Land and Agrarian Reform in Zimbabwe Sam Moyo, Walter Chambati, 2013-05-13 The Fast Track Land Reform

Programme implemented during the 2000s in Zimbabwe represents the only instance of radical redistributive land reforms since the end of the Cold War It reversed the racially skewed agrarian structure and discriminatory land tenures inherited from colonial rule The land reform also radicalised the state towards a nationalist introverted accumulation strategy against a broad array of unilateral Western sanctions Indeed Zimbabwes land reform in its social and political dynamics must be compared to the leading land reforms of the twentieth century which include those of Mexico Russia China Japan South Korea Taiwan Cuba and Mozambique The fact that the Zimbabwe case has not been recognised as vanguard nationalism has much to do with the intellectual structural adjustment which has accompanied neoliberalism and a hostile media campaign This has entailed dubious theories of neopatrimonialism which reduce African politics and the state to endemic corruption patronage and tribalism while overstating the virtues of neoliberal good governance Under this racist repertoire it has been impossible to see class politics mass mobilisation and resistance let alone believe that something progressive can occur in Africa This book comes to a conclusion that the Zimbabwe land reform represents a new form of resistance with distinct and innovative characteristics when compared to other cases of radicalisation reform and resistance The process of reform and resistance has entailed the deliberate creation of a tri modal agrarian structure to accommodate and balance the interests of various domestic classes the progressive restructuring of labour relations and agrarian markets the continuing pressures for radical reforms through the indigenisation of mining and other sectors and the rise of extensive albeit relatively weak producer cooperative structures The book also highlights some of the resonances between the Zimbabwean land struggles and those on the continent as well as in the South in general arguing that there are some convergences and divergences worthy of intellectual attention The book thus calls for greater endogenous empirical research which overcomes the pre occupation with failed interpretations of the nature of the state and agency in Africa

Revolution and Its Past R. Keith Schoppa, 2019-07-10 Revolution and Its Past is a comprehensive study of China from the last quarter of the eighteenth century through to 2018 A fascinating and dramatic narrative the book compels interest both as a history of an ancient civilization developing into a modern nation state and as an account of how the Chinese as a people have struggled and continue to work to find their identity in the modern world Beginning in the last two decades of the reign of the Qianlong

emperor 1736 1795 the book provides a baseline that allows readers to understand China's rapid decline in the nineteenth and part of the twentieth century and extends into the present day a time when China has the second largest economy in the world and aims to become a leading global power by 2050 The vast changes that have swept over China between these times are probed through the lens of the broad and important theme of identities This fourth edition has been updated throughout providing a more thorough examination of recent history since 1960 and increasing coverage of such topics as new Qing history frontier and ethnicity women and their roles environmental concerns and issues and globalization Supported by maps images tables online eResources and suggestions for further reading and written in an engaging concise and authoritative style *Revolution and Its Past* is the ideal textbook for all students of the history of modern China *A History of the People of the United States from the Revolution to the Civil War: 1790-1803* John Bach McMaster, 1915 **Mao's Road to Power: Revolutionary Writings, 1912-49: v. 4: The Rise and Fall of the Chinese Soviet Republic, 1931-34** Zedong Mao, Stuart Schram, 2016-04-08 This projected ten volume edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought It has been compiled from all available Chinese sources including the many new texts that appeared in 1993 Mao's centenary *The Abortive Revolution* Lloyd E. Eastman, 2020-03-17 An in depth investigation of selected aspects of Chinese history during the Nanking Decade illuminating the forces that prevented the re creation of national unity and vitality under Chiang Kai shek and the Kuomintang nationalists **Daughters of the American Revolution Magazine**, 1924 *Economy and Society in Russia and the Soviet Union, 1860-1930* Linda Edmondson, Peter Waldron, 1992-11-25 This is a volume of essays exploring important themes in the economic and social history of Russia and the Soviet Union during the critical period between 1860 and 1930 It covers developments in agriculture industry trade economic theory defence policy and the social impact of revolution The essays are written by well established specialists in Russian and Soviet economic and social history and are intended as a tribute to the work of the highly esteemed economic historian Olga Crisp *Labor and the Chinese Revolution* S. Bernard Thomas, 2020-09-23 In the two decade period from 1928 to 1948 the proletarian themes and issues underlying the Chinese Communist Party's ideological utterances were shrouded in rhetoric designed perhaps as much to disguise as to chart actual class strategies Rhetoric notwithstanding a careful analysis of such pronouncements is vitally important in following and evaluating the party's changing lines during this key revolutionary period The function of the proletariat in the complex of policy issues and leadership struggles which developed under the precarious circumstances of those years had an importance out of all proportion to labor's relatively minor role in the post 1927 Communist led revolution 1 2 **Revolution in Land** Charles Abrams, 1939 *Handbook of Essential Keywords for Understanding Rural China* Liu Jinhai, 2024-12-14 Based on sociolinguistic analysis methods theoretical analysis or empirical research was conducted on 39 keywords related to rural reform peasant behaviour and peasant politics in China since the founding of the People's Republic of China The research

content covers the period from 1949 to the first decade of the twenty first century The research content includes changes in the rural policies of the People s Republic of China changes in rural systems organisations and behaviour in the era of collectivisation and peasants reactions and behaviour in the face of national policies This book focuses on four aspects the meaning of words themselves in Chinese their meaning in contemporary Chinese political life how peasants understand and practice the elements and connotations contained in words and how words themselves change transform or even disappear This book will appeal to scholars of peasant politics Chinese affairs and contemporary Chinese history undergraduate and postgraduate students of history sociology and political science and the general reader interested in Chinese rural areas and Chinese politics Chinese political societies in English speaking countries Chinese or East Asian research centres universities or libraries may also be interested in this book

Revolution and Counterrevolution in China Lin Chun, 2021-09-28 Over recent decades China has experienced massive change and development China is the world s fastest growing economy and has become a global superpower once again But this development has thrown up a number of seemingly intractable contradictions both political and economic In this panoramic study of Chinese history in the twentieth century and its place in the development of global capitalism Lin Chun argues that the paradoxes of contemporary Chinese society are not simply the product of the development of capitalism or modernity in the country They are instead the product of the contradictions of its long revolutionary history as well as the social and political consequences of its post socialist transition Published to coincide with the 100th anniversary of the founding of the Chinese Communist Party *Revolution and Counterrevolution in China* charts China s epic revolutionary trajectory in search of a socialist alternative to the global system and asks whether market reform must repudiate and overturn the revolution and its legacy
