Barton Palmer, David Boyd, 2011-09-01 The adaptation of literary works to the screen has been the subject of increasing and increasingly sophisticated critical and scholarly attention in recent years but most studies of the subject have continued to privilege literature over film by taking the literary sources as their starting point Rather than examining the processes by which a particular author has been adapted into a diversity of films by different filmmakers the contributors in *Hitchcock at the Source* consider the processes by which a varied range of literary sources have been transformed by one filmmaker into an impressive body of work Throughout his career Alfred Hitchcock transformed a variety of literary sources novels plays short stories into what is arguably the most coherent and distinctive narratively stylistically and thematically of all directorial oeuvres After an introduction surveying the nature and diversity of Hitchcock's sources and locating the current volume in the context of theoretical work on adaptation nineteen original essays range across the entirety of Hitchcock's career from the silent period through to the 1970s In addition to addressing the process of adaptation in particular films in terms of plot and character the contributors also consider less obvious matters of tone technique and ideology Hitchcock's manipulation of the conventions of literary and dramatic genres such as spy fiction and romantic comedy and more general problems such as Hitchcock's shift from plays to novels as his major sources in the course of the 1930s      [The Films of Carol Reed](#) Robert F. Moss, 1987 Once enthroned as a major international filmmaker Carol Reed has long since been banished to a musty corner of movie history To dust off his work however is to discover a dazzling body of films a canon as remarkable for its diversity as its quality Building his case film by film Robert Moss argues persuasively for a reassessment of this gifted artist claiming a place for him in the ranks of the world's greatest directors      **Encyclopedia of**
