Ethics in a Cocoon V. David Schwantes, 2007-09 *Cocoon* demonstrates in easy to understand language that ethics is about trust and happiness Trust is the essential ingredient to mutually supportive and durable relationships focused on reducing life's imperfections Such relationships are the key to happiness But we cannot live deep inside protective cocoons and still build trust and relationships Instead we must develop all the dimensions of what makes us human intellectual truth spiritual unity moral goodness and aesthetic beauty Above all we have to know ourselves and be able to pass the mirror test every day Our most important relationship after all being with ourself and we don't discover our spiritual unity without a Personal Strategic Plan Nor can we become ethically fit without enthusiasm equanimity and a commitment to excellence traits not found in cocoons Only ethical fitness can help us find the resolution to the fundamental ethical dilemmas we all face truth versus loyalty short term versus long term individual versus community and justice versus mercy This book suggests we use a variety of lenses to look at the world today power wealth prestige status We use the lenses of economics politics and technology We do not use nearly enough the lens of ethics

relationships happiness decency and the golden mean Once we're ethically fit the result of continuous practice we're able to recognize ethical dilemmas approach them skillfully and resolve them successfully This book shows the way to such fitness which is useful in any context or relationship personal local or global Cocoon is a self-improvement book of the first order with real-life macro illustrations of the ethical dilemmas we face in a complex and crowded world in which too many of us pursue the dictates of false gods It includes over 500 practice questions and was developed as a textbook in the ethics courses the author taught to seniors at Ramapo College from 2002 to 2005

If Harry Potter Ran General Electric Tom Morris, 2006-05-16 However important the magic of wands brooms cauldrons potions and spells might be to the vivid story telling of the Harry Potter books it is merely incidental to their philosophy of life I can't count the number of times I've heard someone in a business context say something like I wish I could just magically solve all these problems or I'll try my best to deal with this but remember I'm no magician What is particularly interesting is that the most difficult problems that the people in Harry's world face are rarely solved with just magic but rather by the use of intelligence reasoning planning courage determination persistence resourcefulness creativity fidelity friendship and many other qualities traditionally known by the philosophers in our world as virtues The meaning of life is not to be found in elixirs or incantations secret words or exotic objects with esoteric powers but in real moral virtue and the magic of what it can help us do J K Rowling's novels about Harry Potter and the Hogwarts School of Witchcraft and Wizardry have captured the imaginations of people everywhere In **IF HARRY POTTER RAN GENERAL ELECTRIC** bestselling business author Tom Morris **IF ARISTOTLE RAN GENERAL MOTORS** uncovers the values and timeless truths that underlie Rowling's hugely popular books and illuminate the lessons they offer to all of us in our careers and daily lives But you say Harry Potter lives in a world of magic What can we possibly learn to apply to our own careers and everyday lives Morris shows that the most difficult problems Harry and his friends face are rarely solved by the use of magic alone Rather they are conquered by intelligence reasoning determination creativity friendship and a host of other classic virtues the very qualities in fact that make for success in every aspect of our lives Blending an array of provocative examples from the novels with thought provoking commentary on contemporary management practices **IF HARRY POTTER RAN GENERAL ELECTRIC** offers readers a master's course on leadership and ethics told in an engaging and insightful way

Rhode, 2015-06-10 *Moral Leadership* brings together in one comprehensive volume essays from leading scholars in law leadership psychology political science and ethics to provide practical theoretical policy guidance The authors explore key questions about moral leadership such as How do leaders form sustain and transmit moral commitments Under what conditions are those processes most effective What is the impact of ethics officers codes training programs and similar initiatives How do standards and practices vary across context and culture What can we do at the individual organizational and societal level to foster moral leadership Throughout the book the contributors identify what people know and only think they know about the role of ethics in key decision making positions

The essays focus on issues such as the definition and importance of moral leadership and the factors that influence its exercise along with practical strategies for promoting ethical behavior. Moral Leadership addresses the dynamics of moral leadership with particular emphasis on major obstacles that stand in its way: impaired judgment, self-interest, and power. The MBA Oath Max Anderson, Peter Escher, 2010-04-29 As a manager, my purpose is to serve the greater good by bringing people and resources together to create value that no single individual can create alone. So begins the MBA Oath, conceived in early 2009 by Max Anderson, Peter Escher, and a team of Harvard Business School students. They saw that in the wake of the financial crisis, the Madoff scandal, and other headlines, MBAs were being vilified. People were angry because business leaders, many of whom were MBAs, seemed not to care about anything beyond their own private interests. Many began to question the worth of business schools and the MBA degree. The oath quickly spread beyond Harvard, becoming a worldwide movement for a new generation of leaders who care about society as well as the bottom line. Thousands of graduating MBAs have now pledged to conduct themselves with honesty and integrity, just as medical students swear by the Hippocratic oath before they can practice. This book is the manifesto for the movement. It provides not only a strong case for why the MBA Oath is necessary but also examples of how it can be applied in the real world. It will help guide businesspeople through some of the toughest decisions they'll make in their careers.

