Deconstruction and Hermeneutics

Rodolphe Gasché

Of the contentious debates that deconstruction has touched off, the one concerning its relation to hermeneutics has drawn special attention. As Pöggeler has noted, one can already create a small library from the pertinent writings about this subject (Pöggeler, 1994, p. 481). In any event, what distinguishes the debate is a seemingly uncompromising confrontation with no end in sight. Derrida's critique of hermeneutics' postulation of a master sense, a sole and true meaning of texts, has triggered the verdict by hermeneutic philosophers, including Gadamer, that deconstruction celebrates the end of the philosophies of meaning in a Nietzschean feast of, and free play on, words. However, it is worth remarking that Derrida only rarely, and merely in passing, takes on the various positions in the institutionalized discipline of hermeneutics. Certainly, at times, Derrida's statements about hermeneutics read like a critique of Ricoeur's hermeneutic philosophy. But, except for Derrida's response to Gadamer's intervention during their meeting in Paris in 1981, references to Gadamer's philosophical hermeneutics are absent from his examination of hermeneutics. Still, what about the occasional presence of the name of Schleiermacher in Derrida's writings? Does it not at least suggest a concerted and focused debate with the historical forms of the art of interpretation, and the hermeneutic tradition? Given the slim evidence to sustain such a view, it must be assumed that the target of Derrida's critique is not primarily the discipline of hermeneutics and its various proponents. Its proper domain must lie elsewhere. Yet, the fact that in almost all instances where Derrida explicitly brings up the question of hermeneutics, his overall concern is with the possibility of assuming a fixed, self-identical and self-present meaning-content of discourses, or texts, capable of being recovered in full, provides a clear hint as to where this domain might be.

As Jean Greisch has persuasively argued, the original context of his critique of hermeneutics, although no direct reference to 'hermeneutics' is found there, is Derrida's discussion in *Speech and Phenomena* of the distinction, in Husserl's *Logical Investigations*, between indication and expres-

Hermeneutics And Deconstruction:

Hermeneutics and Deconstruction Hugh J. Silverman, Don Ihde, 1985-09-30 *Hermeneutics and Deconstruction* provides an assessment of two dominant modes of thinking and writing in continental philosophy today. It addresses central issues in the theory of interpretation and in the strategies of textual reading. Placed in the context of contemporary philosophical practice, this volume raises the question of the end of philosophy and offers different ways of understanding how the question of closure in philosophy can itself open up a whole range of philosophical activities. Special attention is given to the practice of interpretation in the areas of science, perception, and literature, and to the dimensions of hermeneutic understanding with respect to being, life, and the world. An investigation of how history is interpreted and read as a text provides access to one of the significant differences between hermeneutic understanding and deconstructionist practice. A section is devoted to the controversy concerning the value and the achievement of deconstruction. The writings of Heidegger and Derrida are juxtaposed and examined. And the volume concludes with several indications of new directions in continental philosophy and various versions of what a post-Derridean reading might entail. Nietzsche and the Question of Interpretation Alan Schrift, 2014-02-25 The first attempt at assessing the references to interpretation theory in the Nietzschean text. *Dialogue and Deconstruction* Diane P. Michelfelder, Richard E. Palmer, 1989-07-03 Before the encounter in 1981 between Hans Georg Gadamer and Jacques Derrida, there had been virtually no confrontation or dialogue between hermeneutics in Germany and post-structuralism in France, nor has there been since then. Part I of this book makes available for the first time in English the complete texts of the encounter at the Goethe Institute in Paris. This exchange raised such issues as Gadamer's relation to psychoanalytic interpretation, the questionability of texts, Heidegger's reading of Nietzsche, and the dialogical aspect of language. Part II offers further reflections by Gadamer on the encounter itself and its relation of hermeneutics to deconstruction. Among the issues covered are Derrida's interpretation of *Destruktion* in Heidegger, Derrida's attack on logocentrism in Heidegger's interpretation of Nietzsche, and the relation of Heidegger's hermeneutics and deconstruction to dialectic. Part III offers commentaries on the encounter from a variety of perspectives. The authors assess the original encounter as well as Gadamer's subsequent reflections on it. **Textualities** Hugh J. Silverman, 2013-10-28 *Textualities* is both an account of recent developments in Continental philosophy and a demonstration of philosophy as a distinctive theoretical practice of its own. It can be read as a presentation and evaluation of major figures from Heidegger and Merleau-Ponty to Foucault and Derrida, with detailed accounts of Nietzsche, Sartre, Levi-Strauss, Barthes, Blanchot, and Kristeva. Radical Hermeneutics John D. Caputo, 1988-01-22 *Radical Hermeneutics* forges a closer collaboration between hermeneutics and deconstruction than has previously been attempted. For John D. Caputo, hermeneutics means radical thinking without transcendental justification, attending to the ruptures and irregularities in existence before the metaphysics of presence has a chance to smooth them over. Part One shows how Kierkegaardian repetition and Husserlian constitution are

fused in Heidegger's classic of hermeneutic statement *Being and Time* Part Two takes up the radicalization of Husserl's and Heidegger's questioning carried out by Derrida Here Caputo urges a more radical reading of Heidegger as well as a more hermeneutic reading of Derrida Part Three argues that radical thinking is not an exercise in nihilism as its critics charge but a renewed vigilance about the gaps and differences inherent in our experience Caputo projects the possibility of a postmetaphysical conception of rationality an ethics of dissemination and a notion of faith liberated from the onto theologic Radical Hermeneutics addresses the most trenchant issues in recent Continental thought **Beyond Deconstruction**

Alberto Martinengo, 2012-08-31 The controversy over Jacques Derrida's legacy is one of the most effective engines driving the contemporary debate far beyond the bounds of philosophy By now the variety of contesting positions is so wide that it calls for a critical assessment to achieve a unified theoretical scheme The dyad of deconstruction and reconstruction to which the title of the volume refers aims at composing a kind of map of this debate The three sections of the book include essays that investigate specific aspects of Derrida's reception from the view of 1 philosophy 2 literary studies and 3 politics and law These contributions study the implications of deconstruction beyond its original scope and intervene by taking stock of its most relevant aporias *Gadamer and the Question of Understanding* Adrian Costache, 2016-02-24 Hans Georg Gadamer is depicted as a paradoxical figure in the literature When Gadamer's work is approached by itself outside the history of hermeneutics he is generally presented as the disciple of Martin Heidegger whose main theoretical contribution lies in having transposed his ontological hermeneutics into the sphere of the human sciences Usually the master student relation ends with a break between the two brought about by the student's desire to become herself a master In Gadamer and Heidegger's case scholarship has always excluded the possibility of such a symbolic parricide However when Gadamer's work is approached from the history of hermeneutics he not Heidegger is revered as the central figure of hermeneutic theory in the twentieth century and scholars perceive the works of the latter together with those of his immediate forerunners Friedrich Schleiermacher and Wilhelm Dilthey as mere preambles to the great hermeneutic theory proposed by Truth and Method and the works of those following him as footnotes to it Gadamer and the Question of Understanding Between Heidegger and Derrida dismantles this paradox by showing on the one hand that Gadamer's translation of Heidegger involved as he himself says a series of essential alterations to the original which make philosophical hermeneutics a more coherent and better articulated hermeneutic theory one offering a more faithful description of the phenomenon of understanding than Heidegger's And on the other hand by taking the dossier of the famous encounter between Gadamer and Derrida as its cue Adrian Costache demonstrates that in light of Derrida's deconstruction every step Gadamer takes forward from Heidegger as well as from Schleiermacher and Dilthey however necessary is problematic in itself The insights in this book will be valuable to students and scholars interested in modern and contemporary European philosophy especially those focusing on philosophical hermeneutics and deconstruction as well as those working in social sciences that have incorporated

a hermeneutic approach to their investigations such as pedagogy sociology psychotherapy law and nursing **Meaning in the Play of Difference** Mark Yount,1986 **Studies in Phenomenology, Hermeneutics, and Deconstruction** R.

Sundara Rajan,1991 Between Hermeneutics and Deconstruction Adrian Ioan Costache,2010 Reading Derrida and Ricoeur Eftichis Pirovolakis,2010-02-16 Written in the aftermath of the deaths of the French philosophers Jacques Derrida 1930 2004 and Paul Ricoeur 1913 2005 this book is an important and innovative study of the contentious relation between deconstruction and hermeneutics Offering close readings of Derrida s and Ricoeur s writings on phenomenology psychoanalysis structuralist linguistics and Levinasian ethics Eftichis Pirovolakis introduces the motif of improbable encounters and explicates why the two thinkers may be said to be simultaneously close to each other and separated by an unbridgeable abyss Pirovolakis complicates any facile distinction between these movements which are two of the most influential streams of continental thought and questions a certain pathos with respect to the distance separating them Pirovolakis also translates Derrida s brief tribute to Ricoeur The Word Giving Naming Calling which appears here in English for the first time The book is essential reading for anyone immersed in continental philosophy or literary theory

Experiencing the Postmetaphysical Self Fionola Meredith,2004-12-14 This book charts and challenges the bruising impact of post Saussurean thought on the categories of experience and self presence It attempts a reappropriation of the category of lived experience in dialogue with poststructuralist thinking Following the insight that mediated subjectivity need not mean alienated selfhood Meredith forwards a postmetaphysical model of the experiential based on the interpenetration of poststructuralist thinking and hermeneutic phenomenology Since poststructuralist approaches in feminist theory have often placed women s lived experiences under erasure Meredith uses this hermeneutic deconstructive model to attempt a rehabilitation of the singular flesh and blood female existent **The Roots of Hermeneutics in Kant's**

