Peatlands Ian D. Rotherham, 2020-04-28 This book provides an introduction to peatlands for the non specialist student reader and for all those concerned about environmental protection and is an essential guide to peatland history and heritage for scientists and enthusiasts Peat is formed when vegetation partially decays in a waterlogged environment and occurs extensively throughout both temperate and tropical regions Interest in peatlands is currently high due to the degradation of global peatlands which is disrupting hydrology and contributing to greenhouse gas emissions This book opens by explaining how peat is formed its properties and worldwide distribution and defines related terms such as mires wetlands bogs and marshes There is discussion of the ecology and wildlife of peatlands as well as their ability to preserve pollen and organic remains as environmental archives It also addresses the history heritage and cultural exploitation of peat extending back to pre Roman times and the degradation of peatlands over the centuries particularly as a source of fuel but more recently for commercial horticulture Other chapters discuss the ecosystem services delivered by peatlands and how their destruction is contributing to biodiversity loss flooding or drought and climate change Finally the many current peatland restoration projects around the world are highlighted Overall the book provides a wide ranging but concise overview of peatlands from both a natural and social science perspective and will be invaluable for students of ecology geography environmental studies and history **Among Branches** Tia Rose, 2008-08-01 Intrigue and suspense filled anticipation draws the reader into a network involving embezzlement and kidnapping within a prominent Financial Organization Criminal minds challenge and

attempt to out maneuver each other deception is the key element which control and order the state of affairs At the heart of it all CEOs are seemingly silent and Police Officials are given false information to deflect attention from the core of whats really going on Local Police and International Espionage Experts converge on the case from different angles The Police are initially focused on unearthing fraud possibilities while International Espionage Experts have only one goal in mind the capture of the internationally known and technologically savvy culprit The National Real Estate Journal ,1929

Minutes of the Board of Estimate and Apportionment of the City of New York New York (N.Y.). Board of Estimate and Apportionment,1913 Missing Soluch Mahmoud Dowlatbadi,2012-04-10 Perhaps the most important work in modern Iranian literature this starkly beautiful novel examines the trials of an impoverished woman and her children living in a remote village in Iran after the unexplained disappearance of her husband Soluch Lyrical yet unsparing the novel examines her life as she contends with the political corruption authoritarianism and poverty of the village It follows her vacillations between love for Soluch and anger at his absence and her struggle to raise her children without their father The novel critically evokes the unfulfilled aspirations of modern Iran portraying a society caught between a past and a future that seem equally weighed down by injustice This landmark novel the first ever written in the everyday language of the Iranian people revolutionized Persian literature in its beautiful and daring portrayal of the life of a marginal woman and her struggle to survive **Research Bulletin** ,1916 The Southwestern Reporter ,1907 *The Land's Wild Music* Mark Tredinnick,2011-04-14 The Land s Wild Music explores the home terrains and the writing of four great American writers of place Barry Lopez Peter Matthiessen Terry Tempest Williams and James Galvin In their work and its relationship with their home places Tredinnick an Australian writer searches for answers to such questions such as whether it s possible for a writer to make an authentic witness of a place how one captures the landscape as it truly is and how one joins the place in witness so that its lyric becomes one s own and enters into one s own work He asks what it might mean to enact an ecological imagination of the world and whether it might be possible to see the work and the writer as part of the place itself The work is a meditation on the nature of landscape and its power to shape the lives and syntax of men and women It is animated by the author s encounters with Lopez Matthiessen Williams and Galvin by critical readings of their work and by the author s engagement with the landscapes that have shaped these writers and their writing the Cascades Long Island the Colorado Plateau and the high prairies of the Rocky Mountains Tredinnick seeks the spring of nature writing deep in the nature of a place itself carried in a writer s wild self inside and resonated over and over again at the desk until it is a work in which the place itself sings **Lost Fens** Ian D. Rotherham,2013-04-01 The loss of the great fenlands of eastern England is the greatest single removal of ecology in our history So thorough was the process that most visitors to the regions or even people living there have little idea of what has gone For many the Fenlands are the vast expansive flatlands of intensive farming the breadbaskets of Britain Lost are the vast flocks of wetland birds that filled the evening skies in winter the frozen wetlands

and the fen skaters of the winter and the abundant black terns or breeding wading birds of the summer months However pause a while off main roads and consider place names and road names Fenny Lane The Withies Commonside Reed Holme Fen Common Turbary Lane Wildmore Adventurers Fen Wicken Fen and more they tell a story of a landscape now gone but once hugely important The Fens bred revolution and civil war and paid the penalty They nurtured religious non conformism with global impact After 1066 the Saxons withheld the Normans onslaught and in the 1970s unting s Beavers took action against twentieth century invaders The fenscapes neither water nor land but something in between breed independence and if necessary dissention This story is of politically and economically driven ecological catastrophe and loss So much has gone but we do not even know fully what was there before With global environmental change and especially climate change fenlands once again have major roles in our sustainable futures
