A lively narrative history of Hollywood s classical age Over the last twenty five years the field of cinema studies has offered a dramatic reassessment of the history of film in general and of Hollywood in particular Writers have drawn on the methodologies of a number of disciplines literary criticism sociology psychology women s studies and minority and gay studies to deepen our understanding of motion pictures the film industry and movie theater audiences In *Hollywood s High Noon* noted film historian Thomas Cripps offers a lively narrative history of Hollywood s classical age that brings the insights of recent scholarship to students and general readers From its origin during the First World War to the beginning of its decline in the 1950s Cripps writes Hollywood operated as did other American industries movies were created by a rational production system regulated by both government and privately organized interests and subject to the whims of a fickle marketplace Yet these films did offer consumers something unique in darkened movie palaces across the country audiences projected themselves their hopes and ideas onto silver screens profoundly mediating their reception of Hollywood s flickering images Beginning with turn of the century moving picture pioneer Thomas Edison Cripps traces the invention of Hollywood and the development of the studio system He explores the movie going experience the struggle for social control over the movies through censorship the impact of sound on the style

and content of films alternatives to Hollywood's oligopoly including race films and documentaries the paradoxical predictability and subversive creativity of genre pictures and Hollywood's self-proclaimed shining moment during the Second World War Cripps concludes with a discussion of the collapse of the studio system after the war due in equal parts to suburbanization the emergence of television and government anti-trust action **Magic Shadows** Martin

Quigley, 2021-11-05 The art of magic shadows which just before the dawn of the twentieth century evolved into the modern motion picture was born three centuries ago in Rome Just at the appointed hour for Kircher's show a few distinguished Monsignori in flowing purple were driven to the entrance in their carriages with a mounted escort Nothing like Kircher's show had ever been presented before He had chained light and shadow but the suspicion was held by some of the spectators that there was a dark magic about it all and that Kircher had dabbled in the black arts **Film Noir Light and Shadow**

Alain Silver, 2023-12-12 Despite a glut of black and white filters the digital revolution in videography has all but abandoned the art science beauty and power of cinematic lighting that literally illuminated the Golden Age of motion pictures Film Noir Light and Shadow explores an era before CGI a time when every photon mattered and the lighting of a set served a grander purpose than simply rendering its subjects visible Edited by Alain Silver and James Ursini the duo behind numerous critically acclaimed studies of other aspects of noir this anthology presents a series of essays that examine the visual style of the filmmakers of cinema's classic period Some focus on individual pictures or directors others discuss elements of style or subgroups of movies within the movement All are sharply focused on what makes the noir phenomenon unique in American and global cinematic history Aside from highlighting the innovative work of its editors and their late colleague Robert Porfirio Film Noir Light and Shadow also shares its light with a bevy of contributors who have written and edited their own books on the subject a list of luminaries that includes Sheri Chinen Biesen Shannon Clute and Richard Edwards Julie Grossman Delphine Letort Robert Miklitsch R Barton Palmer Homer Pettey Marlisa Santos Imogen Sara Smith and Tony Williams As befits the topic this volume is lavishly illustrated with 500 images that capture the richness and breadth of the classic period's imagery making it an ideal companion for students of the genre film historians sprocket fiends and the retrospectively inclined *The Aesthetics of Shadow* Daisuke Miyao, 2013-03-04 In this revealing study Daisuke Miyao explores the

aesthetics of shadow in Japanese cinema in the first half of the twentieth century This term coined by the production designer Yoshino Nobutaka refers to the perception that shadows add depth and mystery Miyao analyzes how this notion became naturalized as the representation of beauty in Japanese films situating Japanese cinema within transnational film history He examines the significant roles lighting played in distinguishing the styles of Japanese film from American and European film and the ways that lighting facilitated the formulation of a coherent new Japanese cultural tradition Miyao discusses the influences of Hollywood and German cinema alongside Japanese Kabuki theater lighting traditions and the emergence of neon commercial lighting during this period He argues that lighting technology in cinema had been structured

by the conflicts of modernity in Japan including capitalist transitions in the film industry the articulation of Japanese cultural and national identity and increased subjectivity for individuals By focusing on the understudied element of film lighting and treating cinematographers and lighting designers as essential collaborators in moviemaking Miyao offers a rereading of Japanese film history

Pautz, 2017-12-29 In the movies government often finds itself in a variety of roles from villain to supporting cast and rarely if ever the hero A frequent component of that role is the bureaucracy and as documented in *Civil Servants on the Silver Screen* Hollywood's Depiction of Government and Bureaucrats bureaucrats are routinely found on screen This book investigates how government bureaucrats are portrayed in the top ten box office grossing films from 2000 through 2015 Perhaps unsurprisingly government is generally portrayed poorly while individual government bureaucrats are typically depicted positively These images of government on screen are particularly important given the ability of movies to influence the attitudes and perceptions of its audiences The nature of these depictions and potential implications are considered as bureaucrats in film are categorized

American Anti-Pastoral Thomas Gustafson, 2024-06-14 One of the best known novels taking place in New Jersey Philip Roth s 1997 *American Pastoral* uses the fictional hamlet of Old Rimrock NJ as a microcosm for a nation in crisis during the cultural upheavals of the 1960s 70s Critics have called Old Rimrock mythic but it is based on a very real place the small Morris county town of Brookside New Jersey *American Anti Pastoral* reads the events in Roth s novel in relation to the history of Brookside and its region While Roth s protagonist Seymour Swede Levov initially views Old Rimrock as an idyllic paradise within the Garden State its real world counterpart has a more complex past in its origins as a small industrial village as well as a site for the politics of exclusionary zoning and a 1960s anti war protest at its celebrated 4th of July parade Literary historian and Brookside native Thomas Gustafson casts Roth s canonical novel in a fresh light as he studies both Old Rimrock in comparison to Brookside and the novel in relationship to NJ literature making a case for it as

the Great New Jersey novel For Roth fans and history buffs alike American Anti Pastoral peels back the myths about the bucolic Garden State countryside to reveal deep fissures along the fault lines of race and religion in American democracy
