### **Lacanian Ink 3:**

**Lacanian Ink 8** Wooster Press, The, 1994      *Lacanian Ink*, 2006      **Essays on the Pleasures of Death** Ellie Ragland, 2013-12-16 In *Essays on the Pleasure of Death* Ellie Ragland discusses the interconnection of Freud and Lacan's theories while maintaining that crucial differences between them still exist. Ragland argues however that Lacan's return to Freud gave coherence to concepts which Freud could never explain: psychosis, narcissism, the body and the death drive. Drawing upon Lacan's untranslated seminars through 1981, Ragland analyzes his theories of the death drive and the concept of jouissance, the driving force behind language and libido. Along with her examination of Lacanian theories about the body, meaning systems, and how they shape reality, Ragland also discusses the ethical problems of psychoanalysis and the ways in which Lacan's work points to the inadequacies of terms like sexuality and gender.

**Lacan Deleuze Badiou** A. J. Bartlett, 2015-01-30 Lacan, Deleuze, Badiou guides us through the crucial, under-remarked interrelations between these three thinkers, identifying the conceptual passages, connections, and disjunctions that underlie the often superficial statements of critique, indifference, or

**Intermittency** Andrew Gibson, 2011-12-07 This book is about the concept of historical intermittency in five recent and contemporary French philosophers: Alain Badiou, Françoise Proust, Christian Jambet, Guy Lardreau, and Jacques Rancière.

**Lacan in America** Jean-Michel Rabaté, 2020-09-08 This interdisciplinary compilation of essays is a welcome tonic for the jet lag or cultural gap between Lacanian discourse's warm reception in Latin countries and the resistance Lacanian clinical applications have met with in the Anglophone world. *Lacan in America* illuminates important and dynamic debates within a cultural context that Lacan himself has modified. Rather than a made-simple approach, this dynamic collection invokes some of the hesitations, contradictions, and evolutions that appear to be the most exciting part of his legacy in polylogical discussions by Lacanians who are not averse to a critical reexamination of major concepts or textual and political issues. Topics include a regressive sexual science and a postmodern condition; technological mediation through seduction and resistance; the partisan issues beneath some of the resistances met by Lacanian discourse; and Lacan's revelations as responses to Freudian riddles. Demonstrating the vitality of Lacanian thought and its impact on disciplines from mathematics to gay/lesbian studies, *Lacan in America* works to edify the fruit of Lacan's endless revision: an infinitely propagated transfiguration of his search for the meanings of truth. Lucid and nonpartisan, this collection successfully takes the ideas and issues at the heart of Lacan's work and legacy and reinspects them through the lens offered by their transportation across the Atlantic, illustrating what has happened to them in their translation and mistranslation into and through American intellectual and cultural life.

Daniel Gunn, Department of Comparative Literature and English, The American University of Paris

**The Praxis of Alain Badiou** Paul Ashton, 2006 To mark the English translation of *Être et événement* as *Being and Event*, a special issue on the work of the philosopher Alain Badiou encourages contributors to take up the challenge Badiou raises in *Being and Event* and deploy his categories in thinking a particular situation, be it political, artistic,

