Phillips, 2012-03-29 Bringing together scholars from a diverse range of disciplines The City as Target provides a sustained and critical response to the relationship between the concept of targeting in its many forms and notions of understanding imagining and shaping the urban Among the many spatial and graphic terms used to describe cities in urban studies the word target is rarely encountered Though equally spatial it differs from these others by implying some motive force and more than that a force with some intentionality To target is to aim to project and ultimately to impact It suggests a space of violence or at least action or movement resulting in displacement which most other terms do not In that sense it is useful underused and perhaps revelatory Rather than approach the city as simply a site of growth processes and developments the contributors to this volume treat it as the recipient of attentions The work draws on a wide variety of geographical sites and historic monuments in order to explore this concept examining and challenging current urban theories It seeks to highlight both the power of The Global City and the current vulnerability and fragility of urban culture exploring the city as a recipient and a culprit in relation to issues including terrorism and urban warfare the latest cyclical failure of global financial markets and the relatively new spectre of environmental unsustainability Offering a unique and relevant contribution to the literature this work will be of great interest to scholars of urban theory international relations postcolonial politics and military studies Hidden History of Cambridge & Harvard Jane Merrill, 2023-08-21 Home to the location where George Washington took command of the troops and to America's oldest Ivy League university Cambridge is a city that feels like a town Hasty Pudding meetings were enlivened with mock trials spoofing happenings in Cambridge and among the faculty by 1860 the trials had evolved into shows In a corner of the Cambridge Common across from Harvard Yard a Gilded Age statue of a Puritan has been toppled several times Letters home from Robert Kennedy were found stashed on a high shelf in a college room he occupied over 30 years after he graduated From protests to the Beer Garden Summit author Jane Merrill shares the stories behind notable landmarks and some significant but little known facts in and around town American Architecture Leland M.