Reflective-Teleological Judgment Horst Ruthrof,2022-11-28 This book challenges the standard view that modern hermeneutics begins with Friedrich Ast and Friedrich Schleiermacher arguing instead that it is the dialectic of reflective and teleological reason in Kant s Critique of Judgment that provides the actual proto hermeneutic foundation It is revolutionary in doing so by replacing interpretive truth claims by the more appropriate claim of rendering opaque contexts intelligible Taking Gadamer s comprehensive analysis of hermeneutics in Truth and Method 1960 as its point of departure the book turns to Kant s Critiques reviewing his major concepts as a coherent system in relation to his sensus communis At the heart of the book is the interaction between reflective bottom up search and teleological top down interpretative projection as provided in Part II of the third Critique This text contends that Kant s broad definition of nature invites the liberation of the reflective teleological judgment from its biological exemplifications and so permits us to establish its generalised status as a path breaking methodological tool Kant s dialectic of reflective search and meaning bestowing stipulated teleology is asserted to anticipate a series of motifs commonly associated with hermeneutics Figures covered include Dilthey Husserl

Ingarden Heidegger Gadamer Apel Habermas Ricoeur Derrida Foucault Lyotard Deleuze Vattimo Nancy and Caputo Their collective contributions to interpretation allow for a review of the evolution of hermeneutics from the perspective of the Kantian critique of the limitations of human cognition The book is written for the informed general reader but will likewise appeal to advanced undergraduate and graduate students as well as researchers in the humanities and social sciences

Niels Bohr's Complementarity Makoto Katsumori,2011-09-01 This book explores the modern physicist Niels Bohr's philosophical thought specifically his pivotal idea of complementarity with a focus on the relation between the roles of what he metaphorically calls spectators and actors It seeks to spell out the structural and historical complexity of the idea of complementarity in terms of different modes of the spectator actor relation showing in particular that the reorganization of Bohr's thought starting from his 1935 debate with Einstein and his collaborators is characterized by an extension of the dynamic conception of complementarity from non physical contexts to the very field of quantum theory Further linked with this analysis the book situates Bohr's complementarity in contemporary philosophical context by examining its intersections with post Heideggerian hermeneutics as well as Derridean deconstruction Specifically it points to both the close affinities and the differences between Bohr's idea of the actor spectator relation and the hermeneutic notion of the relation between belonging and distancing

More Radical Hermeneutics John D. Caputo,2000-07-22 In these spirited essays John D. Caputo continues the project he launched with *Radical Hermeneutics* of making hermeneutics and deconstruction work together Caputo claims that we are not born into this world hard wired to know Being Truth or the Good and we are not vessels of a Divine or other omnipotent supernatural force Focusing on how various contemporary philosophers develop aspects of this fragmented view of the life world in areas such as madness friendship democracy gender science the end of ethics religion and mysticism this animated study by one of America's leading continental philosophers shakes the foundations of religion and philosophy even as it gives them new life

Hegel, History, and Interpretation Shaun Gallagher,1997-01-01 Hegel History and Interpretation is a collection of essays that extends critical discussions of Hegel into contemporary debates about the nature of interpretation and theories of philosophical hermeneutics Essays by Susan Armstrong John D. Caputo William Desmond Robert Dostal Shaun Gallagher Philip T. Grier H. S. Harris Walter Lammi George R. Lucas Jr. Michael Prosch Thomas Rockmore and E. Christopher Smith explore difficult issues concerning historical interpretation the nature of hermeneutics at the end of metaphysics the social and critical function of reason and the inadequacy of Hegel's interpretation of the experience of otherness In the course of these essays Hegel is made to converse with Kierkegaard Nietzsche and Heidegger as well as with contemporary theorists such as Gadamer Habermas Foucault and Derrida Thus the contributors explore both the themes that form the common ground between Hegelian philosophy and contemporary interpretation theory and the mixed reception of Hegel's philosophy into contemporary discussions about history deconstruction critical theory and alterity

Hermeneutics John D. Caputo, 2018-01-25 Is anything ever not an interpretation Does interpretation go all the way down Is there such a thing as a pure fact that is interpretation free If not how are we supposed to know what to think and do These tantalizing questions are tackled by renowned American thinker John D Caputo in this wide reaching exploration of what the traditional term hermeneutics can mean in a postmodern twenty first century world As a contemporary of Derrida s and longstanding champion of rethinking the disciplines of theology and philosophy for decades Caputo has been forming alliances across disciplines and drawing in readers with his compelling approach to what he calls radical hermeneutics In this new introduction drawing upon a range of thinkers from Heidegger to the Parisian 1968ers and beyond he raises a series of probing questions about the challenges of life in the postmodern and maybe soon to be post human world

The Unsaid Karl Simms, 2019-01-15 Exploring hermeticism in English American and European poetry this is the only book to discuss hermetic poetry from the Renaissance to the present day This highly original study makes a significant theoretical advance in seeing the interpretation of hermetic poetry as a paradigm of understanding as such
