## History Of Resistance In Namibia:

A History of Resistance in Namibia Peter H. Katjavivi, 1988

**Transnational Histories of Southern Africa's Liberation Movements** Jocelyn Alexander, JoAnn McGregor, Blessing-Miles Tendi, 2020-05-21

Transnational Histories of Southern Africa's Liberation Movements offers new perspectives on southern Africa's wars of national liberation drawing on extensive oral historical and archival research. Assuming neither the primacy of nationalist loyalties as they exist today nor any single path to liberation, the book unpicks any notion of a straightforward imposition of Cold War ideologies or strategic interests on liberation wars. This approach adds new dimensions to the rich literatures on the Global Cold War and on solidarity movements. The contributors trace the ways that ideas and practices were made, adopted and circulated through time and space through a focus on African soldiers, politicians and diplomats. The book also asks what motivated the men and women who crossed borders to join liberation movements, how Cold War influences were acted upon, interpreted and used, and why certain moments, venues and relations took on exaggerated importance. The connections among liberation movements between them and their hosts and across an extraordinarily diverse set of external actors reveal surprising exchanges and lasting legacies that have too often been obscured by the assertion of monolithic national histories. Tracing an extraordinarily diverse set of interactions and exchanges, *Transnational Histories of Southern Africa's Liberation Movements* will be of great interest to scholars of Southern Africa, Transnational History, the Cold War and African Politics. The chapters were originally published as a special issue of the *Journal of Southern African Studies*.

*National Liberation in Post-Colonial Southern Africa* Christian A. Williams, 2015-10-08

**Apartheid's Black Soldiers** Lennart Bolliger, 2021-10-01

New oral histories from Black Namibian and Angolan troops who fought in apartheid South Africa's security forces reveal their involvement and its impact on their lives to be far more complicated than most historical scholarship has acknowledged. In anticolonial struggles across the African continent, tens of thousands of African soldiers served in the militaries of colonial and settler states. In southern Africa, they often made up the bulk of these militaries and in some contexts far outnumbered those who fought in the liberation movements' armed wings. Despite these soldiers' significant impact on the region's military and political history, this dimension of southern Africa's anticolonial struggles has been almost entirely ignored in previous scholarship. Black troops from Namibia and Angola spearheaded apartheid South Africa's military intervention in their countries' respective anticolonial war and postindependence civil war. Drawing from oral history interviews and archival sources, Lennart Bolliger challenges the common framing of these wars as struggles of national liberation fought by and for Africans against White colonial and settler state armies. Focusing on three case studies of predominantly Black units commanded by White officers, Bolliger investigates how and why these soldiers participated in South Africa's security forces and considers the legacies of that involvement. In tackling these questions, he rejects the

common tendency to categorize the soldiers as collaborators and traitors and reveals the un national facets of anticolonial struggles Finally the book s unique analysis of apartheid military culture shows how South Africa s military units were far from monolithic and instead developed distinctive institutional practices mythologies and concepts of militarized masculinity

*International Law and the Protection of Namibia's Territorial Integrity* S. Akweenda,2023-07-24 International law is not static it develops constantly Namibia is classic case illustrating the changing law of nations International Law and the Protection of Namibia s Territorial Integrity Boundaries and Territorial Claims demonstrates this with an analysis of the legal and factual elements present in the creation boundaries and territorial claims of Namibia and the determinations of the League of Nations and the political organs of the United Nations which developed and clarified the rules of international law Namibia s unique international status and diplomatic history requires the consideration of a large number of different topics within public international law Some of these issues are very complex and technical as they involve major questions of international law and politics Through the use of primary sources case law state practice and the opinions of eminent jurists the author addresses these challenging and revealing issues Anyone interested in public international law international relations political science history or geography will appreciate the way that this work covers the interesting and informative changes in this revealing nation **The Gender Politics of the Namibian Liberation Struggle** Martha Akawa,2014

Women s contributions against apartheid under the auspices of the Namibian liberation movement SWAPO and their personal experiences in exile take center stage in this study Male and female leadership structures in exile are analysed whilst the sexual politics in the refugee camps and the public imagery of female representation in SWAPO s nationalism receive special attention The party s public pronouncements of women empowerment and gender equality are compared to the actual implementations of gender politics during and after the liberation struggle *Landscapes between Then and Now* Nicola Brandt,2020-09-08 In *Landscapes Between Then and Now* Nicola Brandt examines the increasingly compelling and diverse cross disciplinary work of photographers and artists made during the transition from apartheid to post apartheid and into the contemporary era By examining specific artworks made in South Africa Namibia and Angola Brandt sheds light on established and emerging themes related to aftermath landscapes embodied histories un belonging spirituality and memorialization She shows how landscape and identity are mutually constituted and profiles this process against the background of the legacy of the acutely racially divisive policies of the apartheid regime that are still reflected on the land As a signpost throughout the book Brandt draws on the work of the renowned South African photographer Santu Mofokeng and his critical thinking about landscape *Landscapes Between Then and Now* explores how practitioners who engage with identity and their physical environment as a social product might reveal something about the complex and fractured nature of postcolonial and contemporary societies Through diverse strategies and aesthetics they comment on inherent structures and epistemologies of power whilst also expressing new and radical forms of self determinism Brandt asks why these cross

disciplinary works ranging from social documentary to experimental performance and embodied practices are critical now and what important possibilities for social and political reflection and engagement they suggest

*Traders and Trade in Colonial Ovamboland, 1925-1990* Gregor Dobler, 2014-08-14 Taking the history of trade and of traders as its subject matter this book offers the first economic history of northern Namibia during the twentieth century It traces Namibia's way from a rural largely self relying society into a globalised economy of consumption This transformation built on colonial economic activities but it was crucially shaped by local traders a new social elite emerging during the 1950s and 1960s Becoming a trader was one of the few possibilities for black Namibians to gain monetary income at home It was a pathway out of migrant labour to new status in the local society and often to prosperity Politically most traders occupied a middle ground content of their own social position but intent on political emancipation from colonial rule Economically their energy and business acumen transformed northern Namibia into an increasingly urban consumer society The development path they chose however depended too much on the colonial reserve economy to remain sustainable after 1990 Their legacy still shapes spatial and social structures in northern Namibia but most traders businesses have today closed down By telling the history of the rise and decline of traders and trade in northern Namibia this book is thus also a reflection on the conundrums of economic development under conditions of structural inequality
