Superintendent of Documents, 1989 *National Union Catalog*, 1968 Includes entries for maps and atlases **People and the Countryside** H. E. Bracey, 2025-04-01 Rapid and radical changes were taking place in the countryside Originally published in 1970 People and the Countryside discusses the legislation affecting the countryside which appeared in the late 1940s and the work of the Countryside in 1970 Conferences with which the author had been closely connected The book examines the role played by man in the shaping of the British landscape and discusses the considerable changes there have been in our time in for example the number and distribution of people over the country and the availability of work in the countryside Dr Bracey assesses the influence of developments in mobility on life in the country and looks at rural local government with especial regard to land use planning As more people used more of the countryside for many new purposes there was a growing concern about access to open spaces common land and forest and about the provision of facilities and the conservation of amenities Dr Bracey shows how the Countryside Act of 1968 which he describes as a townsman s charter for the greater use of the countryside for recreation at the same time pays heed to the needs of the countryside and the claims of country people The final chapters of the book look at the Government White Paper Leisure in the Countryside and explore its real meaning in the context of leisure in general the recreational use of land the facilities needed for exploiting and conserving countryside amenities and the need for management of the countryside in the 1970s Today it can be read in its historical context **The Canada Year Book** Canada. Dominion Bureau of Statistics, 1915 **Sustainable Transportation in Natural and Protected Areas** Francesco Orsi, 2015-07-16 Protected areas are at the centre of nature based tourism which is increasingly popular across the world As visitor numbers increase so does awareness of the harmful effects that large crowds may have

on both natural resources and individuals recreational experience This volume considers the challenge of transportation to and within natural and protected areas the improvement of which has already been recognised as having great potential for mitigating the environmental impacts of ecotourism While several books have focused considerable attention to the management of protected areas in general little has been said about the specific issue of sustainable transport an emerging trend that is already reshaping visitation patterns in natural settings This book provides current knowledge on issues associated with the transportation of visitors in natural and protected areas and a comprehensive overview of the technical and strategic options available to tackle these issues It approaches the subject via three main topics preferences or the visitors attitudes towards transportation practices where current approaches are assessed through examples and case studies of successful experiences and methodologies from around the world and policies where suggestions and recommendations are put forward for both local scale strategies and broad scale regulatory action with global relevance Contributors include academics in the field of natural resource management and tourism with extensive experience in protected area management and active partnerships with natural park administrations
