## **Lightning Man The Accursed Life Of Samuel F B Morse:**

**Lightning Man** Kenneth Silverman, 2010-04-07 In this brilliantly conceived and written biography Pulitzer Prize winning Kenneth Silverman gives us the long and amazing life of the man eulogized by the New York Herald in 1872 as perhaps the most illustrious American of his age Silverman presents Samuel Morse in all his complexity There is the gifted and prolific painter more than three hundred portraits and larger historical canvases and pioneer photographer who gave the first lectures on art in America became the first Professor of Fine Arts at an American college New York University and founded the National Academy of Design There is the republican idealist prominent in antebellum politics who ran for Congress and for mayor of New York But most important there is the inventor of the American electromagnetic telegraph which earned Morse the name Lightning Man and brought him the fame he sought In these pages we witness the evolution of the great invention from its inception as an idea to its introduction to the world an event that astonished Morse's contemporaries and was considered the supreme expression of the country's inventive genius We see how it transformed commerce journalism transportation military affairs diplomacy and the very shape of daily life ushering in the modern era of communication But we discover as well that Morse viewed his existence as accursed rather than illustrious his every achievement seeming to end in loss and defeat his most ambitious canvases went unsold his beloved republic imploded into civil war making it unlivable for him and the commercial success of the telegraph engulfed him in lawsuits challenging the originality and ownership of his invention Lightning Man is the first biography of Samuel F B Morse in sixty years It is a revelation of the life of a fascinating and profoundly troubled American genius The Alchemy of Us Ainissa Ramirez, 2021-04-06 A timely informative and

fascinating study of 8 inventions and how they shaped our world with totally compelling insights on little known inventors throughout history Elizabeth Kolbert Pulitzer Prize winning author of The Sixth Extinction In The Alchemy of Us scientist and science writer Ainissa Ramirez examines 8 inventions and reveals how they shaped the human experience Clocks Steel rails Copper communication cables Photographic film Light bulbs Hard disks Scientific labware Silicon chips Ramirez tells the stories of the woman who sold time the inventor who inspired Edison and the hotheaded undertaker whose invention pointed the way to the computer She describes how our pursuit of precision in timepieces changed how we sleep how the railroad helped commercialize Christmas how the necessary brevity of the telegram influenced Hemingway's writing style and how a young chemist exposed the use of Polaroid's cameras to create passbooks to track black citizens in apartheid South Africa These fascinating and inspiring stories offer new perspectives on our relationships with technologies Ramirez shows not only how materials were shaped by inventors but also how those materials shaped culture chronicling each invention and its consequences intended and unintended Filling in the gaps left by other books about technology Ramirez showcases little known inventors particularly people of color and women who had a significant impact but whose accomplishments have been hidden by mythmaking bias and convention Doing so she shows us the power of telling inclusive stories about technology She

also shows that innovation is universal whether it s splicing beats with two turntables and a microphone or splicing genes with two test tubes and CRISPR      *The Power Makers* Maury Klein,2008-05-27 Traces the power revolution that transformed America from an agrarian society into a technological superpower evaluating the contributions of such figures as George Westinghouse J P Morgan and Thomas Edison By the author of *Rainbow s End* The Crash of 1929 50 000 first printing      **A Furious Sky: The Five-Hundred-Year History of America's Hurricanes** Eric Jay Dolin,2020-08-04 Washington Post 50 Notable Works of Nonfiction in 2020 Finalist Kirkus Prize for Nonfiction Kirkus Reviews Best Nonfiction Books of 2020 Library Journal Best Science Technology Books of 2020 Booklist 10 Top Sci Tech Books of 2020 New York Times Book Review Editor s Choice With A Furious Sky best selling author Eric Jay Dolin tells the history of America itself through its five hundred year battle with the fury of hurricanes In this compelling chronicle New York Times Book Review Eric Jay Dolin tells the history of America through its battles with hurricanes Weaving together tales of tragedy and folly of heroism and scientific progress best selling author Eric Jay Dolin shows how hurricanes have time and again determined the course of American history from the nameless storms that threatened the New World voyages to our own era of global warming and megastorms Along the way Dolin introduces a rich cast of unlikely heroes and forces us to reckon with the reality that future storms will likely be worse unless we reimagine our relationship with the planet      Simply Electrifying Craig R. accomplished and productive author in other diverse genres and literary forms including a novel In the first book published that treats all of Susan Fenimore Cooper's known writings preceded by a concise biographical chapter that includes material from Cooper's personal letters Dr Rosaly T Kurth views her literary canon with a wide ranging lens In her compelling study Dr Kurth uniquely incorporates Cooper's philosophy of environmental stewardship on which scholars have thus far focused into an expansive philosophy that includes familial patriotic and humanitarian stewardships thus embracing the human element as well as the environmental Dr Kurth's research on the life and works of Cooper dates back to the early 1970s during which time she discovered nineteen of Cooper's works and as a result in 1977 published the first extensive annotated bibliography of her writings In her engaging book Dr Kurth not only meaningfully and relevantly brings to her work other nineteenth century writers including Thoreau but also nineteenth century women novelists both English and American Dr Kurth also intertwines the results of her lifelong interest in fine art and artistic inclinations as she demonstrates in instances the results of Cooper's remarkable artistic tendencies as manifested in some of her writings Included in this work are Cooper's impassioned series of articles never before treated and with extensive documentation that deal largely with the displacement of the Oneida Indians and their subsequent plight and on related land issues representing in essence the plight of the entire race Comprehensively treated Susan Fenimore Cooper's literary works reveal not only a learned talented cultivated and creative woman writer but also the observant concerned and enlightened mind of a woman expressing herself timelessly on momentous issues not only of man in relation to the natural world around him but of man in relation to his fellow man

