Hidden Children:

The Hidden Children Jane Marks, 2015-06-17 They hid wherever they could for as long as it took the Allies to win the war Jewish children frightened alone often separated from their families For months even years they faced the constant danger of discovery fabricating new identities at a young age sacrificing their childhoods to save their lives These secret survivors have suppressed these painful memories for decades Now in *The Hidden Children* twenty three adult survivors share their moving wartime experiences some for the first time There is Rosa who hid in an impoverished one room farmhouse with three others sleeping on a clay pallet behind a stove Renee who posed as a Catholic and was kept in a convent by nuns who knew her secret and Richard who lived in a closet with his family for thirteen months Their personal stories of belief and determination give a voice at last to the forgotten Inspiring and life affirming *The Hidden Children* is an unparalleled document of witness discovery and the miracle of human courage [Hidden Children of the Holocaust](#)

Suzanne Vromen, 2010-03-04 In the summer of 1942 in Belgium Jewish parents searched desperately for safe haven for their children As Suzanne Vromen reveals in *Hidden Children of the Holocaust* they quite often found sanctuary in Roman Catholic convents and orphanages Vromen has interviewed not only those who were hidden as children but also the Christian women who rescued them and the nuns who gave the children shelter all of whose voices are heard in this moving book Indeed here are numerous first hand memoirs of life in a wartime convent the secrecy the deprivation the cruelty and the kindness all with the backdrop of the terror of the Nazi occupation **China's Hidden Children** Kay Ann Johnson, 2022-12-22 In the thirty five years since China instituted its One Child Policy 120 000 children mostly girls have left China through international adoption including 85 000 to the United States It is generally assumed that this diaspora is the result of China's approach to population control but there is also the underlying belief that the majority of adoptees are daughters because the One Child Policy often collides with the traditional preference for a son While there is some truth to this it does not tell the full story a story with deep personal resonance to Kay Ann Johnson a China scholar and mother to an adopted Chinese daughter Johnson spent years talking with the Chinese parents driven to relinquish their daughters during the brutal birth planning campaigns of the 1990s and early 2000s and with China's Hidden Children she paints a startlingly different picture The decision to give up a daughter she shows is not a facile one but one almost always fraught with grief and dictated by fear Were it not for the constant threat of punishment for breaching the country's stringent birth planning policies most Chinese parents would have raised their daughters despite the cultural preference for sons With clear understanding and compassion for the families Johnson describes their desperate efforts to conceal the birth of second or third daughters from the authorities As the Chinese government cracked down on those caught concealing an out of plan child strategies for surrendering children changed from arranging adoptions or sending them to live with rural family to secret placement at carefully chosen doorsteps and finally abandonment in public places In the twenty first century China's so called abandoned

children have increasingly become stolen children as declining fertility rates have left the dwindling number of children available for adoption more vulnerable to child trafficking. In addition, government seizures of locally but illegally adopted children and children hidden within their birth families mean that even legal adopters have unknowingly adopted children taken from parents and sent to orphanages. The image of the unwanted daughter remains commonplace in Western conceptions of China. With *China's Hidden Children*, Johnson reveals the complex web of love, secrecy and pain woven in the coerced decision to give one's child up for adoption and the profound negative impact China's birth planning campaigns have on Chinese families.

The Hidden Children Howard Greenfeld, 1993. Over a million Jewish children were killed during the Holocaust. From ten thousand to 100 thousand Jewish children were hidden with strangers and survived. In this powerful and compelling work, 25 people share their experiences as hidden children. Black and white photos.

