## History Of The Soviet Army:

**The Soviet Military Experience** Roger R. Reese, 2002-01-04 This work is the first general work to place the Soviet army into its true social political and international contexts It focuses on the Bolshevik Party's intention to create an army of a new type whose aim was both to defend the people and propagate Marxist ideals to the rest of the world It includes discussion of the origins of the Workers and Peasant's Red Army effects of the Civil War Bolshevik regime's use of the military as a school of socialism effects of collectivization and rapid industrialisation of the 1920s and 1930s Second World War and its profound repercussions ethnic tensions within the army effect of Gorbachev's policies of Glasnost and Perestroika

The Military History of the Soviet Union R. Higham, 2010-11-14 This volume provides an introduction to the history of the Soviet armed forces from 1917 to 1991 The authors highlight the many facets of the Cold War including the rise of the Soviet Navy after the Great Patriotic War and the collapse of the Soviet Union which marks its twentieth anniversary in 2011

A History of the Soviet Army Michel Garder, 1966

**The Military Strategy of the Soviet Union** David M. Glantz, 2001-09 This study of Soviet military strategy is based upon the relationship between the army and politicians as well as Soviet writings on the subject of military strategy Thanks to the policy of glasnost it incorporates Soviet materials hitherto unavailable in the West It should not be considered simply as a retrospective account of what was it forms at least part of the context for what will be in the future

**A history of the Soviet army** Michel Garder, 1966

**The Red Army 1922-41** Philip Jowett, 2022-08-18 This study explores the organization history and uniforms of the Soviet Red Army during the 20 years between its victory in the Civil War and the invasion of the USSR by Germany in 1941 The two decades following the Bolshevik victory over the Whites in the Russian Civil War saw widespread and fundamental developments for the Red Army Nevertheless these still left it largely unready to face Germany's Operation Barbarossa in June 1941 Having been reduced in size and planning for modernization the Red Army of the 1920s was employed to ruthlessly crush anti Bolshevik opposition real or suspected in several regions of the USSR notably Ukraine and Central Asia and to fight a brief border war against Chinese Manchuria During the 1930s Stalin virtually beheaded the army by a needless series of murderous purges of the officer class despite this the Red Army was victorious in clashes against Imperial Japan in the Nomonhan region in 1938-39 where General Zhukov earned his spurs Simultaneously the Soviet Union sent instructors and pilots to fight for the Republicans in the Spanish Civil War 1936-39 The non aggression pact with Nazi Germany allowed Stalin to take over half of Poland in September 1939 but a few months later his Winter War against Finland demonstrated serious inadequacies in the Red Army's readiness for modern warfare which would be shockingly confirmed in the first days of Operation Barbarossa Using rare photos and detailed colour artwork this study explores the interwar history of the Red Army describing its campaigns organization and uniforms and focusing on the 20 years between its victory in the Civil War and the invasion of the USSR by Germany in 1941

The Soviet High Command John Erickson, 2019-07-11 This book aims

to furnish a history of the origins and development of Soviet military leadership together with a survey of its relations with the Communist Party and the governmental apparatus within the chronological limits of the first attempts to organise the Red Army and a military command

**The Soviet Army's High Commands in War and Peace, 1941-1992** Richard W. Harrison, 2022-07-28 The first full treatment of the unique phenomenon of High Commands in the Soviet Army during World War II and the Cold War The war on the Eastern Front during 1941-45 was an immense struggle running from the Barents Sea to the Caucasus Mountains The vast distances involved forced the Soviet political military leadership to resort to new organizational expedients in order to control operations along the extended front These were the high commands of the directions which were responsible for two or more fronts army groups and along maritime axes one or more fleets In all five high commands were created along the northwestern western southwestern and North Caucasus strategic directions during 1941-42 However the highly unfavorable strategic situation during the first year of the war as well as interference in day to day operations by Stalin severely limited the high commands effectiveness As a consequence the high commands were abolished in mid 1942 and replaced by the more flexible system of supreme command representatives at the front A High Command of Soviet Forces in the Far East was established in 1945 and oversaw the Red Army's highly effective campaign against Japanese forces in Manchuria The Far Eastern High Command was briefly resurrected in 1947 as a response to the tense situation along the Korean peninsula and the ongoing civil war in China but was abolished in 1953 soon after Stalin's death Growing tensions with China brought about the recreation of the Far Eastern High Command in 1979 followed a few years later by the appearance of new high commands in Europe and South Asia However these new high commands did not long survive the collapse of the Soviet Union in 1991 and were abolished a year later The book relies almost exclusively on Soviet and post communist archival and other sources and is the first unclassified treatment of this subject in any country East or West