scientific or amorous Ch 1      *The Militant Historian* Kerry William Purcell, 2024-10-31 This is the first wide ranging analysis of Alain Badiou's use development and transformation of the concept of history Despite the wealth of perspectives now available on how social and cultural practices take shape historicism still appears to be the most dominant *The Militant Historian* examines this primacy and reveals how Badiou's work offers a radical riposte Exploring key texts in Badiou's oeuvre and how his philosophical ideas disrupt dominant conceptions of history and the role of the historian Kerry William Purcell addresses how these ideas could transform our approaches to the historical and what it means to do history as a meaningful endeavour Adopting a chronological approach to Badiou's work each chapter explores specific conceptual developments in his writing and how they lend themselves to a reconsideration of the subject who speaks history From these new and disruptive modes of doing emerges the figure of the militant historian a role with the potential to impact how we practice history outside the narrow strictures of academic life      **Current Catalog** National Library of Medicine (U.S.), 1993 First multi year cumulation covers six years 1965-70      *Lacanian Psychoanalysis* Ian Parker, 2010-07-16 Jacques Lacan's impact upon the theory and practice of psychoanalysis worldwide cannot be underestimated *Lacanian Psychoanalysis* looks at the current debates surrounding Lacanian practice and explores its place within historical social and political contexts The book argues that Lacan's elaboration of psychoanalytic theory is grounded in clinical practice and needs to be defined in relation to the four main traditions psychiatry psychology psychotherapy and spirituality As such topics of discussion include the intersection between psychoanalysis and social transformation a new way through deadlocks of current Lacanian debate a new approach to clinical structures of neurosis perversion and psychosis *Lacanian Psychoanalysis* draws on Lacan's work to shed light on issues relevant to current therapeutic practice and as such it will be of great interest to students trainees and practitioners of psychoanalysis psychotherapy counselling and other domains of personal and social change      **Anxiety Between Desire and the Body** Bogdan Wolf, 2019-01-30 This book provides a unique analysis of Lacan's conception of anxiety as presented in one of his most fascinating seminars Seminar X The seminar took place in the lead up to Lacan's infamous excommunication from the IPA Revisiting Freud's work on the topic Lacan conceives anxiety in an anxiety chart which includes adjacent terms such as inhibition embarrassment and turmoil He sees desire as the kernel of anxiety before turning attention to the body *Anxiety Between Desire and the Body* What Lacan Says in Seminar X is written from the perspective of the analytical experience its logic and its surprising discoveries It will be of great interest to students of Lacanian psychoanalysis as well as philosophers interested in Lacan's work      *Lacan and the Destiny of Literature* Ehsan Azari, 2011-10-27 In contemporary academic literary studies Lacan is often considered impenetrably obscure due to the unavailability of his late works insufficient articulation of his methodologies and sometimes stereotypical use of Lacanian concepts in literary theory This study aims to integrate Lacan into contemporary literary study by engaging with a broad range of Lacanian theoretical concepts often for the first time in English and using them to analyse a range of key texts from

different periods Azari explores Lacan's theory of desire as well as his final theories of *littoral* and the *sinthome* and interrogates a range of poststructuralist interpretive approaches In the second part of the book he outlines the variety of ways in which Lacanian theory can be applied to literary texts and offers detailed readings of texts by Shakespeare Donne Joyce and Ashbery This ground breaking study provides original insights into a number of the most influential intellectual discussions in relation to Lacan and will fill a recognised gap in understanding Lacan and his legacy for literary study and criticism

**Badiou and Plato** A.J Bartlett, 2011-06-29 This book will help you to understand Badiou's central concepts the philosophical relation between Badiou and Plato and will rethink the importance of Badiou's Platonic claim that the only education is an education by truths

**Lacan and Romanticism** Daniela Garofalo, David Sigler, 2019-03-25 Lacan and Romanticism uses the work of psychoanalyst Jacques Lacan to deliver progressive readings of Romanticism by examining canonical Romantic authors such as William Wordsworth Mary Shelley John Keats and Jane Austen as well as lesser known writers such as the graveyard poets and Sarah Scott The contributors develop innovative approaches to Lacanian literary studies focusing on neglected or emergent areas of Lacan's thought and approaching Lacan's best known work in unexpected ways The essay topics include the visible and seeable war the death drive nonhuman sexualities sublimation loss and mourning utopia capitalism fantasy and topology and they range from the mid eighteenth through the early decades of the nineteenth centuries The book reveals new ways of thinking about art and literature with psychoanalytic theory and suggests how theoretical approaches can contribute meaningfully to literary studies in general

