Light 3ed Volume 1:

The Cambridge Edition of Early Christian Writings: Volume 1, God Andrew Radde-Gallwitz, 2017-11-23 The Cambridge Edition of Early Christian Writings provides the definitive anthology of early Christian texts from c 100 to 650 CE. Its six volumes reflect the cultural, intellectual, and linguistic diversity of early Christianity and are organized thematically on the topics of God, practice, Christ, community, reading, and creation. The series expands the pool of source material to include not only Greek and Latin writings but also Syriac and Coptic texts. Additionally, the series rejects a theologically normative view by juxtaposing texts that were important in antiquity but later deemed heretical with orthodox texts. The translations are accompanied by introductions, notes, suggestions for further reading, and scriptural indices. The first volume focuses on early Christian writings about God's nature and unity and the meaning of faith. It will be an invaluable resource for students and academic researchers in early Christian studies, history of Christianity, theology, religious studies, and late antique Roman history.
