Editor Davenport,1997 **Women and Patriotism in Jim Crow America** Francesca Morgan,2006-05-18 After the Civil War many Americans did not identify strongly with the concept of a united nation Francesca Morgan finds the first stirrings of a sense of national patriotism of these United States in the work of black and white clubwomen in the late nineteenth and early twentieth centuries Morgan demonstrates that hundreds of thousands of women in groups such as the Woman s Relief Corps the National Association of Colored Women the Universal Negro Improvement Association the United Daughters of the Confederacy and the Daughters of the American Revolution sought to produce patriotism on a massive scale in the absence of any national emergency They created holidays like Confederate Memorial Day placed American flags in classrooms funded monuments and historic markers and preserved old buildings and battlegrounds Morgan argues that while clubwomen asserted women s importance in cultivating national identity and participating in public life white groups and black groups did not have the same nation in mind and circumscribed their efforts within the racial boundaries of their time Presenting a truly national history of these generally understudied groups Morgan proves that before the government began to show signs of leadership in patriotic projects in the 1930s women s organizations were the first articulators of American nationalism *A Nation of Descendants* Francesca Morgan,2021-09-15 From family trees written in early American bibles to birther conspiracy theories genealogy has always mattered in the United States whether for taking stock of kin when organizing a family reunion or drawing on membership by blood or other means to claim rights to land inheritances and more And since the advent of DNA kits that purportedly trace genealogical relations through genetics millions of people have used them to learn about their medical histories biological parentage and ethnic background *A Nation of Descendants* traces Americans fascination with tracking family lineage through three centuries Francesca Morgan examines how specific groups throughout history grappled with finding and recording their forebears focusing on Anglo American white Mormon African American Jewish and Native American people Morgan also describes how individuals and researchers use genealogy for personal and scholarly purposes and she explores how local businesspeople companies like Ancestry com and Henry Louis Gates Jr s Finding Your Roots series powered the commercialization and commodification of genealogy *Ancestry magazine* ,2003-07 *Ancestry magazine* focuses on genealogy for today s family historian with tips for using Ancestry com advice from family history experts and success stories from genealogists across the globe Regular features include Found by Megan Smolenyak reader submitted heritage recipes Howard Wolinsky s tech driven NextGen feature articles a timeline how to tips for Family Tree Maker and insider insight to new tools and records at Ancestry com *Ancestry magazine* is published 6 times yearly by Ancestry Inc parent company of Ancestry com **Blackhawk Genealogical Society of Rock Island & Mercer Counties, Illinois** ,1999 **Jamestowne**