**Why Stalin's Soldiers Fought** Roger R. Reese, 2011-04-28 Inept leadership inefficient campaigning and enormous losses would seem to spell military disaster Yet despite these factors the Soviet Union won its war against Nazi Germany thanks to what Roger Reese calls its military effectiveness its ability to put troops in the field even after previous forces had been decimated Reese probes the human dimension of the Red Army in World War II through a close analysis of soldiers experiences and attitudes concerning mobilization motivation and morale In doing so he illuminates the Soviets remarkable ability to recruit and retain soldiers revealing why so many were willing to fight in the service of a repressive regime and how that service was crucial to the army's military effectiveness He examines the various forms of voluntarism and motivations to serve including the influences of patriotism and Soviet ideology and shows that many fought simply out of loyalty to the idea of historic Russia and hatred for the invading Germans He also considers the role of political officers within the ranks the importance of commanders who could inspire their troops the bonds of allegiance forged within small units and persistent fears of Stalin's secret police Brimming with fresh insights Reese's study shows how the Red Army's

effectiveness in the Great Patriotic War was foreshadowed by its performance in the Winter War against Finland and offers the first direct comparison between the two delving into specific issues such as casualties tactics leadership morale and surrender Reese also presents a new analysis of Soviet troops captured during the early war years and how those captures tapped into Stalin's paranoia over his troops' loyalties He provides a distinctive look at the motivations and experiences of Soviet women soldiers and their impact on the Red Army's ability to wage war Ultimately Reese puts a human face on the often anonymous Soviet soldiers to show that their patriotism was real even if not a direct endorsement of the Stalinist system and had much to do with the Red Army's ability to defeat the most powerful army the world had ever seen The Red Army, 1918-1941 Earl F Ziemke, 2004-05-20 Supported by evidence released after the collapse of the Soviet Union this book follows the career of the Red Army from its birth in 1918 as the vanguard of world revolution to its affiliation in 1941 with the citadel of capitalism the USA The Military History of the Soviet Union F. Kagan, R. Higham, 2003-11-04 The Military History of the Soviet Union and The Military History of Tsarist Russia treat Russian military history from the rise of the Muscovite state to the present even peeking briefly into the future The two volumes will cover Russia's land forces extensively but will also cover the development of the Russian Navy and the creation and development of the Russian Air Force parts of the Russian military machine which are frequently neglected in general writings The historical analysis will address the development and function of the Russian military whether in peace or in war as well as the impact of war and changes in the military upon Russian society and politics *Soviet Military Power* Army Library (U.S.), 1959 **The Great Bear at War**, 2019-11-28 A history of the Red Army Soviet Army and Russian Army in 100 years of conflict From the chaos of the civil war to the political manoeuvring of the Cold War Russia's armed forces have shaped the future not only of Russia but of countless other countries around the globe The Great Bear at War The Russian and Soviet Army 1917 Present explores the development and struggles of Soviet and Russian armed forces across the numerous conflicts which mark its history It charts the great historical events that have defined the Red Russian Army especially World War II and the Cold War but also the post communist insurgencies and wars in which the Russian military has redeveloped its outlook and mission The post Soviet development of the Russian military into a modern force is explored in detail including its controversial campaigns in Chechnya 1999-2009 Georgia 2008 and Ukraine from 2014 Sewn into the narrative are details about the equipment uniforms training service conditions and weaponry of the Soviet Russian soldiers bringing personal experience and technological context to the broader history At a time when the world is closely focused upon Russian military behaviour The Great Bear at War is both timely and fascinating *Historical Dictionary of World War II* Anne Sharp Wells, 2013-12-24 This dictionary covers the complex and costly conflict that began when Germany ruled by Adolf Hitler and the Nazi Party invaded neighboring Poland on 1 September 1939 and concluded when Germany surrendered on 7-9 May 1945 leaving much of the European continent in ruins and its population devastated The war against Germany Italy and the other European Axis

**The Soviet Armed Forces** Stepan Andreevich Tiūshkevich, 1978 [A Worker's Way Of War: The Red Army's Doctrinal Debate, 1918-1924](#) Major Matthew M. Hurley, 2015-11-06 Following the October 1917 Revolution the leaders of the fledgling Red Army embarked on a debate concerning the nature form and function of military doctrine A group known as the military communists including M V Frunze M N Tukhachevsky K Voroshilov and S I Gusev sought to formulate a proletarian military doctrine based on the lessons of the Russian Civil War 1918-21 and purged of supposedly outmoded bourgeois military thought Their doctrine they claimed would be based overwhelmingly on maneuver and the offensive which they felt best represented the active nature of the working class Against them stood Commissar for War Leon Trotsky supported by ex Tsarist military specialists notably A A Svechin Trotsky and his allies noting the Soviet Union's backwardness relative to the West professed a policy of expediency in military affairs Though Trotsky and Svechin proved their position correct both in reference to military affairs and orthodox communist thought the ripening political struggle eventually secured Frunze's and Tukhachevsky's domination of the Red Army and Trotsky's eventual ouster and exile