**Infinite Greed** Adrian Johnston, 2024-05-14 Selfishness is essential to capitalism or so both advocates and opponents claim In *Infinite Greed* Adrian Johnston argues that this consensus is mistaken Through a novel synthesis of Marxism and psychoanalysis he reveals how the relentless pursuit of profits is not fundamentally animated by human acquisitiveness Instead capitalism's strange infinite greed demands that individuals sacrifice their pleasures their well being and even themselves to serve inhuman capital Johnston traces the mechanisms that compel capitalist subjects to obey the cold imperative to accumulate in perpetuity and without limits and also without regard for the consequences for everyone and everything else Facing crises such as spiraling wealth inequality and the profit driven prospect of a looming ecological apocalypse the rational self interest of the majority would seem to dictate putting a stop to capitalist accumulation By bringing together the Marxian critique of political economy with psychoanalytic metapsychology Johnston shows why and how capitalism rather than being responsive to people's rationally selfish interests disregards and overrides them instead Unlike previous syntheses of Marxism and psychoanalysis *Infinite Greed* pairs Freudian and Lacanian concepts with the economic heart of Marx's historical materialism In so doing Johnston brings to light the complex intertwining of political and libidinal economies keeping us invested and complicit in perpetuating capitalism and its ills

**Speculation** Glyn Daly, 2019-03-15 *Speculation* Politics Ideology Event develops Hegel's radical perspective of speculative thought as a way of reclaiming and revitalizing the sense of the future

and its possibilities Engaging with such figures as Alain Badiou Quentin Meillassoux Ernesto Laclau Slavoj Žižek and Fredric Jameson Glyn Daly articulates the distinctness of speculative philosophy and draws its implications for new debates in areas of science politics capitalism ideology ethics and the event In a confrontation with today's fatalistic milieu principal emphasis is given to Hegel's idea of infinity as the intrinsic dimension of negativity within all finitude Against the modern era's paradigmatic tendency to externalize social problems in the form of antagonism and Otherness Daly argues for a renewal of utopian thought based on Hegelian reconciliation and the affirmation of excess as the essence of all being On these grounds he advances a new kind of political imagination that in speculative terms centers on uncompromising notions of truth and reason

**The Failed Assassination of Psychoanalysis** Agnes Aflalo, 2018-04-24 It can happen that a law incurs the wrath of the very people it set out to protect This is what happened in France at the end of 2003 with the Accoyer Amendment a Bill that intended to regulate the exercise of psychotherapies even at the cost of the disappearance of psychoanalysis itself The public that this law was supposed to protect thus ran the risk of finding themselves stripped of certain freedoms that democracy usually guarantees How had it become possible to reach such a point This is what this book sets out to examine Evaluation and cognitive behavioural scientism which have been progressively infiltrating different forms of knowledge with destructive effect undoubtedly played a major role And then the International Psychoanalytical Association despite having been founded by Freud to protect his invention started to endorse the forced cognitivisation of psychoanalysis Meanwhile psychiatry slid back into its nineteenth century hygienic obscurantism and its new recruit epidemiology began playing host to racist discourses

Prolegomena to Any Future Materialism Adrian Johnston, 2013-07-31 Adrian Johnston's Prolegomena to Any Future Materialism planned for three volumes will lay the foundations for a new materialist theoretical apparatus his transcendental materialism In this first volume Johnston clears an opening within contemporary philosophy and theory for his unique position He engages closely with Lacan Badiou and Meillassoux demonstrating how each of these philosophers can be seen as failing to forge an authentically atheistic materialism Johnston builds a new materialism both profoundly influenced by these brilliant comrades of a shared cause as well as making up for the shortcomings of their own creative attempts to bring to realization the Lacanian vision of an Other less One less ontology The Outcome of Contemporary French Philosophy yields intellectual weapons suitable for deployment on multiple fronts simultaneously effective against the mutually entangled spiritualist and scientistic foes of our post Enlightenment biopolitical era of nothing more than commodities and currencies

*Ordinary Psychosis and The Body* J. Redmond, 2014-07-23 Current Lacanian ideas on psychosis have much to contribute to the complex and often surprising forms of psychotic symptomatology encountered in clinical practice By focussing on the unique experience of individuals with psychosis this book examines the centrality of body phenomena to both the onset and stabilisation of psychosis

**Lacanian Antiphilosophy and the Problem of Anxiety** Brian Robertson, 2015-10-21 This book brings Jacques Lacan's work on the problem of anxiety into a jarring and fruitful

confrontation with phenomenology existentialism and the jargon of authenticity Brian Robertson masterfully upends a host of received philosophical truths most notably and crucially the idea that anxiety lacks an object
