San Francisco's Market Street Marques Vickers, Market Street forms the vertebrae of San Francisco First surveyed in 1847 by Jasper O Farrell the boulevard was laid out to provide a transition between two opposing grids Intended to become the city's main and widest thoroughfare it rapidly became the busiest In the mid 19th century San Francisco was regarded as the most developed western American outpost of urbanity sophistication and refinement By the conclusion of the century its reputation rivaled many East Coast cities Market Street became the base for cable car and horse car lines providing service along the local commercial corridor and connections to distant transfer destinations The 1906 catastrophic San Francisco Earthquake and Fire briefly halted development During the reconstruction the Market Street cable car lines would be entirely removed and replaced by electric streetcars Automobiles would replace streetcars During the 1970s the introduction of the subterranean Bay Area Rapid Transit system BART alleviated some of the traffic congestion This edition is an architectural survey of Market Street's historical and contemporary buildings accompanied by historical profiles The narrative begins from the Embarcadero until the Tenderloin district Architectural Properties Photographed Cupid's Span The Embarcadero and Folsom Streets The Embarcadero Piers 1 1 3 and 5 Hyatt Regency Hotel 5 Embarcadero Center Robert Frost Memorial Plaque California and Drumm Landmark Building 1 Market Federal Reserve Bank Building 101 Market One California Building 1 California Mattson Building 245 Market 101 California Building Pacific Gas and Electric Building 77 Beale 333 Market Building 388 Market Building Liberty Bell Slot Machine Marker 406 Market 425 Market Building One Front Building Mechanics Monument Market at Battery and Bush Central Plaza 455 Market One Bush Building Battery Bridge Public Art Between Market and Bush First Market Tower 525 Market 525 Market Fountain American Trust Bank Building 532 Market Flat Iron Building 544 Market 550 Market Building 554 Market Building Patrick Company 560 Market Chancery Building 562 566 Market 570 572 Market Building Market Center Building 555 575 Market The Finance Building 576 580 Market 581 585 Market Building Hobart Building 582 Market 595 Market Building West Coast Life Building 601 605 Market Building 607 611 Market Building Metropolis Trust Building 625 Market 44 Montgomery Building California Admission Day Memorial Market and Montgomery One Montgomery Tower 120 Kearny One Post Building 652 660 Market Building De Young Building 690 Market Lotte Crabtree Fountain Market and Geary and Kearny Palace Hotel 2 New Montgomery Monadnock Building 685 Market One Kearny Building Hearst Building 5 Third Mutual Savings Bank Building 700 716 Market Central Tower 701 705 Market 711 713 Market Building 717 Market Building 720 Market Building 721 Market Building 722 742 Market Building Bancroft Building 731 Market Union Trust Building 744 Market Four Seasons Hotel and Residences 757 765 Market Savings Union Branch of Security Pacific National Bank 1 Grant Phelan Building 760 784 Market Humboldt Saving Bank Building 785 Market 799 Market Building 2 Stockton Building Hotel Zelos 12 Fourth James Bong Building 825 833 Market California Savings Bank Building 830 Market Parrot Building The Emporium 835

American Architects and the Mechanics of Fame Roxanne Kuter Williamson, 2014-03-07 Why does one talented individual win lasting recognition in a particular field while another equally talented person does not While there are many possible reasons one obvious answer is that something more than talent is requisite to produce fame The something more in the field of architecture asserts Roxanne Williamson is the association with a famous architect at the moment he or she first receives major publicity or designs the building for which he or she will eventually be celebrated In this study of more than six hundred American architects who have achieved a place in architectural histories Williamson finds that only a small minority do not fit the right person right time pattern She traces the apprenticeship connection in case studies of Louis Sullivan Frank Lloyd Wright Henry Hobson Richardson the firm of McKim Mead White Latrobe and his descendants the Bulfinch and Renwick Lines the European immigrant masters and Louis Kahn Although she acknowledges and discusses the importance of family connections the right schools self promotion scholarships design competition awards and promotion by important journals Williamson maintains that the apprenticeship connection is the single most important predictor of architectural fame She offers the intriguing hypothesis that what is transferred in the relationship is not a particular style or approach but rather the courage and self confidence to be true to one's own vision Perhaps she says this is the case in all the arts

American Architects and the Mechanics of Fame is sure to provoke thought and comment in architecture and other creative fields

On the Edge of the World Richard W. Longstreth, 1998-05-18 Richard Longstreth provides a detailed picture of the early careers of four architects Bernard Maybeck Willis Polk Ernest Coxhead and A C Schweinfurth who had a decisive impact on the course of design in the San Francisco Bay Area and who stand as significant contributors to American architecture

