Hits On The Web Art 2003:

Net Works Xtime Burrough,2012 Offers an inside look into the process of successfully developing thoughtful innovative digital media Using websites as case studies each chapter introduces a different style of web project from formalist play to social activism to data visualization and then includes the artists or entrepreneurs reflections on the particular challenges and outcomes of developing that web project Combining practical skills for web authoring with critical perspectives on the web this book is ideal for courses in new media design art communication critical studies media and technology or popular digital internet culture **Net.art generator** Cornelia Sollfrank,2004 The German artist hacker and cyberfeminist Cornelia Sollfrank gained notoriety with her Net Art Generator www.obn.org/generator which allows users to enter a few keystrokes and create a work of art Sollfrank's real goal is to challenge the concept of authorship in an age where appropriation is as common as the click of a mouse and this monograph provides a detailed discussion of one of the Net's pioneering artist theorists *Semantic Web and Peer-to-Peer* Steffen Staab,Heiner Stuckenschmidt,2006-03-28 Just like the industrial society of the last century depended on natural resources today's society depends on information and its exchange Staab and Stuckenschmidt structured the selected contributions into four parts Part I Data Storage and Access prepares the semantic foundation i.e. data modelling and querying in a flexible and yet scalable manner These foundations allow for dealing with the organization of information at the individual peers Part II Querying the Network considers the routing of queries as well as continuous queries and personalized queries under the conditions of the permanently changing topological structure of a peer to peer network Part III Semantic Integration deals with the mapping of heterogeneous data representations Finally Part IV Methodology and Systems reports experiences from case studies and sample applications The overall result is a state of the art description of the potential of Semantic Web and peer to peer technologies for information sharing and knowledge management when applied jointly **A Unified Theory of Cats on the Internet** E.J. White,2023-05-25 This cultural history reveals how cats became the undisputed mascot of the internet an essential look at life online Ryan Milner author of *The World Made Meme* Journalists and their readers seem to need no explanation for the line The internet is made of cats Everyone understands the joke but few know how it started A Unified Theory of Cats on the Internet is the first book to explore the history of how the cat became the internet's best friend Internet cats can differ in dramatic ways from the goth cats of Twitter to the glamourpusses of Instagram to the giddy nonsensical silliness of Nyan Cat But they all share common traits and values Bringing together fun anecdotes thoughtful analyses and hidden histories of the communities that built the internet Elyse White shows how japonisme punk culture cute culture and the battle among different communities for the soul of the internet informed the sensibility of online felines Internet cats offer a playful and useful way to understand how culture shapes and is shaped by technology Western culture has used cats for centuries as symbols of darkness pathos and alienation The communities that helped build the internet represented themselves as outsiders with snark and alienation at the core of

their identity Thus cats became the sine qua non of cultural literacy for the Extremely Online as well as an everyday medium of expression for the rest of us Whatever direction the internet takes next the series of tubes is likely to remain cat shaped

Croatia Michael Schuman,2004 Utting recent events in broad historical perspective this volume looks at the situation in Croatia discusses the political and economic developments that have taken place since 1991 and 1998 and explores the daily life and major cities of its people *Encyclopedia of American Gospel Music* W. K. McNeil,2013-10-18 The Encyclopedia of American Gospel Music is the first comprehensive reference to cover this important American musical form Coverage includes all aspects of both African American and white gospel from history and performers to recording techniques and styles as well as the influence of gospel on different musical genres and cultural trends **Microsoft Office FrontPage 2003** Daniela Marghitu,2005 For introductory courses covering Web page design using Microsoft FrontPage 2003 Master the How and Why of Computer Applications Students discover the how and why of performing tasks in Microsoft Frontpage and gain a greater understanding of how to use the computer applications to solve business problems *Effective Information Retrieval from the Internet* Alison Stacey,Adrian Stacey,2004-07-31 Effective Information Retrieval from the Internet discusses practical strategies which enable the advanced web user to locate information effectively and to form a precise evaluation of the accuracy of that information Although the book provides a brief but thorough review of the technologies which are available for these purposes most of the book concerns practical future proof techniques which are independent of changes in the tools available For example the book covers how to retrieve salient information quickly how to remove or compensate for bias and tuition of novice Internet users Importantly the book enables readers to develop strategies which will continue to be useful despite the rapidly evolving state of the Internet and Internet technologies it is not about technological tricks Enables readers to be aware of and compensate for bias and errors which are ubiquitous on the Internet Provides contemporary information on the deficiencies in web skills of novice users as well as practical techniques for teaching such users Handbook of Research on Computational Arts and Creative Informatics Braman, James,Vincenti, Giovanni,Trajkovski, Goran,2009-05-31 This book looks at the combination of art creativity and expression through the use and combination of computer science and how technology can be used creatively for self expression using different approaches Provided by publisher **Museum Marketing** Ruth Rentschler,Anne-Marie Hede,2009-11-04 Museums have moved from a product to a marketing focus within the last ten years This has entailed a painful reorientation of approaches to understanding visitors as customers new ways of fundraising and sponsorship as government funding decreases and grappling with using the internet for marketing This book brings the latest in marketing thinking to bear on the museum sector taking into account both the commercial issues and social mission it involves Carefully structured to be highly accessible the book offers A contemporary and relevant and global approach to museum marketing written by authors in Britain Australia the United States and Asia An approach that reflects the particular challenges museums of varying sizes

face when seeking to market an experience to a diverse set of stakeholders audience funders sponsors and government A particular focus on museum marketing in the Information Age Major case studies at the beginning and end of each section of the book and smaller case studies within chapters The hugely experienced author team includes both leading academics and practitioners to ensure the book has broad appeal and is both relevant innovative and progressive in approach It will be essential reading for students in museum studies non profit marketing and arts management and marketing It will also be equally relevant for professionals working in and managing museums and galleries heritage attractions and ministries of arts
