

# Personal Letter

Dear [Name],

I hope this letter finds you well. I wanted to take a moment to reach out and let you know how much I appreciate our friendship. You have always been there for me, offering a listening ear and a helping hand whenever I needed it.

I am writing to you today because I have some exciting news to share. I have decided to pursue a new career opportunity, and I will be moving to [new location] next month. I am both excited and a bit nervous about this change, but I know that it is the right decision for me.

I wanted to let you know that I will truly miss you. You have been such an important part of my life, and I will always treasure the memories we have shared together. I hope that we will stay in touch, and that our friendship will continue to grow and flourish even though we will be living in different places.

Please take care and know that you are always in my thoughts.

Sincerely, [Your Name]

Sheppard, 2015-06-02 Essays in honor of the scholarly work and institutional leadership of Jehuda Reinharz focusing on the role of the individual in history **Hidden History** Jim Willis, 2020-05-01 Investigates and questions the scientific consensus on the origins of civilization Do we the human species really know who we are or where we came from or how we originated or our place in the cosmos Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to keep people in power and everyone else in line Exploring alternative theories on the establishment of society and civilization Hidden History Ancient Aliens and the Suppressed Origins of Civilization looks at a variety of dissenting suppressed and forbidden accounts of history and the origins of humanity It takes a broad and inclusive survey of historical documents various theories and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization It combines cutting edge science with metaphysical spiritual and even paranormal views daring to ask whether there might be a better explanation for humanity s existence and the origins of civilization than the current scientific consensus Hidden History looks at the multiverse and parallel dimensions the ancient alien theory metaphysics and hypotheses beyond physical perception the eleven dimensions of string theory radio telescopes that penetrate to the event horizon of our universe mathematical equations that take us where no one has gone before and the world wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths With more than 120 photos and graphics this tome is richly illustrated Its helpful bibliography provides sources for further exploration and an extensive index adds to its usefulness This fascinating book is a thorough investigation and examination of the mysteries surrounding early civilizations their myths legends histories monuments and lasting legacies **The Magazine of History with Notes and Queries** ,1907 *Eight Controversial Questions of History* Bob Doti, 2024-04-24 Is history written by the victors It should not be Nor should it be based on opinions but what do writers in the field tell us about the questions we are posing We will not engage in conspiracy theory but facts to discuss these questions We will look at everyone from Pat Buchanan to the writings of Joseph Stalin to answer the eight controversial questions of history Did the Treaty of Versailles trigger German extremism Did the British policy of appeasement toward Germany before WW2 help trigger the Cold War after WW2 Is isolationism a good policy or not Why didn t Canada revolt in 1776 with the US Could the takeover by the communists in Russia have been prevented Did Mao want to fight the USA in the Korean War Did FDR act out of racial animus with Japanese internment Did Reagan accelerate or hinder the end of the Cold War Indeed in writing history it constantly undergoes revision as new primary documents or new perspectives from secondary sources emerge as the historians constantly write to this day This new perspective as the culture changes informs us better These questions concern the current world we live in for the rest of our lives So this is not

the final word on these questions Eight essays have four themes war and peace nationalism and imperialism democracy and dictatorship and impactful presidents and controversy

Unknown to History ,1893 **History** ,1928 An Unnatural History of Religions Leonardo Ambasciano,2018-12-27 An Unnatural History of Religions examines the origins development and critical issues concerning the history of religion and its relationship with science The book explores the ideological biases logical fallacies and unwarranted beliefs that surround the scientific foundations or lack thereof in the academic discipline of the history of religions positioning them in today s post truth culture Leonardo Ambasciano provides the necessary critical background to evaluate the most important theories and working concepts dedicated to the explanation of the historical developments of religion He covers the most important topics and paradigm shifts in the field such as phenomenology postmodernism and cognitive science These are taken into consideration chronologically each time with case studies on topics such as shamanism gender biases ethnocentrism and biological evolution Ambasciano argues that the roots of post truth may be deep in human biases but that historical justifications change each time resulting in different combinations The surprising rise of once fringe beliefs such as conspiracy theories pseudoscientific claims and so called scientific creationism demonstrates the alarming influence that post truth ideas may exert on both politics and society Recognising them before they spread anew may be the first step towards a scientifically renewed study of religion

*A History of Cornell* Morris Bishop,2014-10-15 Cornell University is fortunate to have as its historian a man of Morris Bishop s talents and devotion As an accurate record and a work of art possessing form and personality his book at once conveys the unique character of the early university reflected in its vigorous founder its first scholarly president a brilliant and eccentric faculty the hardy student body and sometimes unfortunately its early architecture and establishes Cornell s wider significance as a case history in the development of higher education Cornell began in rebellion against the obscurantism of college education a century ago Its record claims the author makes a social and cultural history of modern America This story will undoubtedly entrance Cornellians it will also charm a wider public Dr Allan Nevins historian wrote I anticipated that this

