medical histories biological parentage and ethnic background A Nation of Descendants traces Americans fascination with tracking family lineage through three centuries Francesca Morgan examines how specific groups throughout history grappled with finding and recording their forebears focusing on Anglo American white Mormon African American Jewish and Native American people Morgan also describes how individuals and researchers use genealogy for personal and scholarly purposes and she explores how local businesspeople companies like Ancestry com and Henry Louis Gates Jr s Finding Your Roots series powered the commercialization and commodification of genealogy *The Connecticut Nutmegger* ,1994
