The Subject of Liberation Charles Wells, 2016-01-28 The book shares its central problem of how to revitalize the radical political left through theory It initially follows the argument developed in *The Ticklish Subject* that contemporary leftist thought is divided by antagonism between a Marxist revolutionary politics founded on

Enlightenment philosophy and a politics of identity founded on post modern post structuralism How i ek used Lacan s theory of character structures is examined here to describe this theoretical deadlock and explain how the dominant contemporary ideologies of liberal tolerant multiculturalism and reactionary pseudo fundamentalism compete to mobilize the individual subject s unconscious drive to enjoyment The book thus emphasizes the moments in which i ek hints that Lacanian theory may describe a practice that facilitates the resolution of antagonisms that placate radical leftist politics It challenges prevalent interpretations of Lacanian ends of analysis to ultimately connect the psychoanalytic cure to the leftist project of social and political liberation The Subject of Liberation argues that if Lacan is to be useful to leftist politics then the left has to develop its own definitions of the post analytic subject and proposes one such definition developed out of Lacanian and i ekian theory

Psychoanalytic Politics, second edition, with a new preface Sherry Turkle, 2024-07-23 An updated edition of the seminal book that explores why the interest in psychoanalysis in France exploded after 1968 and what it says about culture and therapy Among Western countries France may well be the one that resisted Freud the longest But in the late 1960s France was seized by an infatuation with Freudianism By the end of that decade France had more than a psychoanalytic movement it had a widespread and deeply rooted psychoanalytic culture At the heart of this development was Jacques Lacan s reconstruction of Freudian theory a reinvention of psychoanalysis that resonated with French culture in the aftermath of the uprisings of 1968 In Psychoanalytic Politics the second edition of her groundbreaking work Sherry Turkle tells the fascinating story of Lacan and why his work so profoundly influenced the French psyche While in the United States psychoanalysis is identified with an essentially conservative medical establishment the French rediscovery of Freud in a dramatic enactment of Freud s prophesy became associated with the most radical elements of French philosophical and political life In this book Turkle provides a firsthand account of the psychoanalytic culture that developed in France as a politicized Gallicized and poeticized Freudianism deeply marked by the work of Jacques Lacan The clearest introduction in English to Lacan s teaching Psychoanalytic Politics explores how cultures appropriate theories of mind and how ideas come to connect with individuals The book s final chapter provides a fascinating portrayal of the last years of Lacan s life the intrigue and power struggles that resulted in the break up of the Freudian School he founded

Class, Trauma, Identity Giorgos Bithymitris, 2023-04-14 This book is a dialectic and multi perspective examination of classed traumas in late modernity The primary anchoring question is whether and how class becomes a condition of possibility for coping with traumas What does it mean to experience deindustrialization crises or domestic violence from a specific class position Do the coping mechanisms differ along the lines of class gender race age or ethnicity The text negotiates such questions travelling back and forth from psychoanalysis to sociology and from the global to the local while critically engaging with memories narratives and myths engraved into social and personal histories Through a dialogic quest for what is silenced and what is salient within oral written and visual testimonies it foregrounds what the upper classes prefer to neglect the traumatizing core of the new class divide Rather than idealizing or vilifying the dominated this study calls for an exploration of practices narrations and spaces whereby alienation and integration co exist antagonistically producing hybrid and fragmented but also potentially transformative subjectivities This book will be of interest to scholars of humanities and social sciences primarily for those studying social stratification and inequalities sociology of emotions identity theory trauma and memory political psychoanalysis labour history and ethnography
