Ielfstan's Place Richard Girling, 1981-01-01 **Rubbish!** Richard Girling, 2011-06-30 We can no longer cope with our waste Every hour in the UK we throw away enough rubbish to fill the Albert hall a statistic quoted so often that perhaps we ve stopped imagining what it means And every year the flow accelerates This is the story of our rubbish from the first human bowel movement to the littering of outer space With a hankerchief to his nose Girling picks through our fridge mountain our crumbling sewers trading waste packaging waste hazardous industrial waste it is a mucky saga of carelessness greed and opportunism wasted opportunity and official bungling But Rubbish is also a plea for us to consider other kinds of waste the trashing of our landscape the unstoppable floods of junk that clog our mailboxes litter the skies and foul the airwaves Rubbish may not be a conventional battle cry but this is unmistakably a call to arms not just for the three R s reduce re use recycle but for us to fight for new ideas brave initiative rather than reliance on old systems that are crumbling before our eyes **The Longest Story** Richard Girling, 2021-07-01 Lucid informed and persuasive Evening Standard Thought provoking Daily Mail An extraordinary book Nicholas Evans author of The Horse Whisperer The history of humanity s relationship with other species is baffling Without animals there would be no us We are all fellow travellers on the same evolutionary journey By charting the love hate story of people and animals from their first acquaintance in deep prehistory to the present and beyond Richard Girling reveals how and where our attitudes towards animals began and how they have persisted been warped and become magnified ever since In dazzling prose The Longest Story tells of the cumulative influence of theologians writers artists warriors philosophers farmers activists and scientists across the centuries now locking us into debates on farming extinction animal rights pets experiments and religion Essential reading Philip Lymbery CEO of Compassion in World Farming and author of Farmageddon **Ielfstan's Place, 15000 BCE-1919 CE.** Richard Girling, 1981 *The Man Who Ate the Zoo* Richard Girling, 2016-11-03 Frank Buckland was an extraordinary man surgeon natural historian popular lecturer bestselling writer museum curator and a conservationist before the concept even existed Eccentric revolutionary prolific he was one of the nineteenth century s most improbable geniuses His lifelong passion was to discover new ways to feed the hungry Rhinoceros crocodile puppy dog giraffe kangaroo bear and panther all had their chance to impress but what finally and eventually fatally obsessed him was fish Forgotten now he was one of the most original far sighted and influential natural scientists of his time held as high in public esteem as his great philosophical enemy Charles Darwin *The Hunt for the Golden Mole* Richard Girling, 2015-11-10 Taking as its narrative engine the hunt for an animal that is legendarily rare Richard Girling writes an engaging and highly informative history of humankind s interest in hunting and collecting what prompts us to do this what good might come of our need to catalog all the living things of the natural world Girling named Environmental Journalist of the Years 2008 and 2009 has here chronicled through the hunt for the Somali golden mole the development of the conservation movement the importance of diversity in the animal

kingdom including humankind within this realm as well as a hard look at extinction The Somali mole of the title first described in print in a text book published in 1964 had as sole evidence of its existence only the fragment of a jaw bone found in an owl pellet a specimen that seemed to have vanished as Girling began his exploration Intrigued by the elusiveness of this creature and what the hunt for the facts of its existence might tell us about extinction he was drawn to the dusty vaults of museums of natural history where the most rare artifacts are stored and catalogued as he found himself caught up in the need to track it down Part quest part travelog the book that results not only offers an important voice to the scientific debate about extinction and biodiversity it becomes an environmental call to arms
