Zander, 2017-10-03 Even though much of Europe eventually succumbed to the Nazis during World War II many Europeans defiantly resisted occupation in every way possible This captivating book provides a survey of these resistance movements during the period of Axis occupation and recounts the ways in which unarmed citizens undermined Nazi efforts at domination A thorough description of the Axis conquest of Europe the formation of the Special Operations Executive in Britain and the Office of Strategic Services in the United States provides a backdrop for this turbulent time in history Chapters cover the resistance organizations their leaders and other key individuals behind their operations The book details the movement's furtive tactics that included spreading information providing the Allies with key intelligence conducting industrial sabotage destroying bridges and factories and fighting behind the lines Case studies of resistance operations in France Norway Holland Denmark Poland Czechoslovakia the Soviet Union the Balkans Greece Italy and within Nazi Germany itself show the scope and breadth of the resistance movement throughout the world      *Youth's Companion*, 1879      *Drumbeats that Changed the World* Joseph F. Conley, 2000      *Dispositions of Leadership* Gary Whiteley, Lexie Domaradzki, Arthur L. Costa, Patricia Muller, 2017-08-10 Dispositions of Leadership The Effects on Student Learning and School Culture stands alone as an approach for developing leaders who are adaptive and can thrive in unpredictable settings Educational leadership is a domain of its own apart from business and industry combining an effective learning environment for students and adults Dispositions are acquired in the interactions between skillful thinking and circumstances that defy

simplistic solutions The five dispositions as illustrated in the book provide educational leaders with maps of the territory and examples of habits for intelligent responses to complex problems Educational leaders must develop adaptive competence the capability of applying prior learning to a novel setting while assessing the impact of potential solutions This book challenges the utility of traditional command and control models that are no longer capable of supporting school leaders Grounded in extensive research and review of leadership literature Dispositions of Leadership The Effects on Student Learning and School Culture describes how an effective educational leader in the Information Age applies dispositional thinking in order to be adaptive self aware and responsive to others *From Angel to Office Worker* Susie S. Porter, 2018-06 2019 Thomas McGann Award for best publication in Latin American Studies In late nineteenth century Mexico a woman's presence in the home was a marker of middle class identity However as economic conditions declined during the Mexican Revolution and jobs traditionally held by women disappeared a growing number of women began to look for work outside the domestic sphere As these angels of the home began to take office jobs middle class identity became more porous To understand how office workers shaped middle class identities in Mexico *From Angel to Office Worker* examines the material conditions of women's work and analyzes how women themselves reconfigured public debates over their employment At the heart of the women's movement was a labor movement led by secretaries and office workers whose demands included respect for seniority equal pay for equal work and resources to support working mothers both married and unmarried Office workers also developed a critique of gender inequality and sexual exploitation both within and outside the workplace *From Angel to Office Worker* is a major contribution to modern Mexican history as historians begin to ask new questions about the relationships between labor politics and the cultural and public spheres *A Diary of the French Revolution* Gouverneur Morris, 2013-04-18 Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork

Partnering With Students Mary Jane O'Connell, Kara Vandas, 2015-04-04 Empower students to own their learning The world today needs students prepared to set goals to fail to get up and try a new strategy to fail again and to persist until their goals are realized Therefore we must ask Are all students in our classrooms equipped with the skills and confidence to take ownership of their learning If not what can we do to change that Building on the work of John Hattie Larry Ainsworth and other leaders in the field Partnering With Students Building Ownership of Learning offers a powerful framework to accelerate student motivation and learning This resource is designed to empower teachers and leaders with strategies to develop learners who have the confidence and tools to engage in any challenge By flipping the focus to student ownership of learning the authors provide clear and simple ways to Develop collaborative relationships Jointly establish clear expectations for learning and criteria for success Intentionally build learner strategies that last a lifetime Use formative assessment results to monitor progress Harness the power of reciprocal feedback to improve teaching and learning Empower and motivate students set meaningful goals and prove learning When students are invited to partner and share in the responsibility of learning they become our greatest allies and we will learn as much from them as they will learn from us O Connell and Vandas provide a wealth of information to educators proving that it is not only important to be student focused but essential if students are to reach their fullest potential In an era where we seemingly complicate things because we can it is refreshing to see a book like this that is clearly written driven by commonsense evidenced by good practice and supported with tools and clear examples Russell J Quaglia President Founder Quaglia Institute for Student Aspirations An extremely rich resource for educators who genuinely want to empower students to be successful in college AND careers The research supported strategies put forth press educators to engage in deep reflection and analysis of their personal beliefs and practices while equipping them with practical techniques to engage students in rigorous relevant ways in the classroom Kim S Benton Chief Academic Officer Deputy State Superintendent Mississippi Department of Education
