Hitler II:

Hitler's People Richard J Evans, 2024-08-13 Named a Best Book of the Year by Kirkus Reviews and Air Mail A fascinating and instructive book elegantly written and perceptive Wall Street Journal Kaleidoscopic A fascinating exploration of individual agency that never loses sight of the larger context Just the kind of probing nuanced and unsparing study to help us think things through The New York Times Through a connected set of biographical portraits of key Nazi figures that follows power as it radiated out from Hitler to the inner and outer circles of the regime's leadership one of our greatest historians answers the enduring question how does a society come to carry out a program of unspeakable evil Richard Evans author of the acclaimed The Third Reich Trilogy and over two dozen other volumes on modern Europe is our preeminent scholar of Nazi Germany Having spent half a century searching for the truths behind one of the most horrifying episodes in human history in Hitler's People he brings us back to the original site of the Nazi movement namely the lives of its most important members Working in concentric circles out from Hitler and his closest allies Evans forms a typological framework of Germany society under Nazi rule from the top down With a novelist's eye for detail Evans explains the Third Reich through the personal failings and professional ambitions of its members from its most notorious deputies like Goebbels the regime's propagandist and Himmler the Holocaust's chief architect to the crucial enforcers and instruments of the Nazi agenda that history has largely forgotten like the schoolteacher Julius Streicher and the actress Leni Riefenstahl Drawing on a wealth of recently unearthed historical sources Hitler's People lays bare the inner and outer lives of the characters whose choices led to the deaths of millions Nearly a century after Hitler's rise the leading nations of the West are once again being torn apart by a will to power By telling the stories of these infamous lives as human lives Evans asks us to grapple with the complicated nature of complicity showing us that the distinctions between individual and collective responsibility and even between pathological evil and rational choice are never easily drawn

Hitler's Monsters

Eric Kurlander, 2017-06-06 A dense and scholarly book about the relationship between the Nazi party and the occult reveals stranger than fiction truths on every page Daily Telegraph The Nazi fascination with the occult is legendary yet today it is often dismissed as Himmler's personal obsession or wildly overstated for its novelty Preposterous though it was however supernatural thinking was inextricable from the Nazi project The regime enlisted astrology and the paranormal paganism Indo Aryan mythology witchcraft miracle weapons and the lost kingdom of Atlantis in reimagining German politics and society and recasting German science and religion In this eye opening history Eric Kurlander reveals how the Third Reich's relationship to the supernatural was far from straightforward Even as popular occultism and superstition were intermittently

rooted out suppressed and outlawed the Nazis drew upon a wide variety of occult practices and esoteric sciences to gain power shape propaganda and policy and pursue their dreams of racial utopia and empire Kurlander shows how swiftly irrational ideas can take hold even in an age before social media The Washington Post Deeply researched convincingly authenticated this extraordinary study of the magical and supernatural at the highest levels of Nazi Germany will astonish The Spectator A trustworthy book on an extraordinary subject The Times A fascinating look at a little understood aspect of fascism Kirkus Reviews Kurlander provides a careful clear headed and exhaustive examination of a subject so lurid that it has probably scared away some of the serious research it merits National Review **The Hitler Bloodline** David

Mussolini and Hitler Christian Goeschel,2018-09-25 This fresh treatment of Fascist Italy and Nazi Germany reveals how the close relationship between Mussolini and Hitler influenced both men From 1934 until 1944 Mussolini met Hitler numerous times and the two developed a relationship that deeply affected both countries While Germany is generally regarded as the senior power Christian Goeschel demonstrates just how much history has underrepresented Mussolini's influence on his German ally A scholar of twentieth century Germany and Italy Goeschel revisits all of Mussolini and Hitler's key meetings to examine how they constructed a powerful image of a strong Fascist Nazi relationship that still resonates with the general public His portrait of Mussolini draws on sources ranging beyond political history to reveal a leader who at times shaped Hitler's decisions and was not the gullible buffoon he's often portrayed as The first comprehensive study of the Mussolini Hitler relationship this book is a must read for scholars and anyone interested in the history of European fascism

