African Military History John Lamphear, 2017-05-15 This collection of essays on pre colonial sub Saharan African military history is drawn from a number of academic journals and includes some which are considered milestones in African historiographical discourse as well as others which while lesser known provide remarkable insight into the unique nature of African military history Selections were made so as to produce an introduction to the understudied field of pre colonial African military history that will be useful to specialists and non specialists alike The volume also contains an introduction which presents one of the first significant reviews of pre colonial African military historiography ever attempted

Wars Of Imperial Conquest Bruce Vandervort, 2015-01-28 First Published in 1998 The aim of this book is to examine the origins and conduct of colonial warfare in Africa in the late nineteenth century as far as possible from the perspectives both of the European invaders and the African resisters and in the process to demonstrate the impact both immediate and long term of these wars upon the societies political structures and military theory and practice of both victors and vanquished Vandervort has written this book with the student and general reader in mind scholarly apparatus has been kept to a minimum The book which follows takes as its point of departure the belief that we have now reached a point in our understanding of the military history of the partition of Africa where it is possible to begin to draw some meaningful general conclusions

Directions in African Military History Timothy J. Stapleton, 2025-06-02 New Directions in African Military History takes a thematic approach to the history of war and military structures in Africa and highlights the under researched areas African Military History represents a relatively new and fast growing sub field bridging the previously wide gap between the well established genres of African History and Military History Based on a synthesis of existing literature and aimed at a wide readership this book adopts a broad temporal range and uses select examples to highlight a series of points to cover the pre colonial to post colonial eras and offer examples from various parts of the continent This volume evaluates controversial academic debates examining evidence research methods approaches and changing historiographical contexts as well as pointing to potential new areas of research It comprises seven thematic chapters on ways of war weapons technology navies air power battles women combatants and genocide in African history This volume will be of value to students and scholars alike interested in Modern History Military History and African History

Indian Armed Forces in the World War , The book is primarily based on the facts and figures culled out from official records such as regimental histories war diaries of the units and higher formations of the Indian Armed Forces maintained by the India Office Library London the National Archives of India Delhi and the records preserved in various States Archives Correspondence between the Secretary of State for War

and the Viceroy in India was another vital source material The War Dispatches from the Force Commanders to the Commander in Chief also helped in understanding the nuances of the First World War WW I Authentic published sources some of which are first hand accounts by participating Commanders have also been used The Foreign Policies of East African States Jude Kagoro, Julian Friesinger, Klaus Schlichte, 2024-11-26 This book analyses the foreign policies of African countries specifically in the region of East Africa It reveals the regional dynamics and the way in which the international system interacts with these policies and how they are driven by domestic politics versus national visions and vice versa As such it provides fine grained and historically informed analyses of the international relations of these states arguing that foreign policy is always informed by domestic processes and the relations between states and changes within the international system impact on the formulation of domestic politics via foreign policy Finally the book argues that East Africa's foreign policy is not one of militarised action alone but rather a range of self survival strategies stemming from the desire to close the gap with more industrialised states necessitating a variety of trade and diplomatic efforts This book is of key interest to scholars and students of African politics Foreign Policy Foreign Policy Analysis International Organisations and more broadly to comparative politics and international relations The Last Word? Jeffrey Grey, 2003-11-30 Official history is a misunderstood genre of historical writing which attracts much negative comment from non official historians but about which very little detail is actually known This book examines the development of official history programs in Canada South Africa Australia and New Zealand over the course of the twentieth century looking at the ways in which they developed and the contributions each made to their respective national historiography The second part of the work develops some themes from the first and takes the official histories of the Second World War as case studies Drawing on programs in Australia Britain and the United States these essays examine the relationship between the histories the historians and their sponsoring institutions They assess the impact of the histories on historical understanding of the Second World War They also consider the impact that contemporary events during the Cold War had on the writing of the official history *The Second World War in East Africa, 1940-1941*, 2024-12-16 As a first of its kind this edited collection brings together a variety of chapters dealing with different topics that address where possible most of the participants involved in or affected by the conflict as well as different often neglected aspects of the East Africa campaign of the Second World War In doing so this volume not only makes a definite contribution to the broader historiography and to our understanding of a diverse complex Second World War but will also serve as an impetus for further topical research on an important yet neglected campaign of the war

