilian G. Katz, Rebecca Wilson, 2023 This fourth edition has been expanded to guide today's teachers through the process of conducting meaningful investigations with young children. It begins with a new chapter which summarises insights from mind/brain education research showing how experiences firmly rooted in children's curiosity and interest build intellectual capacity.

We Are the Change We Seek Iheoma U. Iruka, Tonia R. Durden, Kerry-Ann Escayg, Stephanie M. Curenton, 2023 This timely book will help early care and education teachers, leaders, administrators, coaches, and staff deliver on the promise of high quality education for all children. The authors provide inspiration, practical tools, and resources through the anti-bias, anti-racist, culturally responsive practices framework ABAR CRP. This teacher-friendly text shows how to engage in self-inquiry and evaluate current classroom practices while embedding new ones that advance the learning and well-being of children, especially those from minoritized and poor communities. Readers will find tools and assessments to support the implementation of culturally grounded practices that will improve outcomes for diverse children in early childhood settings and systems. This book connects history to current events, supports self-inquiry, encourages a shift in mindset, and most importantly offers guidance for creating affirming and joyful spaces for young children to learn.

Book Features: Design an Activity for Children section asks teachers to create a classroom activity incorporating the information they have learned. Discussions About Real World Dilemmas presents a problem and asks readers to discuss how they would resolve it. Exercises That Promote Critical Reflection activities that encourages teachers to think about how they are a product of the beliefs, values, and social/political history of their cultural group. What Would You Do? reflective questions that help teachers to problem-solve how they might react during difficult situations.

Artificial Intelligence in Business Management Mohammed Majeed, 2024-08-07 Artificial Intelligence in Business Management is a review of artificial intelligence (AI) applications in businesses. This book adopts a cross-disciplinary strategy toward AI adoption. Book chapters explore many projects that go beyond simple data management and accessibility to showcase the growing role of artificial intelligence and machine learning in the enterprise data space. AI methods for tackling marketing and commercial strategies as well as the use of AI and machine learning in tourism, insurance, and healthcare systems are discussed. A study on the significance of cultural assets in evaluating risks and protection is also presented. The content gives valuable insights on the application and implications of artificial intelligence and machine learning from this book to readers aiming for corporate roles such as directors, executives, senior software developers, and digital transformation managers. The book is an essential resource for researchers and professionals in business, economics, and allied disciplines.
