History Of Our World:

The History of the World John Morris Roberts, Odd Arne Westad, 2013 A survey of the major events developments and personalities that have shaped human history **History of Our World** Henry Billings, Steck-Vaughn, 2003 General History of the World Carl von Rotteck, 1840 *A History of the World from the 20th to the 21st Century* John Ashley Soames Grenville, 2005 Provides a comprehensive survey of the key events and personalities of this period A Little History of the World E. H. Gombrich, 2008-10-07 Presents a brief narrative history of the world for young readers from the Stone Age up to the end of World War II *The History of the World* Walter Raleigh, 1687 **A Short History of the World** H. G. Wells, 2022-05-29 In *A Short History of the World* H G Wells presents an expansive yet accessible overview of human civilization tracing the progression of societies from prehistoric times to the modern era Written in a clear engaging style the book synthesizes complex historical narratives into a cohesive account employing Wells s characteristic wit and critical insight His employment of narrative techniques helps readers better grasp the interconnectedness of historical events movements and ideas while also contextualizing humanity s achievements and failures within the broader arc of history This work carefully balances scholarly rigor with an emphasis on readability appealing to both academic audiences and general readers alike H G Wells often celebrated for his pioneering contributions to science fiction was equally passionate about social issues and historical inquiry His extensive background in liberal thought combined with the socio political upheavals of his time profoundly influenced his perspective on history This ambition to educate and engage the masses reflects his belief in the power of knowledge as a vehicle for progress steering society toward a more enlightened future This book is highly recommended for anyone interested in a comprehensive yet digestible overview of world history Wells s incisive analysis and eloquent prose invite readers to reflect on their own place within the continuum of human history making it an essential read for both students and history enthusiasts **The Sacred History of the World** Sharon Turner, 1842 **The Historians' History of the World in Twenty-Five Volumes** Various Authors, 2020-09-28 Broadly speaking the historians of all recorded ages seem to have had the same general aims They appear always to seek either to glorify something or somebody or to entertain and instruct their readers The observed variety in historical compositions arises not from difference in general motive but from varying interpretations of the relative status of these objects and from differing judgments as to the manner of thing likely to produce these ends combined of course with varying skill in literary composition and varying degrees of freedom of action As to freedom of selective judgment the earliest historians whose records are known to us exercised practically none at all Their task was to glorify the particular monarch who commanded them to write The records of a Ramses a Sennacherib or a Darius tell only of the successful campaigns in which the opponent is so much as mentioned only in contrast with the prowess of the victor With these earliest historians therefore the ends of historical composition were met in the simplest way by reciting the deeds real or alleged of a king as Ramses Sennacherib or David or of the gods as Osiris or

Ishtar or Yahveh As to entertainment and instruction the reader was expected to be overawed by the recital of mighty deeds and to draw the conclusion that it would be well for him to do homage to the glorified monarch human or divine A little later in what may be termed the classical period the historians had attained to a somewhat freer position and wider vision and they sought to glorify heroes who were neither gods nor kings but the representatives of the people in a more popular sense Thus the Iliad dwells upon the achievements of Achilles and Ajax and Hector rather than upon the deeds of Menelaus and Priam the opposing kings Hitherto the deeds of all these heroes would simply have been transferred to the credit of the king Now the individual of lesser rank is to have a hearing Moreover the state itself is now considered apart from its particular ruler The histories of Herodotus of Xenophon of Thucydides of Polybius in effect make for the glorification not of individuals but of peoples This shift from the purely egoistic to the altruistic standpoint marks a long step The writer now has much more clearly in view the idea of entertaining without frightening his reader and he thinks to instruct in matters pertaining to good citizenship and communal morality rather than in deference to kings and gods In so doing the historian marks the progress of civilisation of the Greek and early Roman periods In the medi val time there is a strong reaction To frighten becomes again a method of attacking the consciousness to glorify the gods and heroes a chief aim As was the case in the Egyptian and Persian and Indian periods of degeneration the early monotheism has given way to polytheism Hagiology largely takes the place of secular history A constantly growing company of saints demands attention and veneration To glorify these to show the futility of all human action that does not make for such glorification became again an aim of the historian But this influence is by no means altogether dominant and though there is no such list of historians worthy to be remembered as existed in the classical period yet such names appear as those of Einhard the biographer of Charlemagne De Joinville the panegyrist of Saint Louis Villani Froissart and Monstrelet the chroniclers and Comines Machiavelli and Guicciardini

Harmsworth History of the World Anonymous, 2022-11-09 Reprint of the original first published in 1871 *A History of New York, from the Beginning of the World to the End of the Dutch Dynasty* Diedrich Knickerbocker, 2024-08-25 Reprint of the original first published in 1840

A History of the World in 12 Maps Jerry Brotton, 2013-11-14 A New York Times Bestseller Maps allow the armchair traveler to roam the world the diplomat to argue his points the ruler to administer his country the warrior to plan his campaigns and the propagandist to boost his cause rich and beautiful Wall Street Journal Throughout history maps have been fundamental in shaping our view of the world and our place in it But far from being purely scientific objects maps of the world are unavoidably ideological and subjective intimately bound up with the systems of power and authority of particular times and places Mapmakers do not simply represent the world they construct it out of the ideas of their age In this scintillating book Jerry Brotton examines the significance of 12 maps from the almost mystical representations of ancient history to the satellite derived imagery of today He vividly recreates the environments and circumstances in which each of the maps was made showing how each conveys a highly individual view of the world Brotton shows how each of his maps

both influenced and reflected contemporary events and how by considering it in all its nuances and omissions we can better understand the world that produced it Although the way we map our surroundings is more precise than ever before Brotton argues that maps today are no more definitive or objective than they have ever been Readers of this beautifully illustrated and masterfully argued book will never look at a map in quite the same way again A fascinating and panoramic new history of the cartographer's art The Guardian The intellectual background to these images is conveyed with beguiling erudition There is nothing more subversive than a map The Spectator A mesmerizing and beautifully illustrated book The Telegraph An Institution of General History, Or, The History of the World William Howell, 1680 **The Secret History of the World**

Mark Booth, 2010-02-23 This New York Times bestselling work reimagines world history through the belief systems of Freemasons Rosicrucians Kabbalists and others They say that history is written by the victors But what if history as we know it written by the wrong people What if everything we've been told is only part of the story In this groundbreaking and controversial work Mark Booth embarks on an enthralling tour of our world's secret histories Booth starts from a dangerous premise That the stories put forward by the world's various cults and mystical traditions are true From there he relates a deeply provocative alternate history of the past 3 000 years From Greek and Egyptian mythology to Jewish folklore from Christian cults to Freemasons from Charlemagne to Don Quixote from George Washington to Hitler Booth shows that history needs a revolutionary rethink and he has 3 000 years of hidden wisdom to back it up A History of the World from the Earliest Records to the Present Time: From the creation of the world to the accession of Philip of Macedon Philip Smith, 1864

The Treasury of History, Being a History of the World Samuel Maunders, 1850 A History of the Holy Bible, from the Beginning of the World to the Establishment of Christianity Thomas Stackhouse, 1817 **The Historians' History of the World** Henry Smith Williams, 1907 A History of the World from the Earliest Records to the Present Time: From the triumvirate of Tiberius Gracchus to the fall of the Roman empire Philip Smith, 1865 History of the World Dr Malti Malik, History Book
