Reducing Hate Through Multicultural Education and

Transformation Festus E. Obiakor, 2023-04-01 Reducing Hate through Multicultural Education and Transformation is a book that reminds us that we live in a complex world and at micro and macro levels the demography is changing and people are worried about the current state of affairs their future and the future of their children At local national and global levels there appears to be unsteadiness crises and struggles in our economies politics and societies Disruptions disasters and deaths are visible at all spectra of our lives and our leaders seem unready unwilling underprepared and unprepared to bring us together to solve our problems for the common good Even when we make efforts to respond to human differences and multicultural valuing they seem to be half baked cakes that are unready for consumption and there continues to be visible hateful actions that devastate our sacred existence While these hateful actions have filtered into our families schools communities nation and world we pretend to solve them by engaging in phony community relations fraudulent multiculturalism and unreasonable wokeness to masquerade our inefficiency inflexibility prejudice and jaundiced views Reducing Hate through Multicultural Education and Transformation provides cutting edge solutions for innovative educators and leaders Yes hate is a controversial construct that is rarely researched studied and discussed in education The reason is that teachers and related professionals are supposedly very liberal people who cannot hate their culturally and linguistically diverse CLD students parents and colleagues And the lingering question is can a teacher who is always liberal be also hateful This question seems legitimate and to answer it we must look deeper into traditional presumptions The reality is that White educators and professionals who dominate the educational profession are human beings who live in their respective White dominated communities As a result they teach or lead people who they do not know very well If not why should CLD individuals continue to experience hateful misidentifications misassessments miscategorizations misplacements and misinstructions in school programs And why should disproportionate placements of CLD learners with special education needs gifts and talents and emotional behavioral problems continue to be burning issues in education This book provides outside the box solutions
