P. Robson,Jens Röhrkasten,2010 Emanating from the tradition of the Italian hermit communities the Franciscans developed organisational structures already early in their history allowing them to offer pastoral care on a wide scale This process of transition led firstly to constitutional structures as defined in the order s early legislation but it also occurred within relationship networks at different levels in the context of Church and papacy within the different European regions and before the background of the emerging Canon Law The term organisation has

been given a wide definition in the articles published in this volume They offer a survey of general issues related to the structuring and running of religious orders as well as a number of case studies Comparisons with other mendicant orders offer an analysis of the issues in a wider context

Sacred Trust Robert Burton Ekelund,1996 They explore the myriad sources of the Church's wealth including tithes and land rents donations and bequests judicial services and monastic agricultural production And they present an in depth look at the ways in which Church principles on marriage usury and crusade were revised as necessary to meet and in many ways to create the needs of a vast body of consumers Along the way the book raises and answers many intriguing questions

Angkor Wat - A Transcultural History of Heritage Michael Falser,2019-12-16 This book unravels the formation of the modern concept of cultural heritage by charting its colonial postcolonial nationalist and global trajectories By bringing to light many unresearched dimensions of the twelfth century Cambodian temple of Angkor Wat during its modern history the study argues for a conceptual connected history that unfolded within the transcultural interstices of European and Asian projects With more than 1 400 black and white and colour illustrations of historic photographs architectural plans and samples of public media the monograph discusses the multiple lives of Angkor Wat over a 150 year long period from the 1860s to the 2010s Volume 1 *Angkor in France* reconceptualises the Orientalist French colonial discovery of the temple in the nineteenth century and brings to light the manifold strategies at play in its physical representations as plaster cast substitutes in museums and as hybrid pavilions in

universal and colonial exhibitions in Marseille and Paris from 1867 to 1937 Volume 2 Angkor in Cambodia covers for the first time in this depth the various on site restoration efforts inside the Archaeological Park of Angkor from 1907 until 1970 and the temple s gradual canonisation as a symbol of national identity during Cambodia s troublesome decolonisation 1953 89 from independence to Khmer Rouge terror and Vietnamese occupation and finally as a global icon of UNESCO World Heritage since 1992 until today Congratulations to our author Michael Falser who received the prestigious 2021 ICAS Book Prize in the Ground Breaking Subject Matter category
