Lady Of Letters In The 18th Century

Teresa Barnard

Lady Of Letters In The 18th Century:

First Lady of Letters Sheila L. Skemp, 2011-08-24 Judith Sargent Murray 1751 1820 poet essayist playwright and one of the most thoroughgoing advocates of women's rights in early America was as well known in her own day as Abigail Adams or Martha Washington Her name though has virtually disappeared from the public consciousness Thanks to the recent discovery of Murray's papers including some 2 500 personal letters historian Sheila L Skemp has documented the compelling story of this talented and most unusual eighteenth century woman Born in Gloucester Massachusetts Murray moved to Boston in 1793 with her second husband Universalist minister John Murray There she became part of the city's literary scene Two of her plays were performed at Federal Street Theater making her the first American woman to have a play produced in Boston There as well she wrote and published her magnum opus *The Gleaner* a three volume miscellany that included poems essays and the novel like story *Margaretta* After 1800 Murray's output diminished and her hopes for literary renown faded Suffering from the backlash against women's rights that had begun to permeate American society struggling with economic difficulties and concerned about providing the best possible education for her daughter she devoted little time to writing But while her efforts diminished they never ceased Murray was determined to transcend the boundaries that limited women of her era and worked tirelessly to have women granted the same right to the pursuit of happiness immortalized in the Declaration of Independence She questioned the meaning of gender itself emphasizing the human qualities men and women shared arguing that the apparent distinctions were the consequence of nurture not nature Although she was disappointed in the results of her efforts Murray nevertheless left a rich intellectual and literary legacy in which she challenged the new nation to fulfill its promise of equality to all citizens Women of Letters, Manuscript Circulation, and Print Afterlives in the Eighteenth Century M. Bigold, 2013-01-12 Using unpublished manuscript writings this book reinterprets material social literary philosophical and religious contexts of women's letter writing in the long 18th century It shows how letter writing functions as a form of literary manuscript exchange and argues for manuscript circulation as a method of engaging with the republic of letters **Women of letters** Leonie Hannan, 2016-06-01 Women of letters writes a new history of English women's intellectual worlds using their private letters as evidence of hidden networks of creative exchange The book argues that many women of this period engaged with a life of the mind and demonstrates the dynamic role letter writing played in the development of ideas Until now it has been assumed that women's intellectual opportunities were curtailed by their confinement in the home This book illuminates the household as a vibrant site of intellectual thought and expression Amidst the catalogue of day to day news in women's letters are sections dedicated to the discussion of books plays and ideas Through these personal epistles Women of letters offers a fresh interpretation of intellectual life in the late seventeenth and early eighteenth centuries one that champions the ephemeral and the fleeting in order to rediscover women's lives and minds The Familiar Letter in the Eighteenth Century Howard Peter Anderson, Philip B. Daghlion, Irvin Ehrenpreis, 1966 With the

growth of efficient postal service in England and the stimulus of a growing tradition of informal prose among eighteenth century men of leisure the intimate letter reached unprecedented literary heights as the exemplary form of the period Considered here are the striking and diverse qualities both of the art and the personalities of the great letter writers Swift Pope Lady Mary Wortley Montagu Richardson the Earl of Chesterfield Johnson Sterne Gray Walpole Burke Cowper Gibbon and Boswell

Women's Letters as Life Writing 1840-1885 Catherine Delafield, 2019-12-16 Examining letter collections published in the second half of the nineteenth century Catherine Delafield rereads the life writing of Frances Burney Charlotte Bront Mary Delany Catherine Winkworth Jane Austen and George Eliot situating these women in their epistolary culture and in relation to one another as exemplary women of the period She traces the role of their editors in the publishing process and considers how a model of representation in letters emerged from the publication of Burney's Diary and Letters and Elizabeth Gaskell's Life of Bront Delafield contends that new correspondences emerge between editors biographers and their biographical subjects and that the original epistolary pact was remade in collaboration with family memorials in private and with reviewers in public Women's Letters as Life Writing addresses issues of survival and choice when an archive passes into family hands tracing the means by which women's lives came to be written and rewritten in letters in the nineteenth century