World War II or political leadership *Hitler's Deserters* Douglas Carl Peifer, 2025 The Wehrmacht executed thousands of its own in World War II for desertion and undermining the military spirit This study examines who these Wehrmacht deserters were why they deserted what punishment they could expect and how German military justice operated It argues that after the First World War the German military embraced the Dolchstoß legend and determined that if it ever went to war again the military would punish deserters ruthlessly This view arrived at independently accorded fully with that of Adolf Hitler The study analyses the challenges associated with hiding in the Third Reich surrendering to the enemy or crossing over into neutral Switzerland or Sweden After the Second World War Germans began a debate about how these deserters should be remembered Vergangenheitsbewältigung and whether they should be rehabilitated The study analyzes the contested meaning attached to the Wehrmacht deserter in Germany from 1945 to the twenty first century **Hitler's Personal Prisoner** Benjamin Ziemann, 2024 From 1938 to 1945 the Protestant church leader Martin Niemöller was detained as Hitler's Personal Prisoner in Nazi concentration camps and has been widely hailed as an icon of Christian resistance against the Nazis Benjamin Ziemann uncovers a more problematic historical Niemöller behind the legend of the resistance hero *Hitler's Death* Luke Daly-Groves, 2019-03-21 A revealing look at the many conspiracy theories surrounding the death of the twentieth century's most destructive dictator Did Hitler shoot himself in the Führerbunker or did he slip past the Soviets and escape to South America Countless documentaries newspaper articles and internet pages written by conspiracy theorists have led the ongoing debate surrounding Hitler's last days Historians have not yet managed to make a serious response Until now This book is the first attempt by an academic to return to the evidence of Hitler's suicide in order to scrutinise the most recent arguments of conspiracy theorists using scientific methods Through analysis of recently declassified MI5 files previously unpublished sketches of Hitler's bunker personal accounts of intelligence officers along with stories of shoot outs plunder and secret agents this scrupulously researched book takes on the doubters to tell the full story of how Hitler died **The Third Reich in Power** Richard J. Evans, 2006-09-26 The acclaimed and comprehensive account of Germany's transformation under Hitler's total rule and the inexorable march to war by the author of *The Coming of the Third Reich* The Third Reich at War and *Hitler's People* Evans's three volume history is shaping up to be a masterpiece Fluidly narrated tightly organized and comprehensive The New York Times Mr Evans's magisterial study should be on our shelves for a long time to come The Economist By the middle of 1933 the democracy of the Weimar Republic had been transformed into the police state of the Third Reich mobilized around the cult of the leader Adolf Hitler In *The Third Reich in Power* Richard J Evans chronicles the incredible story of Germany's radical reshaping under Nazi rule As those who were deemed unworthy to be counted among the German people were dealt with in increasingly brutal terms Hitler's drive to prepare Germany for the war that he saw as its destiny reached its fateful hour in September 1939 This is the fullest and most authoritative account yet written of how in six years Germany was brought to the edge of that terrible abyss The Third

Reich at War Richard J. Evans, 2009 The final volume in Richard J Evans's masterly trilogy on the history of Nazi Germany traces the rise and fall of German military might the mobilization of a people's community to serve a war of conquest and Hitler's campaign of racial subjugation and genocide Already hailed as a masterpiece William Grimes in The New York Times and the most comprehensive history of the Third Reich Ian Kershaw this epic trilogy reaches its terrifying climax in this volume Evans interweaves a broad narrative of the war's progress with viscerally affecting personal testimony from a wide range of people from generals to front line soldiers from Hitler Youth activists to middle class housewives The Third Reich at War lays bare the dynamics of a nation more deeply immersed in war than any society before or since Fresh insights into the conflict's great events are here from the invasion of Poland to the Battle of Stalingrad to Hitler's suicide in the bunker But just as important is the re-creation of the daily experience of ordinary Germans in wartime staggering under pressure from Allied bombing and their own government's mounting demands upon them At the center of the book is the Nazi extermination of Europe's Jews set in the context of Hitler's genocidal plans for the racial restructuring of Europe Blending narrative description and analysis The Third Reich at War creates an engrossing picture at once sweeping and precise of a society rushing headlong to self-destruction and taking much of Europe with it It is the culmination of a historical masterwork that will remain the most authoritative work on Nazi Germany for years to come **Hitler** Michael Lynch, 2025-04-01 Adolf Hitler is the most notorious political figure of the twentieth century The story of his life how he became a dictator and how he managed to convince so many to follow his cause is a subject of perennial fascination Balancing narrative and analysis this biography employs a chronological approach to describe the main features of Hitler's career Set against the background of developments in Germany and Europe during his lifetime the text tells the extraordinary story of how an Austrian layabout rose to become Führer of the Third Reich This second edition has been fully updated to incorporate the research and literature from the last ten years including several major studies by British and German scholars that have added to our understanding of Hitler and the Third Reich New light has been shed on the character of National Socialism and on Hitler as a person and a political figure Fresh insights have been made into the Hitler cult and into the charismatic nature of Hitler's rule over Germany Modern historians continue to wrestle with questions that still demand an answer why did the nation that had made a unique contribution to European culture willingly follow Hitler on his nihilistic path Using an essentially narrative approach to the Hitler story the new edition incorporates the key findings of current research into the political socio-economic and military features of the Third Reich that Hitler sought to create before his irrationalities destroyed it Referencing the major historiographical disputes and drawing on the new perspectives that modern research provides this second edition addresses the issues that historians regard as central to the study of Hitler's Germany Michael Lynch provides a balanced guide to this most difficult of figures that will be enlightening for students and general readers alike *Germany and the Second World War* Horst Boog, Werner Rahn, Reinhard Stumpf, Bernd