The San Francisco Civic Center James Haas, 2019-05-15 San Francisco is known and loved around the world for its iconic man made structures such as the Golden Gate Bridge cable cars and Transamerica Pyramid Yet its Civic Center with the grandest collection of monumental municipal buildings in the United States is often overlooked drawing less global and local interest despite its being an urban planning marvel featuring thirteen government office and cultural buildings In *The San Francisco Civic Center* James Haas tells the complete story of San Francisco's Civic Center and how it became one of the most complete developments envisioned by any American city Originally planned and designed by John Galen Howard in 1912 the San Francisco Civic Center is considered in both design and materials one of the finest achievements of the American reformist City Beautiful movement an urban design movement that began more than a century ago Haas meticulously unravels the Civic Center's story of perseverance and dysfunction providing an understanding and appreciation of this local and national treasure He discusses why the Civic Center was built how it became central to the urban planning initiatives of San Francisco in the early twentieth century and how the site held onto its founders vision

despite heated public debates about its function and achievement He also delves into the vision for the future and related national trends in city planning and the architectural and art movements that influenced those trends Riddled with inspiration and leadership as well as controversy The San Francisco Civic Center much like the complex itself is a stunning manifestation of the confident spirit of one of America s most dynamic and creative cities San Francisco, Community Development and Housing Proposal ,1975 Housing and Planning References ,1970 **Historic Preservation in San**

Committee on Banking and Currency,1970 *Historic Preservation* Michael A. Tomlan,2014-11-21 This well illustrated book offers an up to date synthesis of the field of historic preservation cast as a social campaign concerned with the condition treatment and use of the legacy of existing properties in the United States Drawing on a wide range of research experience and scholarship over the last fifty years it allows us to re think past and current ideas in preservation challenging readers to explore how their own interests lie within the cognitive framework of the activities taking place with people who care Who is involved is explored first in such a way as to explore why before examining what is deemed important After that the questions of when and how to proceed are given attention The major topics are introduced in an historical review through the mid 1980s after which the broad intellectual basis and fundamental legal framework is provided The economic shifts associated with major demographic changes are explored in tandem with responses of the preservation community A chapter is dedicated to the financial challenges and sources of revenue available in typical preservation projects and another chapter focuses on the manner in which seeing recording and interpreting information provides the context for an appropriate vision for the future In this regard it is made clear that not all green design alternatives are preservation sensitive The advocacy battles during the last few decades provide a number of short stories of the ethical battles regarding below ground and above ground historic resources and the eighth chapter attempts to explain why religion has been long held at arm s length in publicly supported preservation efforts when in fact it holds more potential to regenerate existing sites than any governmental program **The Publishers Weekly** ,1970 Housing and Urban Development Legislation of 1970, Hearings Before the Subcommittee on Housing and Urban Affairs of ..., 91:2- United States. Congress. Senate. Committee on Banking and Currency,1969 Francis Rattenbury and British Columbia Anthony A. Barrett,Rhodri Windsor Liscombe,1983-01-01 Yorkshire born Francis Mawson Rattenbury 1867 1935 emigrated to British Columbia as a young architect in 1892 Within

months of his arrival in Victoria he launched his brilliant if abbreviated career by winning an international competition to design the legislative buildings While his life was marred by controversy scandal and in the end tragedy Rattenbury's architecture had an enduring impact on the Canadian landscape and his commercial ventures were important to the economic development of the West Richly illustrated with over 200 drawings and photographs Francis Rattenbury and British Columbia is the first major critical study of a Canadian architect in the context of his times Using unpublished primary sources including his recently discovered private letters the authors document Rattenbury's professional career and the evolution of his architectural style Detailed descriptions are given of some of his most famous projects notably the legislative buildings and the Empress Hotel in Victoria Besides working on a number of government commissions Rattenbury became chief architect for the Canadian Pacific Railway and designed chateau like buildings for C P R hotels in the Rockies Vancouver and Victoria Other projects such as the Vancouver and Nanaimo Courthouses and Bank of Montreal branches set the pattern for institutional architecture in British Columbia His buildings not only drew attention to the growing importance of the province but also lent dignity and character to its major centres Filled with the vigour and confidence of the imperial age Rattenbury initiated a number of commercial ventures These included the founding of a transportation system to the Yukon goldfields and extensive land speculations As the authors point out these investments were perhaps not undertaken solely for monetary gain but reflected Rattenbury's firm belief in the future of British Columbia and his desire to play an active role in its growth Unfortunately his entrepreneurial adventures involved heavy financial losses among which were ruinous lawsuits involving the provincial government This pioneering work on Western Canadian architecture will serve as a valuable design source for both the specialist and lay reader It also includes an important account of the part played by major Canadian companies and government patronage in the development of British Columbia This professional biography reveals new facets of Rattenbury's life and character which have been the subject of both public and literary controversy