Power-Lined Daniel L. Wuebben, 2019-07-01 The proliferation of electric communication and power networks have drawn wires through American landscapes like vines through untended gardens since 1844 But these wire networks are more than merely the tools and infrastructure required to send electric messages and power between distinct places the iconic lines themselves send powerful messages The wiry webs above our heads and the towers rhythmically striding along the horizon symbolize the ambiguous effects of widespread industrialization and the shifting values of electricity and landscape in the American mind In *Power Lined* Daniel L Wuebben weaves together personal narrative historical research cultural analysis and social science to provide a sweeping investigation of the varied influence of overhead wires on the American landscape and the American mind Wuebben shows that overhead wires from Morse's telegraph to our high voltage grid not only carry electricity between American places but also create electrified spaces that signify and complicate notions of technology nature progress and most recently renewable energy infrastructure *Power Lined* exposes the subtle influences wrought by the wiring of the nation and shows that even in this age of wireless devices perceptions of overhead lines may be key in progressing toward a more sustainable energy future

*Glorious Lessons* Richard Brookhiser, 2024-05-28 The complicated life and legacy of John Trumbull whose paintings portrayed both the struggle and the principles that distinguished America's founding moment John Trumbull 1756-1843 experienced the American Revolution firsthand he

served as aid to George Washington and Horatio Gates was shot at and was jailed as a spy He made it his mission to record the war giving visual form to what most citizens of the new United States thought that they had brought into the world a great and unprecedented political experiment His purpose he wrote was to preserve and diffuse the memory of the noblest series of actions which have ever presented themselves in the history of man Although Trumbull's contemporaries viewed him as a painter Trumbull thought of himself as a historian Richard Brookhiser tells Trumbull's story of acclaim and recognition a story complicated by provincialism war a messy personal life and ultimately changing fashion He shows how the artist's fifty year project embodied the meaning of American exceptionalism and played a key role in defining the values of the new country Trumbull depicted the story of self rule in the modern world a story as important and as contested today as it was 250 years ago *American Civil War* Spencer C. Tucker, 2013-09-30 This expansive multivolume reference work provides a broad multidisciplinary examination of the Civil War period ranging from pre Civil War developments and catalysts such as the Mexican American War to the rebuilding of the war torn nation during Reconstruction The Civil War was undoubtedly the most important and seminal event in 19th century American history Students who understand the Civil War have a better grasp of the central dilemmas in the American historical narrative states rights versus federalism freedom versus slavery the role of the military establishment the extent of presidential powers and individual rights versus collective rights Many of these dilemmas continue to shape modern society and politics This comprehensive work facilitates both detailed reading and quick referencing for readers from the high school level to senior scholars in the field The exhaustive coverage of this encyclopedia includes all significant battles and skirmishes important figures both civilian and military weapons government relations with Native Americans and a plethora of social political cultural military and economic developments The entries also address the many events that led to the conflict the international diplomacy of the war the rise of the Republican Party and the growing crisis and stalemate in American politics slavery and its impact on the nation as a whole the secession crisis the emergence of the total war concept and the complex challenges of the aftermath of the conflict

The Life and Songs of Stephen Foster JoAnne O'Connell, 2016-09-29 The Life and Songs of Stephen Foster offers an engaging reassessment of the life politics and legacy of the misunderstood father of American music Once revered the world over Foster's plantation songs like Old Folks at Home and My Old Kentucky Home fell from grace in the wake of the Civil Rights Movement due to their controversial lyrics Foster embraced the minstrel tradition for a brief time refining it and infusing his songs with sympathy for slaves before abandoning the genre for respectable parlor music The youngest child in a large family he grew up in the shadows of a successful older brother and his president brother in law James Buchanan and walked a fine line between the family's conservative politics and his own pro Lincoln sentiments Foster lived most of his life just outside of industrial smoke filled Pittsburgh and wrote songs set in a pastoral South unsullied by the grime of industry but tarnished by the injustice of slavery Rather than defining Foster by his now controversial minstrel songs JoAnne O'Connell reveals a prolific composer who concealed his true feelings in his lyrics and wrote in diverse styles to satisfy the changing tastes of his generation In a trenchant reevaluation of his New York Bowery years O'Connell illustrates how Foster purposely abandoned the style for which he was famous to write lighthearted songs for newly popular variety stages and music halls In the last years of his life Foster's new direction in songwriting stood in the vanguard of vaudeville and musical comedy to pave the way for the future of American popular music His stylistic flexibility in the face of evolving audience preferences not only proves his versatility as a composer but also reveals important changes in the American music and publishing industries An intimate biography of a complex controversial and now neglected composer The Life and Songs of Stephen Foster is an important story about the father of American music This invaluable portrait of the political economic social racial and gender issues of antebellum and Civil War America will appeal to history and music lovers of all generations

**Charles Thomas Jackson, "the Head Behind the Hands"** Richard J. Wolfe, Richard W. Patterson, 2007 **The Invention of Terrorism in Europe, Russia, and the United States** Carola Dietze, 2021-07-20 This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the

dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze's lucid account also reveals how the spread of knowledge about terrorist acts was from the outset a transatlantic process Two incidents form the book's centerpiece The first is the failed attempt to assassinate French Emperor Napolon III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown's raid on the arsenal at Harpers Ferry in 1859 as a decisive moment in the abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods
