The End of an Era? Robert Mugabe and a Conflicting Legacy Munyaradzi, Mawere, Marongwe, Ngonidzashe, 2018-11-17 Arguably one of the most polarising figures in modern times has been Robert Gabriel Mugabe the former President of the Republic of Zimbabwe The mere mentioning of his name raises a lot of debate and often times vicious if not irreconcilable differences both in Zimbabwe and beyond In an article titled Lessons of Zimbabwe Mahmood Mamdani succinctly captures the polarity thus It is hard to think of a figure more reviled in the West than Robert Mugabe and his land reform measures however harsh have won him considerable popularity not just in Zimbabwe but throughout southern Africa This together with his recent stylised ouster speaks volumes to his conflicted legacy The divided opinion on Mugabe's legacy can broadly be represented first by those

who consider him as a champion of African liberation a Pan Africanist an unmatched revolutionary and an avid anti imperialist who literally spoke the truth to Western imperialists On the other end of the spectrum are those who seemingly paying scant regard to the predicament of millions of black Zimbabweans brutally dispossessed of their land and human dignity since the Rhodesian days have differentially characterised Mugabe as a rabid black fascist an anti white racist an oppressor and a dictator Drawing on all these opinions and characterisations the chapters ensconced in this volume critically reflect on the personality leadership style and contributions of Robert Mugabe during his time in office from 1980 to November 2017 The volume is timely in view of the current contested transition in Zimbabwe and with regard to the ongoing consultations on the Land Question in neighbouring South Africa It is a handy and richly documented text for students and practitioners in political science African studies economics policy studies development studies and global studies

The State and Agrarian Change in Zimbabwe's Communal Areas Michael Drinkwater, 2016-07-27 This book explores why a decade after Zimbabwean independence government agricultural development policies still retains surprising similarities with those of the colonial period despite lengthy peasant opposition Using documentary and fieldwork material from the Midlands province the analysis covers the subjects of pastoral and land use management household production and income earning strategies and farmer extension relations

Rwagatare, 2015-12-01 Rwanda Rebuilding of a Nation is a story that takes the reader through a sweeping panorama of Rwandas history from its recent past as a nearfailed state to its present as a beacon of hope and successful innovations Rwandas rise from the ashes detailed in this book is the culmination of a visionary and laborious process of rebuilding a nation from the brink of collapse It is also a story of reconciling a people that had been taught to see each other as enemies Twenty years ago the world wrote off Rwanda after the worst genocide in recent times left over one million of its people dead and another three million in refugee camps in neighbouring countries The country was broken in every way possible socially culturally economically and politically Today Rwanda has been rebuilt and has become a respectable country receiving many international accolades for its extraordinary leadership and achievements The backbone and custodian of this agenda has been and remains the Rwanda Patriotic Front RPF This was the case right from its inception before and during the liberation struggle to the implementation of this transformation The book traces the success of the RPF driven transformation which derives from the combination of three interrelated factors First a people centred governance that has spearheaded community development ownership and accountability Second home grown initiatives in different sectors that have helped to adequately respond to extraordinary challenges And third a visionary leadership that listens to its people and inspires them towards self reliance and dignity Finally the book shows that Rwandas achievements have been possible because the RPFs development agenda is built on power sharing consensus building gender equality and the primacy of security
