**Theory of Liberty, Legitimacy and Power** Vatro Murvar, 2013-12-16 The stature of

Max Weber 1864-1920 as an interdisciplinary historical comparative social scientist has grown steadily. But in view of Professor Murvar, his work has been misinterpreted with remarkable frequency. The aim of this book is to put right certain misconceptions and misinterpretations of Max Weber's intellectual and scientific legacy. This book challenges assumptions about various aspects of Weber's work: the issues of modernization, evolutionary theories, world systems, growth of liberty, typologies of power structures and legitimacies among others. As well as presenting precise criticism and appreciation of the way Weber's work has been handled by his successors, this book also details the specific advancement he himself made within the theory of liberty, legitimacy and power. There is special emphasis on how much Weber's work in these core areas has survived the test of time. This book was first published in 1985.

*Dictionary of Modern Political Ideologies* Michael A. Riff, 1987

*Fundamentalisms Comprehended* Martin E. Marty, R. Scott Appleby, 2004-05. In this fifth volume of the Fundamentalism Project, Fundamentalisms Comprehended, the distinguished contributors return to and test the endeavor's beginning premise that fundamentalisms in all faiths share certain family resemblances. Several of the essays reconsider the project's original definition of fundamentalism as a reactive, absolutist and comprehensive mode of anti-secular religious activism. The book concludes with a capstone statement by R. Scott Appleby, Emmanuel Sivan and Gabriel Almond that builds upon the entire Fundamentalism Project. Identifying different categories of fundamentalist movements and delineating four distinct patterns of fundamentalist behavior toward outsiders, this statement provides an explanatory framework for understanding and comparing fundamentalisms around the world.