Wegner,2001-09-13 Annotation Unparalleled in scope and depth Germany and the Second World War is a magisterial ten volume history series that will prove indispensable to historians of the twentieth century This volume examines the transformation of a European war into a global conflict during the period from 1941 1943 It focuses on the politics strategy and operations of the belligerent powers as Germany lost the initiative to the Allies and it spans both the climax and turning points of the war Its detailed analysis is supplemented by numerous maps diagrams and tables **Nazi Propaganda and the Second World War** A. Kallis,2005-12-16 This book analyzes the factors that determined the organization conduct and output of Nazi propaganda during World War II in an attempt to re assess previously inflated perceptions about the influence of Nazi propaganda and the role of the regime s propagandists in the outcome of the 1939 45 military conflict Germany and the Second World War ,1990 This is the second in the comprehensive ten volume Germany and the Second World War The five volumes so far published in German take the story to the end of 1941 and have achieved international acclaim as a major contribution to historical study Under the auspices of the Militargeschichtliches Forschungsamt Research Institute for Military History a team of renowned historians has combined a full synthesis of existing material with the latest research to produce what will be the definitive history of the Second World War This volume surveys the first year of the war deliberately begun by Nazi Germany The authors examine the train of interconnected political and military events and set military operations against the background of Hitler s war policy and general aims both immediate and long term The authors show that the conflict took a course quite different from that which Hitler had intended but nevertheless resulted in a series of conquests for the Third Reich **Inside Hitler's High Command** Geoffrey P. Megargee,2000 Challenging previous accounts Megargee shatters the myth that German generals would have prevailed in World War II if only Hitler had not meddled in their affairs Instead he observes that the military s strategic ideas were no better than Hitler s and often were worse 20 photos *A History of the German Public Pension System* Alfred C. Mierzejewski,2016-03-04 A History of the German Public Pension System Continuity amid Change provides the first comprehensive institutional history of the German public pension system from its origins in the late nineteenth century to the major reform period in the early twenty first century Relying on a wide range sources including many used for the first time this study provides a balanced account of how the pension system has coped with major challenges such as Germany s defeat in two world wars inflation the Great Depression the demographic transition political risk reunification and changing gender roles It shows that while the pension system has changed to meet all of these challenges it has retained basic characteristics particularly the tie between work contributions and benefits that fundamentally define its character and have enabled it to survive economic and political turmoil for over a century This book also demonstrates that the most serious challenge faced by the pension system has consistently been political intervention by leaders hoping to use it for purposes unrelated to its mission of providing the insured with secure and adequate retirement income *Hitler's Mountain* Arthur Mitchell,2007 This work examines the

political events that took place in Obersalzberg from the 1920s until the U S Army returned control of the area to the German government in 1995 Concentrating primarily on the years when Hitler was in residence it discusses his original acquaintance with Berchtesgaden and focuses on the symbolism of self identity and public perception Provided by publisher **Germany Under Hitler** Mildred Salz Wertheimer, 1935 *Hitler* Michael J. Lynch, 2013 This new accessible biography addresses the fundamental question surrounding Hitler Was he was the product of a unique extraordinary epoch or was he its creator In the context of the great mass of ideas and interpretations that have been produced in response to this basic yet demanding question Michael Lynch provides a balanced guide that will be enlightening for students and general readers alike **The Cornucopia of Fools** The Nameless Soldier, 2022-02-01 In short even if one is totally uninformed of politics after reading my first novel you will know basically how politics operates I have clothed the novel s characters with political characters who live on the knife s edge of politics Therefore political characters who would have the least sympathy for the public I could have based my novel on the political left but did not because I was more familiar with the politics and history of the right wing and therefore doing a novel with the leftist political would read a bit stilted Each chapter is a separate story and unique For example the chapter entitled 50 000 Flags for the Ayatollah is about a 1 000 percent right winger who has his own political party but for the right price he sold out and supplied fifty thousand American flags to the enemies of the United States for an anti American demonstration My girlfriend asked me if this ever happened and I told her not to my knowledge but if this ever happened I would have no doubt that they would sell out I believe that the reason both the right and left lie about each other is that if they told the truth no one outside politics would believe them There is no line in my novel that is of no interest You will find it hard to put down this novel until you are finished reading The following text is my novel
