Being Here Lindsey Brunette,2022-08-01 What if you lived your entire life by the plan you d laid out when you were thirteen years old Being Here Reflections on Life Love Faith and Turning Thirty tells one woman s journey from living the life she had planned to learning to live each day to the fullest A no holds barred look at author Lindsey Brunette s story of recovery from her own demons it asks the question Who am I if I am not This compelling memoir looks deeply at faith divorce self identity and the idea that we re all just doing the best we can A compulsively readable writer Lauren Miller author of Free to Fall Parallel and All Things New Well-Being as Value Fulfillment Valerie Tiberius,2018-11-10 What is human well being Valerie Tiberius argues that our lives go well to the extent that we succeed in terms of what matters to us emotionally reflectively and over the long term In other words well being consists in fulfilling or realizing our appropriate values over time In the first half of the book Tiberius sets out the theory of well being as value fulfilment She explains what valuing is and what it is to fulfill values over time In the second half of the book she applies the theory to the problem of how to help others particularly our friends We don t always know how to provide the help we know others need but we also have the problem of knowing what help they need in the first place and this is a problem that requires ethical thinking Tiberius argues that when we want to help others achieve greater well being we should pay attention to their values This entails attending to how others values fit together how they understand what it means to succeed in terms of these values and how things could

change for them over time Being a good and helpful friend then requires cultivating some habits of humility that overcome our tendency to think we know what's good for other people without really understanding what it's like to be them

Adventures in Opting Out Cait Flanders, 2020-09-15 Opt out of expectations and live a more intentional life with this refreshing guide from the national bestselling author of *The Year of Less* We all follow our own path in life At least that's what we're told In reality many of us either do what is expected of us or follow the invisible but well worn paths that lead to what is culturally acceptable For some those paths are fine even great But they leave some of us feeling disconnected from ourselves and what we really want When that discomfort finally outweighs the fear of trying something new we're ready to opt out After going through this process many times Cait Flanders found there is an incredible parallel between taking a different path in life and the psychological work it takes to summit a mountain especially when you decide to go solo In *Adventures in Opting Out* she offers a trail map to help you with both As you'll see reaching the first viewpoint can be easy and it offers a glimpse of what you're walking toward Climbing to the summit for the full view is worth it But in the space between those two peaks you will enter a world completely unknown to you and that is the most difficult part of the path to navigate With Flanders's guidance and advice drawn from her own journey and stories of others you'll have all the encouragement and insight you'll need to take the path less traveled and create the life you want Just step up to the trailhead and expect it to be an adventure
