Heres To Crime:

Hooligans, Harlots, and Hangmen David Taylor, 2010-02-09 This detailed study of the criminal justice system in Victorian Britain highlights the dilemmas facing those responsible for administering justice and protecting society from the criminal Encompassing the crimes of the never identified Jack the Ripper as well as many other equally intriguing criminals Hooligans Harlots and Hangmen Crime and Punishment in Victorian Britain is a detailed study of the criminal justice system as it evolved from the accession of Queen Victoria in 1837 to the outbreak of the Great War in 1914 The first section of the book considers crimes and criminals while the second looks at the ways in which the Victorians sought to explain this deviant behavior The third section focuses on the creation of criminals through the work of the constabulary and the courts The final section considers the changing ways in which criminals were punished as the scaffold gave way to the prison as the dominant means of punishment A brief introduction and conclusion set Victorian crime into its broader sociopolitical context and relates the issues society grappled with then to those of the present day

Key Concepts in Politics and International Relations Andrew Heywood, 2015-07-07 Concepts have a particular importance for students of politics and international relations Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue fight and even go to war each claiming to be defending freedom upholding democracy or supporting justice The problem is that words such as freedom democracy and justice have different meanings to different people so that the concepts themselves come to seem problematic This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis Each term is defined clearly and fully and its significance for political argument and practice is explored The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts Renowned for its lively engaging style and user friendly approach the second edition is an invaluable companion to the study of politics and international relations

Nabokov and Nietzsche Michael Rodgers, 2018-04-19 Awarded the Jane Grayson Prize by the International Vladimir Nabokov Society Shortlisted for The European Society for the Study of English ESSE Book Award Nabokov and Nietzsche Problems and Perspectives addresses the many knotted issues in the work of Vladimir Nabokov Lolita s moral stance Pnin s relationship with memory Pale Fire s ambiguous internal authorship that often frustrate interpretation It does so by arguing that the philosophy of Friedrich Nietzsche as both a conceptual instrument and a largely unnoticed influence on Nabokov himself can help to untie some of these knots The study addresses the fundamental problems in Nabokov s writing that make his work perplexing mysterious and frequently uneasy rather than simply focusing on the literary puzzles and games that although inherent do not necessarily define his body of work Michael Rodgers shows that Nietzsche s philosophy provides new but not always palatable perspectives in order to negotiate interpretative impasses and that the uneasy aspects of Nabokov s work offer the reader manifold rewards

Protecting Personal Information Andrea Monti, Raymond Wacks, 2019-05-30 The concept of privacy has long been confused and incoherent The right to privacy has been applied promiscuously to an alarmingly wide ranging assortment of issues including free speech political consent abortion contraception sexual preference noise discrimination and pornography The conventional definition of privacy and attempts to evolve a privacy as a fence approach are unable to deal effectively with the technological advances that have significantly altered the way information is collected stored and communicated Social media such as Facebook pose searching questions about the use and protection of personal information and reveal the limits of conceiving the right to privacy as synonymous with data protection The recent European Union s GDPR seeks to enforce greater protection of personal information but the overlap with privacy has further obscured its core meaning This book traces these troubling developments and seeks to reveal the essential nature of privacy and critically what privacy is not

Unfit: Jewish Degeneration and Modernism Marilyn Reizbaum, 2019-09-19 An obsession with degeneration was a central preoccupation of modernist culture at the start of the 20th century Less attention has been paid to the fact that many of the key thinkers in degeneration theory including Cesare Lombroso Max Nordau and Magnus Hirschfeld were Jewish Unfit Jewish Degeneration and Modernism is the first in depth study of the Jewish cultural roots of this strand of modernist thought and its legacies for modernist and contemporary culture Marilyn Reizbaum explores how literary works from Bram Stoker s Dracula through James Joyce s Ulysses to Pat Barker s Regeneration trilogy the crime movies of Mervyn LeRoy and the photography of Claude Cahun and Adi Nes manifest engagements with ideas of degeneration across the arts of the 20th century This is a major new study that sheds new light on modernist thought art and culture

