History Of Russian Symbolism:

A History of Russian Symbolism Avril Pyman, 2006-03-09 This book is the first detailed history of the Russian Symbolist movement from its initial hostile reception as a symptom of European decadence to its absorption into the mainstream of Russian literature and eventual disintegration. It focuses on the two generations of writers whose work served as the seedbed of Existentialism in thought and of Modernism in prose and the performing arts and reassesses their achievements in the light of modern research. At the centre of the study are the texts themselves with prose quoted in English translation and poetry given in the original Russian with prose translations. There is a valuable bibliography of primary sources and an extensive chronological appendix. This book will fill a long felt gap and will be invaluable to students and teachers of Russian and comparative literature. Symbolism, Modernism and pre-revolutionary Russian culture. *A History of Russian Symbolism* Ronald E. Peterson, 1993-07-09 The era of Russian Symbolism 1892-1917 has been called the Silver Age of Russian culture and even the Second Golden Age. Symbolist authors are among the greatest Russian authors of this century and their activities helped to foster one of the most significant advances in cultural life in poetry, prose, music, theater and painting that has ever been seen there. This book is designed to serve as an introduction to Symbolism in Russia as a movement, an artistic method and a world view. The primary emphasis is on the history of the movement itself. Attention is devoted to what the Symbolists wrote, said and thought and on how they interacted. In this context the main actors are the authors of poetry, prose, drama and criticism but space is also devoted to the important connections between literary figures and artists, philosophers and the intelligentsia in general. This broad, detailed and balanced account of this period will serve as a standard reference work and encourage further research among scholars and students of literature. *A History of Russian Symbolism* Ronald E. Kostetskaya examines the links between symbolist poetry, paintings and cinema and their evoked sensory/emotional imagery in the context of iconicity and conceptual blending.

Self and Story in Russian History Laura Engelstein, Stephanie Sandler, 2018-08-06 Russians have often been characterized as people with souls rather than selves Self and Story in Russian History challenges the portrayal of the Russian character as selfless self effacing or self torturing by exploring the texts through which Russians have defined themselves as private persons and shaped their relation to the cultural community The stories of self under consideration here reflect the perspectives of men and women from the last two hundred years ranging from westernized nobles to simple peasants from such famous people as Tolstoy Dostoyevsky Akhmatova and Nicholas II to lowly religious sectarians Fifteen distinguished historians and literary scholars situate the narratives of self in their historical context and show how since the eighteenth century Russians have used expressive genres including diaries novels medical case studies films letters and theater to make political and moral statements The first book to examine the narration of self as idea and ideal in Russia this vital work contemplates the shifting historical manifestations of identity the strategies of self creation and the diversity of narrative forms Its authors establish that there is a history of the individual in Russian culture roughly analogous to the one associated with the West
