The History of Torture and Execution Jean Kellaway, 2003 The History of Torture and Execution examines these fascinating but grisly subjects by time region and method **Essential Shit - Facts That Will Scare the Total Shit Out of You!** Cary McNeal, 2012-04-01 Disturbing phenomena are everywhere we turn and this book is jam packed with facts that will truly horrify you but undoubtedly entertain and educate at the same time From the ugly truth about food and drink to the human body exposed to the beastly tales of creatures that outnumber us no subject is off limits Did you know there is a sneaky fish that can swim up your genitals Or that the average human loses 85 000 brain cells each day If not read on there s plenty more where that came from The Islands of Death Peter Stride, 2020-02-10 The remote Scottish Islands Beautiful wild bleak friendly isles cloaked in mist and ancient history And the little people Beautiful islands of bizarre brutal murders a promiscuous academic on St Kilda tourists executed by ancient barbaric rituals in the Orkneys British soldiers castrated and murdered in the Shetlands all in the ruins of an ancient civilisation A fascination for historic ruins may be a dangerous occupation *The Routledge Handbook of Technology, Crime and Justice* M. R. McGuire, Thomas Holt, 2017-02-24 Technology has become increasingly important to both the function and our understanding of the justice process Many forms of criminal behaviour are highly dependent upon technology and crime control has become a predominantly technologically driven process one where traditional technological aids such as fingerprinting or blood sample analysis are supplemented by a dizzying array of tools and techniques including surveillance devices and DNA profiling This book offers the first comprehensive and holistic overview of global research on technology crime and justice It is divided into five parts each corresponding with the key stages of the offending and justice process Part I addresses the current conceptual understanding of technology within academia and the criminal justice system Part II gives a comprehensive overview of the current relations between technology and criminal behaviour Part III explores the current technologies within crime control and the ways in which technology underpins contemporary formal and informal social control Part IV sets out some of the fundamental impacts technology is now having upon the judicial process Part V reveals the emerging technologies for crime control and justice and considers the extent to which new technology can be effectively regulated This landmark collection will be essential reading for academics students and theorists within criminology sociology law engineering and technology and computer science as well as practitioners and professionals working within and around the criminal justice system

*1,001 Facts that Will Scare the S#\*t Out of You* Cary McNeal, 2010-03-18 Fact Chocolate contains the alkaloid theobromine which in high doses can be toxic to humans and in even small amounts can kill dogs parrots horses and cats This means that despite its name the Kit Kat candy bar is not a recommended snack for your kitty cat I wonder how many cats have died because of this confusion Fact The most germ laden place on your toilet isn t the seat or even the bowl it s the handle The solution Don t flush Let the next guy worry about it There are just the facts and then there are just the facts that

will frighten the bejeezus out of you And thanks to this little gem of a bathroom book you ll never look at the world the same way again without er dry heaving a little bit From the sneaky fish that can swim up our genitals to the E coli bacteria lurking in the very water we drink disturbing phenomena are everywhere we turn Educational entertaining and undeniably horrifying this book isn t guaranteed to help you um go to the bathroom but it s certain to make your time there more informed

**The SAGE Encyclopedia of Surveillance, Security, and Privacy** Bruce A. Arrigo,2016-06-15 Although surveillance hit the headlines with revelations by Edward Snowden that the National Security Agency had been tracking phone calls worldwide surveillance of citizens by their governments actually has been conducted for centuries Only now with the advent of modern technologies it has exponentially evolved so that today you can barely step out your door without being watched or recorded in some way In addition to the political and security surveillance unveiled by the Snowden revelations think about corporate surveillance each swipe of your ID card to enter your office is recorded not to mention your Internet activity Or economic surveillance what you buy online or with a credit card is recorded and your trip to the supermarket is videotaped Drive through a tollbooth and your license plate is recorded Simply walk down a street and your image is recorded again and again and again Where does this begin and end In all levels of social structure from the personal to the political to the economic to the judicial The SAGE Encyclopedia of Surveillance Security and Privacy uncovers and explains how surveillance has come to be an integral part of how our contemporary society operates worldwide and how it impacts our security and privacy Key features include Approximately 450 signed entries from contributors around the globe Further readings and cross references conclude each article to guide students further as they explore a topic A Reader s Guide organizes entries by broad thematic areas
