Language Politics under Colonialism Dilip Chavan, 2014-08-11 This book attempts to capture the reconfiguration of the pre modern power structure within colonialism in the specific context of education and linguistic policies implemented by the colonial administration in Western India The interrelationship existing between caste power dominance colonialism and their cultural implications has been a rather ignored subject in postcolonial theory analysis of the interplay between primordial power structures like caste and colonial modernity has only recently been reflected in some post colonial writings Against this backdrop the book offers a nuanced understanding of the collusive role that the indigenous elites played in working out new ways to preserve their privileges and dominance which also strengthened the hold of the colonial regime without fully

altering and disturbing the existing modes of dominance The book attempts to dispel the theory that a thorough eradication of pre capitalist relationships is a pre requisite to the growth and advancement of modern capitalism. The Indian case points to the contrary The colonial state could engender its capitalist motives without substantially altering the existing feudal hierarchical socio economic and political arrangements Drawing upon the theoretical framework of Marx Gramsci Althussar and Jotirao Phule the volume attempts to delineate the relationship between language and power in colonial Western India