Do No Evil Michael E.

Berumen, 2003-07-14 An effective integration of ethics, morality, and business practices including extensive discussions of social justice, animal rights, and the environment, the author elucidates the many layers of the managerial and corporate environment, deftly analyzing the fiduciary, social, and moral relationships between the players in a corporation. A fresh, convincing ethical examination. Kirkus Discoveries. Being good is not good enough to be moral. In *Do No Evil*, Michael Berumen debunks the notions that moral judgments are subjective preferences and that there are no universal standards of morality. He analyzes leading normative theories and gives biographical highlights on several important philosophers. Berumen then sets forth his own theory: the only basis for universal morality is the avoidance of death and suffering, in contrast to conventional conceptions of promoting good, which he shows cannot form a basis for universal rules of conduct. Berumen then examines the concepts of property, exchange, competition, and inequality, and shows why capitalism occupies the default position of morality and why socialism is problematic. With that said, he also explains why property rights are not unlimited and how morality serves to constrain capitalist acts. The last part of the book deals with business-related topics. Berumen demonstrates that a business is property and not primarily an instrument for delivering social justice, and he covers such areas as governance, fiduciary responsibility, marketing, globalism, the environment, duties to animals, and moral courage.

Select Quotations on the Art of Living Tom Lovett, 2024-03-10 Why do liberals and conservatives differ so consistently on such varied issues? Why do people fight so bitterly over political and religious issues? Don't our shared human interests

outweigh our differences Tom Lovett looked for answers in the natural sciences in the social sciences and in the humanities Over time he linked key knowledge from those three sources into a theory of the art of living a theory that honors our shared human interests Select Quotations on the Art of Living 2024 outlines that theory and uses quotations from eminent authors to illustrate it His earlier book Creating Beautiful Lives 2020 presents details of the theory In the proposed theory we learn skills in the art of living and create beautiful lives by doing three things Seeking the ancient ideals beauty truth and goodness Essential dictionary meanings of those three words can help us seek them Seeking those ideals while engaging in our most basic behavior Like other animals we create living space obtain food eat court have sex parent groom play build form social bonds fight flee and sleep Seeking those ideals through art science and religion Unlike other animals we can modify our behavior with artistic skill with scientific knowledge and with religious devotion and inspiration Art can be a path toward beauty science a path toward truth and religion a path toward goodness Each path can eventually lead toward all three We become artistic by refining a skill sufficiently We become scientific by evaluating a theory rigorously and finding it adequately reliable or false We become religious by devoting ourselves thoroughly to an activity idea group or interest and or by joining an organized religion We can learn everyday forms and specialized forms of art science and religion Everyday forms modify our basic behavior and everyone can learn them The specialized forms are fine art painting sculpture writing singing music dance theater and many more social and natural science and organized religion Everyone can value those specialties and choose whether and how to participate in them The proposed theory reconciles realism about our animal nature with idealism about our highest human potential The art of living becomes our way of life and the human species becomes one human family We live in peace and harmony with one another with other species and with nature We are at home on the earth and in the universe

us to Cynics and Skeptics Epicureans and Stoics emperors and slaves and traces the development of Christian and Jewish philosophy and of ancient science Chapters are devoted to such major figures as Epicurus Lucretius Cicero Seneca Plotinus and Augustine But in keeping with the motto of the series the story is told without any gaps providing an in depth look at less familiar topics that remains suitable for the general reader For instance there are chapters on the fascinating but relatively obscure Cyrenaic philosophical school on pagan philosophical figures like Porphyry and Iamblichus and extensive coverage of the Greek and Latin Christian Fathers who are at best peripheral in most surveys of ancient philosophy A major theme of the book is in fact the competition between pagan and Christian philosophy in this period and the Jewish tradition also appears in the shape of Philo of Alexandria Ancient science is also considered with chapters on ancient medicine and the interaction between philosophy and astronomy Considerable attention is paid also to the wider historical context for instance by looking at the ascetic movement in Christianity and how it drew on ideas from Hellenic philosophy From the counter cultural witticisms of Diogenes the Cynic to the subtle skepticism of Sextus Empiricus from the irreverent atheism of the Epicureans to the ambitious metaphysical speculation of Neoplatonism from the ethical teachings of Marcus Aurelius to the political philosophy of Augustine the book gathers together all aspects of later ancient thought in an accessible and entertaining way
