treated in a complete and systematic manner The origin and development of art in Scotland the history of its schools the memoirs of its artists and even the names of its most representative examples have not before been recorded in one work and the student who wished to obtain a comprehensive view of the subject has had to painfully glean his information from a vast number of books many of them only very remotely connected with art Impressed by my own experiences of the obvious want of a succinct and complete History of Art in Scotland and acting on the advice of gentlemen whose opinions I hold in respect I have undertaken the book now laid before the public The work has been carried on con amore in the very brief leisure of an artist daily engaged in teaching his profession and without claim to literary experience. The care with which I have collected information and the extent and variety of the illustrative facts which I have been able to bring together will I hope atone for any defects in point of form About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www forgottenbooks com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Scottish Art in the Industrial Age, 1800-1914 Frances Fowle, John Morrison, Freya Spoor, Elizabeth Cumming, 2025 This four volume collection of primary sources examines art in Scotland during the nineteenth century Accompanied by extensive editorial commentary this collection will be of great interest to students of Art History and Scottish History A Companion to British Art David Peters Corbett, 2016-02-16 This companion is a collection of newly commissioned essays written by leading scholars in the field providing a comprehensive introduction to British art history A generously illustrated collection of newly commissioned essays which provides a comprehensive introduction to the history of British art Combines original research with a survey of existing scholarship and the state of the field Touches on the whole of the history of British art from 800 2000 with increasing attention paid to the periods after 1500 Provides the first comprehensive introduction to British art of the eighteenth nineteenth and twentieth centuries one of the most lively and innovative areas of art historical study Presents in depth the major preoccupations that have emerged from recent scholarship including aesthetics gender British art's relationship to Modernity nationhood and nationality and the institutions of the British art world Heritage and Museums J.M.
