Grell, 2021-12-06 Despite his fame Paracelsus remains an illusive character As this volume points out it is somewhat of a paradox that the fascination with Paracelsus and his ideas has remained so widespread when it is born in mind that it is far from clear what exactly he contributed to medicine and natural philosophy But perhaps it is exactly this enigma which through the ages has made Paracelsus so attractive to such a variety of people who all want to claim him as an advocate for their particular ideas The first section of this book deals with the historiography surrounding Paracelsus and Paracelsianism and points to the need of reclaiming the man and his ideas in their proper historical context A further two sections are concerned with the different religious social and political implications of Paracelsianism and its medical and natural philosophical significance respectively **The Hermetic and Alchemical Writings of Paracelsus-**

The Hermetic and Alchemical Writings of Aureolus Philippus Theophrastus Bombast, of Hohenheim, Called Paracelsus the Great, Vol. 1 of 2 Paracelsus Paracelsus, 2016-09-30 Excerpt from The Hermetic and Alchemical Writings of Aureolus Philippus Theophrastus Bombast of Hohenheim Called Paracelsus the Great Vol 1 of 2 Edited With a Biographical Preface Elucidatory Notes a Copious Hermetic Vocabulary and Index Hermetic Chemistry It seems also desirable to state that a comparison of the medical and chemical knowledge possessed by Paracelsus with the chemistry and medicine of to day is outside the purpose of this edition because it is outside possibility within the limits of two volumes There is no doubt that it would be an interesting as well as an important task to establish the exact position of Paracelsus not only as regards modern knowledge but as regards the science which preceded him and it is hoped that such a work will be ultimately performed Should this translation be regarded as final by students or at least as a satisfactory foundation for a full and complete comprehension of the sage of Hohenheim and should the encouragement which is indispensable to an undertaking so long and costly be adequately given it is proposed after a reasonable interval that these two volumes of uncriticised text should be followed by one other which will contain all the materials requisite for understanding Paracelsus and will further trace methodically and historically the development of alchemical symbolism with the growth of chemical knowledge from the Byzantine period to the dawn of the Reformation It is xvi T ze Hermetic and Attnemzkat Wm tz ngs of Paracelsus About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a