West African Soldiers in Britain's Colonial Army (1860-1960) Timothy Stapleton, 2022 West African Soldiers in Britain's Colonial Army 1860-1960 explores the history of Britain's West African colonial army based in Nigeria Ghana Sierra Leone and the Gambia placing it within a broader social context and emphasizing as far as possible the experience of the ordinary soldier The aim is not to describe the many battles and campaigns fought by this force but to look at the

development of the West African colonial army as an institution over the course of about a century. In pursuing this goal it is sometimes useful to employ the lens of military culture defined differently by scholars but essentially meaning a set of shared ideas and behaviors that inform daily life in the military. While other locally recruited colonial militaries in Africa have attracted considerable attention from historians as they served as an essential pillar supporting European rule, this book represents the first comprehensive scholarly study of Britain's West African army, which was the largest such British-led force south of the Sahara. The study is based on extensive archival research conducted in nine archives located in five countries.

Politics and the Military in Uganda, 1890-1985 Amii Omara-Otunnu, 1987-07-14 How was the military dictatorship of Idi Amin possible? Was it inevitable? The author seeks the answers to these questions in the political and military history of Uganda from colonial times and finally considers the regimes which have followed Amin's dictatorship in Uganda, exploring the political role of the army after it has taken power. This case study of Uganda contains valuable insights into civil-military relations elsewhere in sub-Saharan Africa.

General Jan Smuts And his First World War in Africa (1914-1917) David Brock Katz, 2022-08-24 An engaging, well-written and meticulously researched military biography. Tim Stapleton, Professor, Department of History, University of Calgary. Jan Smuts grabbed the opportunity to realise his ambition of a Greater South Africa when the First World War ushered in a final scramble for Africa. He set his sights firmly northward upon the German colonies of South West Africa and East Africa. Smuts's abilities as a general have been much denigrated by his contemporaries and later historians, but he was no armchair soldier. He first learned his soldier's craft under General Koos de la Rey and General Louis Botha during the South African War, 1899-1902. He emerged from that conflict immersed in Boer manoeuvre doctrine. After forming the Union Defence Force in 1912, Smuts played an integral part in the German South West African campaign in 1915. Placed in command of the Allied forces in East Africa in 1916, he led a mixed bag of South Africans and imperial troops against the legendary Paul von Lettow Vorbeck and his Schutztruppen. His penchant for manoeuvre warfare and mounted infantry freed most of the vast German territory from Lettow Vorbeck's grip. *General Jan Smuts and his First World War in Africa* provides a long overdue reassessment of Smuts's generalship and his role in furthering the strategic aims of South Africa and the British Empire during this era.

A Military History of Africa Timothy J. Stapleton, 2013-10-21 A detailed and thorough chronological overview of the history of warfare and military structures in Africa, covering ancient times to the present day. *A Military History of Africa* achieves a daunting task: it synthesizes decades of specialized academic research and literature, including the most recent material, to offer an accessible survey of Africa's military history from the earliest times to the present day. The first volume examines the precolonial period, beginning with warfare in ancient North Africa, including ancient Egypt and Carthage, and continues through the cavalry-based Muslim empires of the trans-Saharan trade and the wars of the slave trade in West and East Africa. The second volume focuses on the wars of European colonial conquest and African resistance during the late 19th century. African participation in both world

wars and the early violent struggles for independence from the 1950s and early 1960s The third volume explores warfare in postcolonial Africa including coverage of the impact of the global Cold War conflicts in Southern Africa from the 1960s to 1980s the development of postcolonial African armed forces and civil wars sparked by the discovery of precious resources such as diamonds in Sierra Leone Readers of this three volume work will understand how warfare and military structures have been consistently central to the development of African societies