British Women and the Intellectual World in the Long Eighteenth Century Teresa Barnard, 2016-03-09 Highlighting the remarkable women who found ways around the constraints placed on their intellectual growth this collection of essays shows how their persistence opened up attributes of potent female imagination radical endeavour literary vigour and self education that compares well with male intellectual achievement in the long eighteenth century Disseminating their knowledge through literary and documentary prose with unapologetic self confidence women such as Anna Barbauld Anna Seward Elizabeth Inchbald and Joanna Baillie usurped subjects perceived as masculine to contribute to scientific political philosophical and theological debate and progress This multifaceted exploration goes beyond traditional readings of women's creativity to add fresh at times controversial insights into the female view of the intellectual world Bringing together leading experts on British women's lives work and writings the volume seeks to rediscover women's appropriations of masculine disciplines and to examine their interventions into the intellectual world Through their engagement with a unique perspective on women's lives and achievements the essays make important contributions to the existing body of knowledge in this important area that will inform future scholarship

Letters and the Body, 1700-1830 Sarah Goldsmith, Sheryllynne Haggerty, Karen Harvey, 2023-07-04 This collection explores the multifaceted relationship between letters and bodies in the long eighteenth century featuring a broad selection of women's and men's letters written from and to Britain North America Europe India and the Caribbean from the labouring poor to the landed elite In eleven chapters scholars from various disciplines draw on different methodological approaches that include close readings of single letters social historical analyses of large corpora and a material culture approach to the object of the letter This research

includes personal letters exchanged among family and friends formal correspondence and letters that were incorporated into published forewords and appendices journals and memoirs Part I explores the letter as a substitute for the absent body the imagined physical encounters and performances envisaged by letter writers and the means through which these imagined sensations were conveyed Part II examines the letter as a material object that served as a conduit for descriptions of the material body and as an instrument for embodied encounters Part III focuses on how correspondents purposefully used their bodies in letters as a means to create intimacy to generate social networks and build a body politic This interdisciplinary volume centred around letters will be of interest to scholars and students in a variety of fields including eighteenth century studies cultural history and literature

Illustrations of the Literary History of the Eighteenth Century John Nichols, 2014-12-04 This eight volume set published 1817 58 by the Nichols family is a sequel to John Nichols Literary Anecdotes 1812 15 and provides a useful source of biographical material on authors and publishers at a time when many of the literary genres we now take for granted were first being developed

Women and Epistolary Agency in Early Modern Culture, 1450-1690 James Daybell, Andrew Gordon, 2016-06-10 Women and Epistolary Agency in Early Modern Culture 1450 1690 is the first collection to examine the gendered nature of women s letter writing in England and Ireland from the late fifteenth century through to the Restoration The essays collected here represent an important body of new work by a group of international scholars who together look to reorient the study of women s letters in the contexts of early modern culture The volume builds upon recent approaches to the letter both rhetorical and material that have the power to transform the ways in which we understand study and situate early modern women s letter writing challenging misconceptions of women s letters as intrinsically private domestic and apolitical The essays in the volume embrace a range of interdisciplinary approaches historical literary palaeographic linguistic material and gender based Contributors deal with a variety of issues related to early modern women s correspondence in England and Ireland These include women s rhetorical and persuasive skills and the importance of gendered epistolary strategies gender and the materiality of the letter as a physical form female agency education knowledge and power epistolary networks and communication technologies In this volume the study of women s letters is not confined to writings by women contributors here examine not only the collaborative nature of some letter writing but also explore how men addressed women in their correspondence as well as some rich examples of how women were constructed in and through the letters of men As a whole the book stands as a valuable reassessment of the complex gendered nature of early modern women s correspondence

Women and the Art and Science of Collecting in Eighteenth-Century Europe Arlene Leis, Kacie L. Wills, 2020-08-31 Through both longer essays and shorter case studies this book examines the relationship of European women from various countries and backgrounds to collecting in order to explore the social practices and material and visual cultures of collecting in eighteenth century Europe It recovers their lives and examines their interests their

methodologies and their collections and objects some of which have rarely been studied before The book also considers women's role as producers that is creators of objects that were collected Detailed examination of the artefacts both visually and in relation to their historical contexts exposes new ways of thinking about collecting in relation to the arts and sciences in eighteenth century Europe The book is interdisciplinary in its makeup and brings together scholars from a wide range of fields It will be of interest to those working in art history material and visual culture history of collecting history of science literary studies women's studies gender studies and art conservation