Emotions and Migration in Argentina at the Turn of the 20th Century María Bjerg, 2021-10-07 Revealing the lives of migrant couples and transnational households this book explores the dark side of the history of migration in Argentina during the late 19th and early 20th centuries Using court records censuses personal correspondence and a series of case studies Mar a Bjerg offers a portrayal of the emotional dynamics of transnational marital bonds and intimate relationships stretched across continents Using microhistories and case studies this book shows how migration affected marital bonds with loneliness betrayal fear and frustration Focusing primarily on the emotional lives of Italian and Spanish migrants this book explores bigamy infidelity adultery domestic violence and murder within official and unofficial unions It reveals the complexities of obligation financial hardship sacrifice and distance that came with migration and explores how shame jealousy vengeance and disobedience led to the breaking of marital ties Against a backdrop of changing cultural contexts Bjerg examines the emotional languages and practices used by adulterous women against their offended husbands to justify domestic violence and as a defence against homicide Demonstrating how migration was a powerful catalyst of change in emotional lives and in evolving social standards Emotions and Migration in Early Twentieth century Argentina reveals intimate and disordered lives at a time when female

Private Power, Online Information Flows and EU Law Angela Daly,2016-12-01 This monograph examines how European Union law and regulation address concentrations of private economic power which impede free information flows on the Internet to the detriment of Internet users autonomy In particular competition law sector specific regulation if it exists data protection and human rights law are considered and assessed to the extent they can tackle such concentrations of power for the benefit of users Using a series of illustrative case studies of Internet provision search mobile devices and app stores and the cloud the work demonstrates the gaps that currently exist in EU law and regulation It is argued that these gaps exist due in part to current overarching trends guiding the regulation of economic power namely neoliberalism by which only the situation of market failure can invite ex ante rules buoyed by the lobbying of regulators and legislators by those in possession of such economic power to achieve outcomes which favour their businesses Given this systemic and extra legal nature of the reasons as to why the gaps exist solutions from outside the system are proposed at the end of each case study This study will appeal to EU competition lawyers and media lawyers

The History of Russian Literature on Film Marina Korneeva,David Gillespie,2023-12-28 Unlike most previous studies of literature and film which tend to privilege particular authors texts or literary periods David Gillespie and Marina Korneeva consider the multiple functions of filmed Russian literature as a cinematic subject in its own right one reflecting the specific political and aesthetic priorities of different national and historical cinemas In this first and only comprehensive study of cinema s various engagements of Russian literature focusing on the large period 1895 2015 The History of Russian Literature on Film highlights the ways these adaptations emerged from and continue to shape the social artistic and commercial aspects of film history

Access to Justice in Magistrates' Courts Lucy Welsh,2022-01-27 This book examines access to justice in summary criminal proceedings by considering the ability of defendants to play an active

and effective role in the process Access to justice refers not just to the availability of legally aided representation but also to the ability of defendants to understand and effectively participate in summary criminal proceedings more generally It remains a vital principle of justice that justice should not only be done but should also be seen to be done by all participants in the process The book is based on socio legal research The study is ethnographic based on observation conducted in four magistrates courts in South East England and interviews with both defence lawyers and Crown prosecutors Setting out an argument that defendants have always been marginalised through particular features of magistrates court proceedings such as courtroom layout and patterns of behaviour among the professional workgroups in court the political climate in relation to defendants and access to justice that has persisted since 2010 has further undermined the ability of defendants to play an active role in the process Ultimately this book argues that recent governments have demanded ever more efficiency and cost saving in criminal justice In that context principles that contribute to access to justice for defendants have been seriously undermined

Integration in Multicultural England Jörg Friedrichs, 2025-07-24 Positive relations between Muslims and non Muslims are important for the future in Britain and beyond By studying community relations this book takes an innovative approach that moves beyond mapping British Muslims or British Islam Instead Jörg Friedrichs discusses the actual ways Muslims and non Muslims relate or fail to relate where it matters most namely in diverse inner cities Is Britain a multicultural country is it moving towards greater integration or is this a false dichotomy Given their unique everyday experience inner city residents prove to be experts when it comes to community relations To give them a voice and learn from their experience the book takes us on a tour of diverse English inner cities Reassuringly the grassroots perspective of residents is consistent with a vision of integration in multicultural England Residents are concerned not so much about hot button issues like extremism or terrorism Instead their minds are set on practical matters how to coexist peacefully in stressful urban environments and how to find love and raise families when norms diverge Caught between grievance and aspiration inner city residents from any background express disappointment at Muslim and non Muslim parents sending their children to different schools They also discuss whether governance should be community blind or community based and if Britain is ready for a Muslim Prime Minister In all of this Muslim and non Muslim residents acknowledge that we live in a multicultural society For most however it does not follow that we should adopt multiculturalism as an ideology Instead most people crave and support a move towards greater integration