book would meet the sternest tests of scholarship insight and literary finish I find that it not only does this but that it has other high merits It shows grasp of ideas and forces It is graphic in its presentation of character and idiosyncrasy It lights up its story by a delightful play of humor felicitously expressed Its emphasis on fundamentals without pomposity or platitude is refreshing Perhaps most important of all it achieves one goal that in the history of a living university is both extremely difficult and extremely valuable it recreates the changing atmosphere of time and place It is written very plainly by a man who has known and loved Cornell and Ithaca for a long time who has steeped himself in the traditions and spirit of the institution and who possesses the enthusiasm and skill to convey his understanding of these intangibles to the reader The distinct personalities of Ezra Cornell and first president Andrew Dickson White dominate the early chapters For a vignette of the founder see Bishop s description of his first buildings Cascadilla Morrill McGraw White Sibley At best he writes they embody the character of Ezra Cornell grim gray sturdy and economical To the English historian James Anthony Froude Mr Cornell was the most surprising and venerable object I have seen in America The first faculty chosen by President White reflected his character his idealism his faith in social emancipation by education his dislike of dogmatism confinement and inherited orthodoxy while the romantic upstate gothic architecture of such buildings as the President s house now Andrew D White Center for the Humanities Sage Chapel and Franklin Hall may be said to portray the taste and Soul of Andrew Dickson White Other memorable characters are Louis Fuertes the beloved naturalist his student Hugh Troy who once borrowed Fuertes rhinoceros foot wastebasket for illicit if hilarious purposes the more noteworthy and the more eccentric among the faculty of succeeding presidential eras and of course Napoleon the campus dog whose talent for hailing streetcars brought him home safely and alone from the Penn game The humor in A History of Cornell is at times kindly at times caustic and always illuminating

The Professionalization of History in English Canada Donald A. Wright, 2015-05-27 The study of history in Canada has a history of its own and its development as an academic discipline is a multifaceted one The Professionalization of History in English Canada charts the transition of the study of history from a leisurely pastime to that of a full blown academic career for university trained scholars from the mid nineteenth to the late twentieth century Donald Wright argues that professionalization was not in fact a benign process nor was it inevitable It was deliberate Within two generations historians saw the creation of a professional association the Canadian Historical Association and rise of an academic journal the Canadian Historical Review Professionalization was also gendered In an effort to raise the status of the profession and protect the academic labour market for men male historians made a concerted effort to exclude women from the academy History s professionalization is best understood as a transition from one way of organizing intellectual life to another What came before professionalization was not necessarily inferior but rather a different perspective of history As well Wright argues convincingly that professionalization inadvertently led to a popular inverse the amateur historian whose work is often more widely received and appreciated by the general public

Wedemeyer, Wendy Doniger, 2010 This volume comprises papers presented at a conference marking the 50th anniversary of Joachim Wach's death and the centennial of Mircea Eliade's birth Its purpose is to reconsider both the problematic separate legacies of these two major twentieth century historians of religions and the bearing of these two legacies upon each other Shortly after Wach's death in 1955 Eliade succeeded him as the premiere historian of religions at the University of Chicago As a result the two have been associated with each other in many people's minds as the successive leaders of the so called Chicago School in the history of religions In fact as this volume makes clear there never was a monolithic Chicago School Although Wach reportedly referred to Eliade as the most astute historian of religions of the day the two never met and their approaches to the study of religions differed significantly Several dominant issues run through the essays collected here the relationship between the two men's writings and their lives and in Eliade's case the relationship between his political commitments and his writings in fiction history of religions and autobiography Both men's contributions to the field continue to provoke controversy and debate and this volume sheds new light on these controversies and what they reveal about these two scholars legacies **History and Historians in the Nineteenth Century** George Peabody Gooch, 1920 *History of Soybeans and Soyfoods in Canada* (1831-2019) William Shurtleff; Akiko Aoyagi, 2019-09-14 The world's most comprehensive well documented and well illustrated book on this subject With extensive subject and geographical index 224 photographs and illustrations mostly color Free of charge in digital PDF format on Google Books **World History on Satan's Diet** Sean Summers, 2007-09 This book solves history's mysteries and why the world's leaders since the beginning of time made the decisions they did What caused the deaths of famous people of the past like Charlemagne Alexander Pope Beethoven Napoleon George Washington and others What caused King George III to go mad What caused the Revolutionary War the French Revolution the Revolution of

*A Local History of Greek Polytheism* Irene Polinskaya, 2013-11-28 This book provides the first comprehensive and detailed study of the deities and cults of the important Greek island state of Aigina from the Geometric to Classical periods 800 400 BCE It rests on a thorough first hand reconsideration of the archaeological epigraphic and literary evidence The development of the local cults is reconstructed along with their interrelationships and how they responded to the social needs of the Aiginetans Revising other recent models of interpretation the author proposes a distinctive approach informed by anthropology and social theory to the study of the religious life of the ancient Greeks On this basis she uses the case of Aigina to explore fundamental issues such as the nature and variety of local religious worlds and their relationship to the panhellenic concepts and practices of Greek religion

Memory, History, Nation Susannah Radstone, 2017-09-04 In the last decade a focus on memory in the human sciences has encouraged new approaches to the study of the past As the humanities and social sciences have put into question their own claims to objectivity authority and universality memory has appeared to offer a way of engaging with knowledge of the past as inevitably partial subjective and local At the same time memory and memorial practices have become sites of contestation and the politics of memory are increasingly prominent This interdisciplinary volume demonstrates from a range of perspectives the complex cultural work and struggles over meaning that lie at the heart of what we call memory The chapters in this volume offer a complex awareness of the workings of memory and the ways in which different or changing histories may be explained They explore the relation between individual and social memory between real and imaginary event and fantasy history and myth Contradictory accounts or memories in direct contradiction to the historical record are not always the sign of a repressive authority attempting to cover something up The tension between memory as a safeguard against attempts to silence dissenting voices and memory's own implication in that silencing runs throughout the book Topics covered range from the Basque country to Cambodia from Hungary to South Africa from the Finnish Civil War to the cult Jim Jarmusch movie Dead Man from the Rock and Roll Hall of Fame to Australia

Part I Transforming Memory is concerned primarily with the social and personal transmission of memory across time and

generations Part II Remembering Suffering Trauma and History brings the after effects of catastrophe to the fore Part III Patterning the National Past the relation between nation and memory is the central issue Part IV And Then Silence reflects on the complex and multiple meaning of silence and oblivion wherein amnesia is often used as a figure for the denial of shamefu