The trauma of the hidden child Marcel Frydman, 2018-12-17. An analysis of the trauma of the hidden children and his long-term repercussion. This book is made up of two distinct sections which are integrally connected. The author's intent is not only to present and identify the trauma of Jewish children hidden under the Nazi Occupation but also to analyse its short and long-term repercussions. To achieve this, Marcel Frydman uses two complementary approaches. The first section is an autobiographical study evoking the experience and conditions in which most Jewish children and adolescents lived during the time of the Occupation, presented from the psychologist's point of view. This approach is all the richer thanks to the author's professional career in psychology and a series of studies he carried out focusing on the lives of children deprived of a family environment. The second section contains two retrospective clinical studies: one of a sample of adults that had been hidden as children but who rediscovered their parents after the Liberation; the other of a group of orphans whose parents perished in the camps. Both groups demonstrate the indelible characteristics of the children's experiences during the time of the Occupation. After having focused on the unspeakable nature of the trauma and how this marks the adult personality, the author attempts to explain the hidden children's long silence during which the suffering was internalized. He has identified specific personality traits that brought to light particular vulnerabilities and the possibility and dangers of transmitting these traits to the next generation. This work was remarkably and rapidly successful in Belgium because it clearly differs from earlier publications based only on the author's personal experience. All copies of the first edition were sold out in less than eighteen months. A second edition will be printed in Paris by the end of February 2002. Some of our U.S. colleagues such as Dr. Thomas Jaeger and Dr. J. Khader from Omaha, Nebraska, have emphasized the indisputable importance that this book would have both in the U.S. and in Israel if only there were an English version. This is why we are requesting your financial aid for the translation expenses. A sum of 5,000 US would allow us to attain this objective.

Discover the story of the hidden children under the Occupation in an essay by a renowned psychologist. EXTRAIT: It was barely six in the morning on April 13, 1943, when along with my cousin who was two years older than me, I left the house where nine Jews had found refuge in order to escape the deportations. Since September 8

1942 we had been hiding at a tombstone engraver's Oscar Dumeunier just two steps from the Etterbeek cemetery located in Woluw St Lambert on the outskirts of the Brussels urban area. In this quiet region relatively far from the city centre we rarely encountered German soldiers. The apartment at our disposal was located above an unused café. We entered the upper floors from behind the building after having gone through the owner's workshop so as to avoid attracting anyone's attention. The only issue that seemed problematic at least in the beginning was that of supplies. In our case basic caution required that the adults avoid leaving the apartment to shop in the neighbourhood. In fact they all had noticeable foreign accents which would have attracted attention thereby making their presence suspicious. As a result one of the children took up this task and as a general rule it was my responsibility. The day after the major raid at Brussels south train station a friend of the family rushed into our home at daybreak. She was still frightened and emotionally shocked from the events she had undergone the previous night.

The Hidden Children of France, 1940-1945 Danielle Bailly, 2010-07-01 Interviews with eighteen Jewish hidden children of France and Belgium telling the story of their survival during World War II. The history of France's hidden children and of the French citizens who saved six out of seven Jewish children and three fourths of the Jewish adult population from deportation during the Nazi occupation is little known to American readers. In *The Hidden Children of France 1940-1945* Danielle Bailly a hidden child herself whose family travelled all over rural France before sending her to live with strangers who could protect her reveals the stories behind the statistics of those who were saved by the extraordinary acts of ordinary people. Eighteen former hidden children describe their lives before during and after the war recounting their incredible journeys and expressing their deepest gratitude to those who put themselves at risk to save others. This is a contribution to our knowledge of the Holocaust.

AJL Reviews In interviews the survivors revealed the social and psychological struggles they have had to cope with over the years. Most have pursued productive careers and raised families. Told in interview or narrative form both ways are illuminating and made more so by Betty Becker. They're unusually fluent translations.

Sacramento Book Review *The Hidden Children of France* documents the stolen childhoods of eighteen Holocaust survivors who are among the last witnesses of the Nazi era. During this time The New School's University in Exile brought to safety over 180 great scholars whose very lives just like these children were threatened by National Socialism and the evil of Hitler. It is through the stories of survivors that we preserve the truth and history of the past and educate our future generations to ensure compassion and justice for all.