The Bloomsbury Handbook of Modern Chinese Literature in Translation Cosima Bruno, Lucas Klein, Chris Song, 2023-10-19 Offering the first systematic overview of modern and contemporary Chinese literature from a translation studies perspective this handbook provides students researchers and teachers with a context in which to read and appreciate the effects of linguistic and cultural transfer in Chinese literary works Translation matters It always has of course but more so when we want to reap the benefits of intercultural communication In many universities Chinese literature in English translation is taught as if it had been written in English As

a result students submit what they read to their own cultural expectations they do not read in translation and do not attend to the protocols of knowing engagements and contestations that bind literature and society to each other The Bloomsbury Handbook of Modern Chinese Literature in Translation squarely addresses this pedagogical lack Organised in a tripartite structure around considerations of textual social and large scale spatial and historical circumstances its thirty plus essays each deal with a theme of translation studies as emerged from the translation of one or more Chinese literary works In doing so it offers new tools for reading and appreciating modern and contemporary Chinese literature in the global context of its translation offering in depth studies about eminent Chinese authors and their literary masterpieces in translation The first of its kind this book is essential reading for anyone studying or researching Chinese literature in translation Gender, War, and Militarism Laura Sjoberg, Sandra E. Via, 2010-08-03 This compelling interdisciplinary compilation of essays documents the extensive intersubjective relationships between gender war and militarism in 21st century global politics Feminist scholars have long contended that war and militarism are fundamentally gendered Gender War and Militarism Feminist Perspectives provides empirical evidence theoretical innovation and interdisciplinary conversation on the topic while explicitly and uniquely considering the links between gender war and militarism Essentially an interdisciplinary conversation between scholars studying gender in political science anthropology and sociology the essays here all turn their attention to the same questions How are war and militarism gendered Seventeen innovative explanations of different intersections of the gendering of global politics and global conflict examine the theoretical relationship between gender militarization and security the deployment of gender and sexuality in times of conflict sexual violence in war and conflict post conflict reconstruction and gender and militarism in media and literary accounts of war Together these essays make a coherent argument that reveals that although it takes different forms gendering is a constant feature of 21st century militarism

Baumgarten's Elements of First Practical Philosophy Alexander Gottlieb Baumgarten, Immanuel Kant, 2020-05-14 This book presents the first English translation of Alexander Baumgarten's *Initia Philosophiae Practicae Primae* the textbook Kant used in his lectures on moral philosophy Originally published in Latin in 1760 the *Initia* contains a systematic but original version of the universal practical philosophy first articulated by Christian Wolff In his personal copy Kant penned hundreds of pages of notes and sketches that document his relation to this earlier tradition Translating these extensive elucidations into English together with Kant's notes on the text this translation offers a complete resource to Kant's reading of the *Initia* To facilitate further study first time translations of elucidatory passages from G F Meier and Wolff are also included alongside a German English Latin glossary The translators introduction provides a biography of Baumgarten a discussion of the importance of the *Initia* its relation to Wolff's and Meier's universal practical philosophy and its role in Kant's lectures By shedding new light on the arguments of Kant's mature works and offering insights into his pre Critical moral thought *Elements of First Practical Philosophy* reveals why Baumgarten's work is essential for understanding the background

to Kant's philosophy **Human Rights Law** Merris Amos, 2021-07-15 This textbook comprehensively examines and analyses the interpretation and application of the United Kingdom's Human Rights Act 1998. The third edition has been fully updated to include the last seven years of case law. Part I covers key procedural issues including the background to the Act, the relationship between UK courts and the European Court of Human Rights, the definition of victim and public authority, determining incompatibility including deference and proportionality, the impact of the Act on primary legislation and damages and other remedies for the violation of Convention rights. In Part II of the book, the Convention rights as interpreted and applied by United Kingdom courts are examined in detail. All of the key Convention rights are discussed, including the right to life, freedom from torture and inhuman or degrading treatment or punishment, the right to liberty, fair trial, the rights to private life, family life and home, freedom of religion and belief, freedom of expression, the right to peaceful enjoyment of possessions, and the right to freedom from discrimination in the enjoyment of Convention rights. The third edition of Human Rights Law will be invaluable for those teaching, studying, and practising in the areas of United Kingdom human rights law, constitutional law, and administrative law.
