Suffering Sappho! Barbara Jane Brickman,2023-11-10 Offering the first major consideration of lesbian camp in American popular culture *Suffering Sappho* examines a larger than life lesbian menace in mid century media embodied in five queer icons the sicko the monster the spinster the Amazon and the rebel Across comics fiction television and movies of the era Barbara Jane Brickman discovers evidence not just of campy sexual deviants but of troubling female performers whose failures could be epic but whose subversive potential could inspire *The Lord of the Galaxy Chain: The Contract Determines the Fate of Heaven and Earth* Benjamin Long,2023-05-09 But my childhood was devastated The old man would arrange hellish training for me every day Meiqi said it was to let me exercise my body so that I could have a strong body when I was independent in the future but the truth was not like that But even so I couldn t resist Just like that Year after year Day after day *The Water of Life* David Hart,2013-06-14 The intensive study of Jungian psychology was amplified by another subject taught continuously while I was a student at the Jung Institute in Zurich Switzerland the psychology of fairy tales The study of fairy tales was the specialty of a fairly young single woman Dr Marie Louise von Franz She lectured to us English speaking students in well spoken English and the conviction and power of her voice made me feel how deep and meaningful these stories were to her Not only that I myself was immediately deeply affected by the convincing spiritual reality that was being presented to me in the stories themselves It was as if the reality of life came out here in a wholly new form untouched by the standard accepted form of common life What most struck me I think now was the following realization here in this story is a completely insoluble problem I want to follow it all the way through and to my surprise finally feel that this problem has been solved This outcome has been both essential and unbelievable to me As one who felt that life posed just such an insoluble problem I found the typical fairy tale both impossible and incredible I found in fairy tales a healing presence and possibility for the terror of my own early life This is the unexpressed feeling that kept me fastened on the totally unexpected subject of fairy tales *Monsters in the Closet* Harry M. Benshoff,1997-11-15 *Monster in the Closet* is a history of the horrors film that explores the genre s relationship to the social and cultural history of homosexuality in America Drawing on a wide variety of films and primary source materials including censorship files critical reviews promotional materials fanzines men s magazines and popular news weeklies the book examines the historical figure of the movie monster in relation to various medical psychological religious and social models of homosexuality While recent work within gay and lesbian studies has explored how the genetic tropes of the horror film intersect with popular culture s understanding of queerness this is the first book to examine how the concept of the monster queer has evolved from era to era From the gay and lesbian sensibilities encoded into the form and content of the classical Hollywood horror film to recent films which play

upon AIDS related fears *Monster in the Closet* examines how the horror film started and continues to demonize or quite literally monsterize queer sexuality and what the pleasures and costs of such representations might be both for individual spectators and culture at large

Monsters, Gender and Sexuality in Medieval English Literature Dana Oswald, 2010 A gendered reading of monster and the monstrous body in medieval literature Monsters abound in Old and Middle English literature from Grendel and his mother in *Beowulf* to those found in medieval romances such as *Sir Gowther* Through a close examination of the way in which their bodies are sexed and gendered and drawing from postmodern theories of gender identity and subjectivity this book interrogates medieval notions of the body and the boundaries of human identity Case studies of *Wonders of the East* *Beowulf* *Mandeville's Travels* the Alliterative *Morte Arthure* and *Sir Gowther* reveal a shift in attitudes toward the gendered and sexed body and thus toward identity between the two periods while Old English authors and artists respond to the threat of the gendered monstrous form by erasing it Middle English writers allow transgressive and monstrous bodies to transform and therefore integrate into society This metamorphosis enables redemption for some monsters while other monstrous bodies become dangerously flexible and invisible threatening the communities they infiltrate These changing cultural reactions to monstrous bodies demonstrate the precarious relationship between body and identity in medieval literature
