History of Sexuality Michel Foucault, 1979 **The Sex Lives of Saints** Virginia Burrus, 2004 Has a repressive morality been the primary contribution of Christianity to the history of sexuality The ascetic concerns that pervade ancient Christian texts would seem to support such a common assumption Focusing on hagiographical literature Virginia Burrus pursues a fresh path of interpretation arguing that the early accounts of the lives of saints are not antierotic but rather convey a sublimely transgressive countereroticism that resists the marital procreative ethic of sexuality found in other strands of Christian tradition Without reducing the erotics of ancient hagiography to a single formula The Sex Lives of Saints frames the broad historical theological and theoretical issues at stake in such a revisionist interpretation of ascetic eroticism with particular reference to the work of Michel Foucault and Georges Bataille David Halperin and Geoffrey Harpham Leo Bersani and Jean Baudrillard Burrus subsequently proceeds through close performative readings of the earliest Lives of Saints mostly dating to the late fourth and early fifth centuries

Jerome's Lives of Paul Malchus Hilarion and Paula Gregory of Nyssa's Life of Macrina Augustine's portrait of Monica Sulpicius Severus's Life of Martin and the slightly later Lives of so-called harlot saints Queer's m and postcolonial theories are among the contemporary discourses that prove intriguingly resonant with an ancient art of saintly loving that remains in Burrus's reading promisingly mobile diverse and open ended [A Postmodern Reader](#) Joseph P. Natoli, Linda Hutcheon, 1993-01-01 These readings are organized into four sections The first explores the wellsprings of the debates in the relationship between the postmodern and the enterprise it both continues and contravenes modernism Here philosophers social and political commentators as well as cultural and literary analysts present controversial background essays on the complex history of postmodernism The readings in the second section debate the possibility or desirability of trying to define the postmodern given its cultural agenda of decentering challenging even undermining the guiding master narratives of Western culture The readings in the third section explore postmodernism's complicated complicity with these very narratives while the fourth section moves from theory to practice in order to investigate in a variety of fields the common denominators of the postmodern condition in action *Feminist Interpretations of Michel Foucault* Susan J. Hekman, 1996 The exciting possibilities of a Foucauldian approach to issues of the subject and identity especially as they relate to sex and the body are detailed in several of the essays collected here Despite the possibilities however Foucault's approach has raised serious questions about an equally crucial area of feminist thought politics Some feminist critics of Foucault have argued that his deconstruction of the concept woman also deconstructs the possibility of a feminist politics Several essays explore the implications of this deconstruction for feminist politics and suggest that a Foucauldian feminist politics is not viable Overall this collection illustrates the range of interest Foucault's thought has generated among feminist thinkers and both the advantages and liabilities of his approach for the development of feminist theory and politics
