Heritage Of Asia:

Asian Heritage Management Kapila Silva, Neel Kamal Chapagain, 2013-03-05 The prevalent global heritage discourse has been primarily Euro centric in its origin premise and praxis Diverse cultural historical and geographical contexts such as that of Asia call for more context specific approaches to heritage management This book explores this complexity of managing the cultural heritage in Asia Case studies include sites of Angkor Himeji Castle Kathmandu Valley Luang Prabang Lumbini and Malacca and the book uses these to explore the religious worldviews heritage policies intangible heritage dimensions traditional preservation practices cultural tourism and the notion of cultural landscape that are crucial in understanding the cultural heritage in Asia It critiques the contemporary regulatory frameworks in operation and focuses on the issues of global impact on the local cultures in the region The book goes on to emphasize the need for integrated heritage management approaches that encompass the plurality of heritage conservation concerns in Asian countries Themes are discussed from the vantage point of heritage scholars and practitioners in the South Southeast and East Asia This book thus presents a distinctive Asian perspective which is a valuable source for students and practitioners of heritage within and beyond the Asian context *Routledge Handbook of Heritage in Asia* Patrick Daly, Tim Winter, 2012-03-29 This Handbook is the first major volume to examine the conservation of Asia s culture and nature in relation to the wider social political and economic forces shaping the region today Throughout Asia rapid economic and social change means the region s heritage is at once under threat and undergoing a revival as never before As societies look forward competing forces ensure they re visit the past and the inherited with the conservation of nature and culture now driven by the broader agendas of identity politics tradition revival rapid development environmentalism and sustainability In response to these new and important trends the twenty three accessible chapters here go beyond sector specific analyses to examine heritage in inter disciplinary and critically engaged terms encompassing the natural and the cultural the tangible and intangible Emerging environmentalisms urban planning identity politics conflict memorialization tourism and biodiversity are among the topics covered here This path breaking volume will be of particular interest to students and scholars working in the fields of heritage tourism archaeology Asian studies geography anthropology development sociology and cultural and postcolonial studies *The Heritage of Asia* Kenneth James Saunders, 1932 **Understanding World Heritage in Asia and the Pacific - N° 35 - The Second Cycle of Periodic Reporting 2010-2012** Kaori Kawakami, Kai Weise, Paul Richard Dingwall, 2012 Asia's Heritage Trend Jongil Kim, Minjae Zoh, 2023-09-20 Kim and Zoh bring together a team of contributors to analyse the role of heritage studies across Asia and its impact on Asia and its constituent countries Is there such a thing as Asian heritage Is it more helpful to understand Asia as a single unit or as a set of sub regions What can we learn about Asia s present through its archaeology and heritage Covering a wide range of countries including Afghanistan Cambodia China Korea Laos Myanmar Japan Taiwan Thailand and Vietnam the contributors to this book address these key questions In doing so they look at a

number of critical issues such as UNESCO World Heritage status cultural propaganda cultural erasure and difficult heritage While addressing Asia's past they also observe key issues within present day Asia further providing conceptual and practical insights into the methods that are being applied to the study of Asia's heritage today A valuable resource for scholars and students of Asian history and culture archaeology heritage studies anthropology and religious studies Heritage, Contested Sites, and Borders of Memory in the Asia Pacific, 2023-10-09

Contests over heritage in Asia are intensifying and reflect the growing prominence of political and social disputes over historical narratives shaping heritage sites and practices and the meanings attached to them These contests emphasize that heritage is a means of narrating the past that demarcates constitutes produces and polices political and social borders in the present In its spaces varied intersections of actors networks and scales of governance interact negotiate and compete resulting in heritage sites that are cut through by borders of memory This volume edited by Edward Boyle and Steven Ivings and with contributions from scholars across the humanities history social sciences and Asian studies interrogates how particular actors and narratives make heritage and how borders of memory shape the sites they produce **Heritage Movements in Asia** Ali Mozaffari, Tod Jones, 2019-11-04

Heritage processes vary according to cultural national geographical and historical contexts This volume is unique in that it is dedicated to approaching the analysis of heritage through the concepts of social movements Adapting the latest developments in the field of social movements the chapters examine the formation use and contestation of heritage by various official non official and activist players and the spaces where such ongoing negotiations and contestation take place By bringing social movements into heritage studies the book advocates a shift of perspective in understanding heritage one that is no longer bound by at times arbitrary divisions such as those assumed between the state and people or between experts and non experts Heritage and Religion in East Asia Shu-Li Wang, Michael Rowlands, Yujie Zhu, 2020-12-29