Sociology Confronts the Holocaust Judith M. Gerson, Diane L. Wolf, 2007-07-11 There is an enormous amount of scholarship on the Holocaust and there is a large body of English language sociological research. Oddly

there is not much overlap between the two fields This text covers both fields Children of the Holocaust Paul R. Bartrop, Eve E. Grimm, 2020-10-19 This important reference work highlights a number of disparate themes relating to the experience of children during the Holocaust showing their vulnerability and how some heroic people sought to save their lives amid the horrors perpetrated by the Nazi regime This book is a comprehensive examination of the people, ideas, movements and events related to the experience of children during the Holocaust They range from children who kept diaries to adults who left memoirs to others who risked and sometimes lost their lives in trying to rescue Jewish children or spirit them away to safety in various countries The book also provides examples of the nature of the challenges faced by children during the years before and during World War II In many cases it examines the very act of children's survival and how this was achieved despite enormous odds In addition to more than 125 entries this book features 10 illuminating primary source documents ranging from personal accounts to Nazi statements regarding what the fate of Jewish children should be to statements from refugee leaders considering how to help Jewish children after World War II ended These documents offer fascinating insights into the lives of students during the Holocaust and provide students and researchers with excellent source material for further research **The Study of Children in Religions** Susan B. Ridgely, 2011-09 Research in religious studies has traditionally focused on adult subjects since working with children presents significantly more challenges to the researcher such as getting the research protocol passed by the Internal Review Board obtaining permission from parents and schools and figuring out how to make sense of young worldviews The Study of Children in Religions provides scholars with a comprehensive source to assist them in addressing many of the issues that often stop researchers from pursuing projects involving children This handbook offers a broad range of methodological and conceptual models for scholars interested in conducting work with children It not only illuminates some of the legal and ethical issues involved in working with youth and provides guidance in getting IRB approval but also presents specific case studies from scholars who have engaged in child centred research and here offer the fruits of their experience Cases include those that use interviews and drawings to work with children in contemporary settings as well as more historically focused endeavours to use material culture such as Sunday school projects or religious board games to study children's religious lives in past eras The Study of Children in Religions offers concrete help to those who wish to conduct research on children and religion but are unsure of how to get started or how to frame their research Contributors Priscilla Alderson Sally Anderson Jennifer Beste Chris Boyatzis Ann Braude Pia Christensen Cindy Dell Clark Amy Holmes Tagchungdarpa Moira Hinderer Zohreh Kermani Ruqayya Khan Phillipa Koch Kristy Nabhan Warren Rebecca Sachs Norris Sarah Pike Susan B Ridgely E Burke Rochford Jr and Diane Wolf Susan B Ridgely is Assistant Professor at University of Wisconsin at Oshkosh and the author of When I Was a Child Children's Interpretations of First Communion *In God's Name* Omer Bartov, Phyllis Mack, 2001 Despite the widespread trends of secularization in the 20th century religion has played an important role in several outbreaks of

genocide since the First World War And yet not many scholars have looked either at the religious aspects of modern genocide or at the manner in which religion has taken a position on mass killing This collection of essays addresses this hiatus by examining the intersection between religion and state organized murder in the cases of the Armenian Jewish Rwandan and Bosnian genocides Rather than a comprehensive overview it offers a series of discrete yet closely related case studies that shed light on three fundamental aspects of this issue the use of religion to legitimize and motivate genocide the potential of religious faith to encourage physical and spiritual resistance to mass murder and finally the role of religion in coming to terms with the legacy of atrocity

Children Writing the Holocaust S. Vice, 2004-06-29 This book examines a wide range of works written by and about child survivors and victims of the Holocaust The writers analyzed range from Anne Frank and Saul Friedlander to Ida Fink and Louis Begley topics covered include the Kindertransport experience exile to Siberia living in hiding Jewish children masquerading as Christian and ghetto diaries Throughout the argument is made that these texts use such similar techniques and structures that children's eye views of the Holocaust constitute a discrete literary genre