Illustrations of the Literary History of the Eighteenth Century by John Nichols ,1848 ***Women Letter-Writers in Tudor England*** James Daybell,2018-09-26 This book represents the most comprehensive study of women's letters and letter writing during the early modern period so far undertaken and acts as an important corrective to traditional ways of reading and discussing letters as private elite male and non political Based on over 3 000 manuscript letters it shows that letter writing was a larger and more socially diversified area of female activity than has been hitherto assumed In that letters constitute the largest body of extant sixteenth century women's writing the book initiates a reassessment of women's education and literacy in the period As indicators of literacy letters yield physical evidence of rudimentary writing activity and abilities document higher forms of female literacy and highlight women's mastery of formal rhetorical and epistolary conventions The book also stresses that letters are unparalleled as intimate and immediate records of family relationships and as media for personal and self reflective forms of female expression Read as documents that inscribe social and gender relations letters shed light on the complex range of women's personal relationships as female power and authority fluctuated negotiated on an individual basis Furthermore correspondence highlights the important political roles played by early modern women Female letter writers were integral in cultivating and maintaining patronage and kinship networks they were active as suitors for crown favour and operated as political intermediaries and patrons in their own right using letters to elicit influence Letters thus help to locate differing forms of female power within the family locality and occasionally on the wider political stage and offer invaluable primary evidence from which to reconstruct the lives of early modern women

Conventional Correspondence Willemijn Ruberg,2011-09-09 Describing the epistolary practices of the Dutch elite in the period 1770 1850 this book shows how cultural ideals of sincerity individuality and naturalness influenced the style and contents of letters and argues for the vital importance of correspondence to the performance of class gender and familial identities

The Ladies Complete Letter-Writer (1763) Alain Kerhervé,2020-05-22 How did people learn to write letters in the eighteenth century Among other books letter writing manuals provided a possible solution Although more than 160 editions can be traced for the eighteenth century most manuals were largely intended for men As a consequence when *The Ladies Complete Letter Writer* was released in London in 1763 it was the first manual to be exclusively destined for women in eighteenth century Britain Even though it was published anonymously several elements tend to show that it must have been edited by Edward Kimber It

was reprinted in Dublin in 1763 and in London in 1765 and largely circulated. The reasons for its success may have come from its concern in epistolary rhetoric its original organisation or the entertainment provided by examples coming from different sources among which letters by Eliza Haywood Samuel Richardson Mary Collier or the Marquise de Lambert. It also provided women with a variety of subjects which were supposed to be part of their sphere of interest and others which were not thus questioning a number of pre conceived ideas on women and their way of writing with or without propriety. Unedited since 1765 the manual is now presented with introduction notes and two indices focusing on the issues of sources society and epistolary writing.

Epistolary Histories Amanda Gilroy, W. M. Verhoeven, 2000. This innovative collection of essays participates in the ongoing debate about the epistolary form challenging readers to rethink the traditional association between the letter and the private sphere. It also pushes the boundaries of that debate by having the contributors respond to each other within the volume thus creating a critical community between covers that replicates the dialogic nature of epistolarity itself with all its dissonances and differences as well as its connections. Focusing mainly on Anglo American texts from the seventeenth century to the present day these nine essays and their postscripts engage the relationship between epistolary texts and discourses of gender class politics and commodification. Ranging from epistolary histories of Mary Queen of Scots to Turkish travelogues from the making of the modern middle class and the correspondence of Melville and Hawthorne to new epistolary innovators such as Kathy Acker and Orlan the contributions are divided into three parts: part 1 addresses the feminocentric focus of the letter; part 2 the boundaries between the fictional and the real; and part 3 the ways in which the epistolary genre may help us think more clearly about questions of critical address and discourse that have preoccupied theorists in recent years. In sum *Epistolary Histories* is a defining contribution to epistolary studies.

Clarissa, or the History of A Young Lady Samuel Richardson, 2004-02-05. Pressured by her unscrupulous family to marry a wealthy man she detests the young Clarissa Harlowe is tricked into fleeing with the witty and debonair Robert Lovelace and places herself under his protection. Lovelace however proves himself to be an untrustworthy rake whose vague promises of marriage are accompanied by unwelcome and increasingly brutal sexual advances. And yet Clarissa finds his charm alluring her scrupulous sense of virtue tinged with unconfessed desire. Told through a complex series of interweaving letters *Clarissa* is a richly ambiguous study of a fatally attracted couple and a work of astonishing power and immediacy. A huge success when it first appeared in 1747 and translated into French and German it remains one of the greatest of all European novels.
