some of the most talented and bravest drivers have battled across the continents of the world to claim what is arguably motorsport's toughest prize the World Rally Championship. Now a multi-million dollar global technology battle and terrestrial television phenomenon played out over the frozen wastes of Finland, the dusty plains of Australia and the sun-kissed mountain roads of Corsica, the WRC has reached its 30th birthday. This book celebrates that important milestone and paints an exhaustively detailed picture of the people and personalities who have shaped this great sport. The Complete Book of the World Rally Champions provides a biographical account of the 65 men who have won at least one World Championship Rally since 1973. The biographies are compiled by the sport's leading writers and historians and complemented by stunning photography. The book includes a detailed and accurate statistical career record of each driver plus highlights of all the significant cars.

Lancia Delta 4X4/Integrale Graham Robson, 2010-08-01. This book explains how the HF 4WD evolved over the years: first into the Integrale with its original 8-valve engine, then the Integrale 16V and ultimately into the Integrale 16V Evo 1 or Deltona as it was affectionately known. This compact five-door Lancia dominated world-class rallying for six years, winning innumerable events, World Championships for Drivers and World Championships for Manufacturers. Alongside the cars driving heroes such as Markku Alan, Didier Auriol, Miki Biasion, Juha Kankkunen and Carlos Sainz also became legendary in this period.

Lancia Delta HF, Prisma, Delta HF Integrale, 1991. 365 Cars You Must Drive Matt Stone, John Matras, 2006. What began as a solution for transportation has evolved into a desire for speed, luxury, personal expression and freedom. For many, the thrill of the drive has eclipsed the pure utility of the automobile. And the pursuit of that thrill is the driving force behind 365 Cars You Must Drive. From the Ford Model T to the Porsche Carrera GT, there are certain cars that any self-respecting auto enthusiast just has to know and experience from the driver's seat. With homage to the greatest cars and good-natured mockery of the strangest authors, Matt Stone and John Matras detail which cars to drive and why, how to get behind the wheel, where to drive them and who to invite along for the ride. Each entry contains a colorful spec box noting the car's claim to fame, a Did You Know factoid, the author's clever suggestions for The Perfect Passenger and the Soundtrack coming out of the speakers. Behind the Wheel notes and a Perfect Drive for the marque or model covered. Engine details, production information, the price when it debuted and the collectible price now all of it adds up to, at a glance, fun reading to go with informative essays on each car, archival and full-color photos and more. **The Crash of the Rising Sun** Amal Sharma,2013-03-11 Book 1 of 2 The Crash of the Rising Sun is based on actual events that took place in 1989 in Japan The Crash that resulted from the major economic crisis of that spring is still today attributed to a real estate meltdown But nobody ever dwelt further on the real cause or causes of the crisis While suggested by actual events this story is in its entirety a work of fiction All character names have been invented All characters have been composited or invented and all incidents have been fictionalized The story that follows is loosely based on Historical facts But whereas some of the events that take place are real the characters names and causes are purely fictional and as such just a figment of my imagination If any person entity or others feel that what is written resembles them and what happened to them then it is purely coincidental and I for one beg for forgiveness as my intentions were never to harm anybody or disclose any secrets trade secrets or others I hope that the reader will have as much pleasure as me in reading this novel as I had while writing it
