**Film Style and the World War II Combat Genre** Stuart Bender, 2014-08-11  
Film Style and the World War II Combat Genre is a detailed examination of the stylistic means by which filmmakers depict stories of combat The work furthers contemporary discussions by analyzing a range of World War II combat films to a degree of detail which has previously escaped critical attention This substantial examination of cinematography sound editing and acting in a range of movies including Saving Private Ryan Windtalkers Bataan and Objective Burma demonstrates the importance of close attention to the textual construction of these films specifically as well as cinematic texts more generally The work advances the original analytic descriptions of controlled spontaneity and reported realism as theoretical concepts which explain why viewers regard certain stylistic techniques as realistic This notion of realism is then further understood through reference to a body of research in cognitive psychology to argue that the density of audio visual information in contemporary combat films is a significant factor in creating a sense of realism

Atomic Bomb Cinema Jerome F. Shapiro, 2013-05-13 Unfathomably merciless and powerful the atomic bomb has left its indelible mark on film In Atomic Bomb Cinema Jerome F Shapiro unearths the unspoken legacy of the bombing of Nagasaki and Hiroshima and its complex aftermath in American and Japanese cinema According to Shapiro a Bomb film is never simply an exercise in ideology or paranoia He examines hundreds of films like Godzilla Dr Strangelove and The Terminator as a body of work held together by ancient narrative and symbolic traditions that extol survival under devastating conditions Drawing extensively on both English language and Japanese language sources Shapiro argues that such films not only grapple with our nuclear anxieties but also offer signs of hope that humanity is capable of repairing a damaged and divided world [www atomicbombcinema com](http://www.atomicbombcinema.com)

**Music, Collective Memory, Trauma, and Nostalgia in European Cinema after the Second World War** Michael Baumgartner, Ewelina Boczkowska, 2019-09-23 In the wake of World War II the arts and culture of Europe became a site where the devastating events of the 20th century were remembered and understood Exploring one of the most integral elements of the cinematic experience music the essays in this volume consider the numerous ways in which post war European cinema dealt with memory trauma and nostalgia showing how the music of these films shaped the representation of the past The contributors consider films from the United Kingdom Poland the Soviet Union France Italy Germany Sweden Austria and the Netherlands providing a diverse and well rounded understanding of film music in the context of historical memory Memory is often underrepresented within scholarly musical studies with most of these applications found in the disciplines of ethnomusicology popular music studies music cognition and psychology and music therapy Likewise trauma has mainly been studied in relation to music in only a few historical contexts while nostalgia has attracted even less academic

attention In three parts this volume addresses each area of study as it relates to the music of European cinema from 1945 to 1989 applying an interdisciplinary approach to investigate how films use music to negotiate the precarious relationships we maintain with the past Music Collective Memory Trauma and Nostalgia in European Cinema after the Second World War offers compelling arguments as to what makes music such a powerful medium for memory trauma and nostalgia **British Cinema and the Second World War** Robert Murphy, 2005-08-15 The author provides a decade by decade analysis of every film ever made in Britain about World War II It provides a comprehensive account of how Britain has portrayed the war through films **Norway** Mike Hepso, 2002-12 Located in northern Europe Norway is home to majestic fjords mountains and lakes Once part of various unions with Denmark and Sweden Norway gained its independence in 1905 Since then the country has developed into an economic and cultural hub and now enjoys one of the highest standards of living in the world From the adventures of the fearless Vikings to the groundbreaking discoveries of famous Norwegian explorers from the plays of Henrik Ibsen to the artistry of Gustav Vigeland and from the ancient traditions of the Sami to the modern Norwegian monarchy this book introduces a country that embraces its age old traditions as it ushers in the new millennium Book jacket