Heritage and Religion in East Asia examines how religious heritage in a mobile way plays across national boundaries in East Asia and in doing so the book provides new theoretical insights into the articulation of heritage and religion Drawing on primary comparative research carried out in four East Asian countries much of which was undertaken by East Asian scholars the book shows how the inscription of religious items as Heritage has stimulated cross border interactions among religious practitioners and boosted tourism along modern pilgrimage routes Considering how these forces encourage cross border links in heritage practices and religious movements in China Taiwan South Korea and Japan the volume also questions what role heritage plays in a region where Buddhism Taoism and other various folk religious practices are dominant Arguing that it is diversity and vibrancy that makes religious discourse in East Asia unique the contributors explore how this particularity both energizes and is empowered by heritage practices in East Asia Heritage and Religion in East Asia enriches understanding of the impact of heritage and religious culture in modern society and will be of interest to academics and students working in heritage studies anthropology religion and East Asian studies The Routledge Handbook of Cultural

Landscape Heritage in The Asia-Pacific Kapila D. Silva, Ken Taylor, David S. Jones, 2022-07-29 The Routledge Handbook of Cultural Landscape Heritage in the Asia Pacific revisits the use growth and potential of the cultural landscape methodology in the conservation and management of culture nature heritage in the Asia Pacific region Taking both a retrospective and prospective view of the management of cultural heritage in the region this volume argues that the plurality and complexity of heritage in the region cannot be comprehensively understood and effectively managed without a broader conceptual framework like the cultural landscape approach The book also demonstrates that such an approach facilitates the development of a flexible strategy for heritage conservation Acknowledging the effects of rapid socio economic development globalization and climate change contributors examine the pressure these issues place on the sustenance of cultural heritage Including chapters from more than 20 countries across the Asia Pacific region the volume reviews the effectiveness of theoretical and practical potentials afforded by the cultural landscape approach and examines how they have been utilized in the Asia Pacific context for the last three decades The Routledge Handbook of Cultural Landscape Heritage in the Asia Pacific provides a comprehensive analysis of the processes of cultural landscape heritage conservation and management As a result it will be of interest to academics students and professionals who are based in the fields of cultural heritage management architecture urban planning landscape architecture and landscape management **Cultural and Heritage**

Heritage as Aid and Diplomacy in Asia Philippe Peycam,Shu-Li Wang,Hui

Yew-Foong,Hsin-Huang Michael Hsiao,2020-05-04 Drawing from eleven rich case studies in Asia this book is the first to explore how heritage is used as aid and diplomacy by various agencies to produce knowledge power values and geopolitics in the global heritage regime It represents an interdisciplinary endeavour to feature a diversity of situations where cultural heritage is invoked or promoted to serve interests or visions that supposedly transcend local or national paradigms This collection of articles thus not only considers processes of UNESCO-ization of heritage or their equivalents when conducted by other international or national actors by exploring the diplomatic and developmentalist politics of heritage making at play and its transformational impact on societies It also describes how local and outside states often collude with international mechanisms to further their interests at the expense of local communities and of citizens' rights Heritage as Aid and Diplomacy in Asia explores the following questions Under the current international heritage regime what are the mechanisms of and the manipulations that take place within ideological political and cultural transmissions What is heritage diplomacy and how can we conceptualize it How do the complicated history and colonial past of Asia constitute the current practices of heritage diplomacy and shape heritage discourse in Asia How do international organizations nation states NGOs heritage brokers and experts contribute to the history of the global heritage discourse How has the flow of global knowledge been transferred and transformed And how does the global hierarchy of cultural values function *Decolonising Heritage in*

South Asia Himanshu Prabha Ray,2018-09-05 This volume cross-examines the stability of heritage as a concept It interrogates the past which materialises through multi-layered narratives on monuments and other objects that sustain cultural diversity It seeks to understand how interpretations of monuments as texts are affected at the local level of experience even as institutions such as UNESCO work to globalise and fix constructs of stable and universal heritage Shifting away from a largely Eurocentric concept associated with architecture and monumental archaeology this book reassesses how local and regional heritage needs to be balanced with the global and transnational It argues that material objects and monuments are not static embodiments of culture but are rather a medium through which identity power and society are

produced and reproduced This is especially relevant in South and Southeast Asian contexts where debates over heritage often have local regional and national political implications and consequences Reevaluating how traditional valuation of monuments and cultural landscapes could help aid sustainability and long term preservation of the heritage this book will be useful for scholars and researchers of South and Southeast Asian history heritage studies archaeology cultural studies tourism studies and political history as well

Reconsidering Cultural Heritage in East Asia Akira Matsuda,Luisa Elena Mengoni,2016-09-27 The concept of cultural heritage has acquired increasing currency in culture politics and societies in East Asia However in spite of a number of research projects in this field our understanding of how the past and its material expressions have been perceived conceptualised and experienced in this part of the world and how these views affect contemporary local practices and notions of identity particularly in a period of rapid economic development and increasing globalisation is still very unclear Preoccupation with cultural heritage expressed in the rapid growth of national and private museums the expansion of the antiquities market revitalisation of local traditions focus on intangible cultural heritage and the development of cultural tourism is something that directly or indirectly affects national policies and international relations An investigation of how the concept of cultural heritage has been and continues to be constructed in East Asia drawing on several case studies taken from China Japan and Korea is thus timely and worthwhile
