L. Cayton, Susan E. Gray, 2001-09-28 The American Midwest Essays on Regional History Edited by Andrew R L Cayton and Susan E Gray Is there a Midwest regional identity Read this lively exploration of the Midwestern identity crisis and find out Many would say that ordinariness is the Midwest's historic burden A writer living in Dayton Ohio recently suggested that dullness is a Midwestern trait The Midwest lacks grand scenery Just cornfields silos prairies and the occasional hill Dull He tries to put a nice face on Midwestern dullness by

saying that Midwesterners like Shaker furniture are plain in the best sense unadorned Others have found Midwestern ordinariness stultifying Neil LaBute who makes films about mean and nasty people said he was negative because he came from Indiana We're brutally honest in Indiana We realize we're in the middle of nowhere and we're very sore about it from Chapter Five Barbecued Kentuckians and Six Foot Texas Rangers by Nicole Etcheson In a series of often highly personal essays the authors of *The American Midwest* all of whom are experts on various aspects of Midwestern history consider the question of regional identity as a useful way of thinking about the history of the American Midwest They begin with the assumption that Midwesterners have never been as consciously regional as Western or Southern Americans They note the peculiar absence of the Midwest from the recent revival of interest in American regionalism among both scholars and journalists These lively and well written chapters draw on personal experiences as well as a wide variety of scholarship This book will stimulate readers into thinking more concretely about what it has meant to be from the Midwest and why Midwesterners have traditionally been less assertive about their regional identity than other Americans It suggests that the best place to find Midwesternness is in the stories the residents of the region have told about themselves and each other Being Midwestern is mostly a state of mind It is always fluid always contested always being renegotiated Even the most frequent objection to the existence of Midwestern identity the fact that no one can agree on its borders is part of a larger regional conversation about the ways in which Midwesterners imagine themselves and their relationships with other Americans Andrew R L Cayton Distinguished Professor of History at Miami University in Oxford Ohio is author of numerous books and articles dealing with the history of the Midwest including *Frontier Indiana* Indiana University Press and with Peter S Onuf *The Midwest and the Nation* Susan E Gray Associate Professor of History at Arizona State University is author of *Yankee West* *Community Life on the Michigan Frontier* as well as numerous articles about Midwest history *Midwestern History and Culture* James H Madison and Andrew R L Cayton editors July 2001 256 pages 6 1 8 x 9 1 4 index append cloth 0 253 33941 3 35 00 s 26 50 Contents The Story of the Midwest An Introduction Seeing the Midwest with Peripheral Vision Identities Narratives and Region Liberating Contrivances Narrative and Identity in Ohio Valley Histories Pigs in Space or What Shapes American Regional Cultures Barbecued Kentuckians and Six Foot Texas Rangers The Construction of Midwestern Identity Pinning the Type Jane Grey Swisshelm and the Contest of Midwestern Regionality The Great Body of the Republic Abraham Lincoln and the Idea of a Middle West Stories Written in the Blood Race Identity and the Middle West The Anti region Place and Identity in the History of the American Middle West Midwestern Distinctiveness Middleness and the Middle West

Garrison Keillor Judith Yaross Lee, 1991 *Emerging Geographies of Belief* Catherine Brace, 2010-10-12 This interdisciplinary book presents new research from international scholars that explores questions of belief faith and religion Focusing on theoretically informed cultural geographical and historical analyses of faith belief religion society and space the book presents new and revised theoretical approaches and methodologies grounded in rigorous empirical research both contemporary and historical The volume takes a deliberately eclectic approach reflecting the complex interactions of the political and poetic dimensions of sacredness in contemporary societies Taking this research agenda forward this book explores how religious beliefs inform and construct social identities public knowledge and modes of governance In particular the book meets an urgent need for a critical understanding of how terms such as religion faith fundamentalism and secularism for example inform public debates and foster constructive engagements both between faith groups and between people of faith and people of no faith The essays in *Emerging Geographies of Belief* also show that religion cannot be mapped neatly onto faith or belief We attempt to tease out the different circumstances in which for example belief can operate without religious adherence or faith can inspire social action in geographies of hope The geography of the title relates to an overarching concern with space and spatiality rather than describing a single disciplinary approach Our concern with belief faith and religion operates at different temporal and spatial scales in different localities from the contemporary appeal to a more global sense of responsibility to a historically situated account of faith led educational practices This reflects more generally the so called spatial turn in the social sciences and humanities But despite this wide historical and geographical sweep the authors share some key concerns This collection is unique in combining theoretical conceptual and discursive approaches to the emerging geographies of belief with substantive examples of the

intersection of belief faith and religion with aspects of everyday life Discussions of the potential subversive and prophetic capacities of faith belief and religion sit alongside consideration of how these have become implicated in the spaces and performances of hope It provides a critique of the situationist and substantive approaches to religion along with insights into the role of faith in education community and social work It considers the practices of remembrance representation and pilgrimage and the place of religion in contemporary identity politics In sum the book problematises the seemingly simple categories of faith religion and belief calling attention to how these are mobilised and implicated differently in different circumstances In addressing these themes the book provides a key theoretical resource but crucially goes on to show how multiple perspectives on belief however defined can be applied in practice Whilst there has been much contemporary work on the individual areas covered by the book they have not been brought together before to provide a dynamic insight into issues of the most pressing relevance *Mapping American Culture* Wayne Franklin, Michael C. Steiner, 1992

Edu-Toons Education in America Arnie Bianco, 2007 *American Exceptionalism* Charles W. Dunn, 2013-04-04 American Exceptionalism provokes intense debates culturally economically politically and socially This collection edited by Charles W Dunn of Regent University's Robertson School of Government brings together analysis of the idea's origins history and future Contributors include Hadley Arkes Michael Barone James W Ceasar Charles W Dunn Daniel L Dreisbach T David Gordon Steven F Hayward Hugh Heclo Marvin J Folkertsma William Kristol and George H Nash While many now argue against the policies and ideology of American Exceptionalism as antiquated and expired the authors collected here make the bold claim that a closer reading of our own history reveals that there is still an exceptional aspect of American thought identity and government worth advancing and protecting It will be the challenge of the coming American generations to both refine and examine what we mean when we call America exceptional and this book provides readers a first step towards a necessary understanding of the exceptional purpose progress and promise of the United States of America *Testing in American Schools* United States. Transfiguring Luther Vitor Westhelle, 2016-05-23 Luther's theology and practice have inspired and continue to inspire so many across confessional and even religious alignments worldwide or else excite those for whom he displays a coveted untamed audacity in living out convictions it is the fabric the texture that makes Luther a figura with the capability of being transfigured Luther's theology his view of language and understanding of creation incarnation the cross his affirmation of freedom from ecclesial economic and or political encroachments his eschatology and so forth is seen in a new light in societies in which modernization does not necessarily mean secularization and the spirit is not set in dual opposition to things material The dispute as to whether Luther is a late medieval theologian or a beacon of modernity is rendered largely superfluous when the Reformer is read and interpreted in contexts that do not share the peculiar cultural and political history of Europe its orthodoxies its pietisms its enlightenments and its secularisms *Transfiguring Luther* lifts up and presents the significance of the Reformer his figure as it is transfigured into diverse contexts absorbing new contents instead of the traditional bastions that are remarkably in tune with the spirit of the Reformation thus rekindling it
