Traversing the black void a lonely space cruiser searches for signs of life The pilot's mission is to plot new routes and find new worlds to study to advance humanity's interstellar progress But all Ren's found is dead space and the only progress he's made is adding plasma vapor to the universal ephemera Until he crashes on an unknown planet and discovers space isn't as dead as he thought Renner Tachibana has spent his entire life training for space exploration He could have had any cushy assignment he wanted But he chose the riskiest most remote deployment he could get because he wanted to make a difference He wanted his years of hard work to mean something All it's gotten him so far is stranded on a seemingly uninhabited world with a busted ship and only his emergency provisions to sustain him With nothing left to lose he ventures away from what he knows determined to find something of consequence What he discovers turns his expectations upside down and casts him in a role he never would have chosen as a prisoner of an unknown race Living a life of privilege and luxury Tali Saarna Eldaerenth has little to complain about The palace provides everything he could ever want lavish rooms an infinite library of fascinating stories any activity he could think to pursue What it doesn't give him is a way out of his gilded cage His purpose is to sire the next heir to the Taaranthian throne not to rule not to improve the lives of his people but to stay out of the way and do as he's told He wants so much more but he's stuck where he is with no hope for anything better When a strange outsider is brought to the palace though Tali seizes the opportunity to broker peace and learn from the intriguing foreign being Maybe he can encourage his mother and his people to embrace the new ideas he finds so exciting Maybe the outsider really has come to change everything Two civilizations come crashing together in a cosmic collision of technological advancement versus ancient tradition Ren and Tali see in each other the fulfillment of their hopes and dreams but embracing the future means sacrificing
