Palahniuk William Carlos Williams and Franz Kafka Undertones of Insurrection Marc Weiner,2017-09-29 A basic tenet of
literary studies is that aesthetic structures are politically significant because they represent an artist s response to the
political implications of cultural codes with which the recipient of the modern work is also acquainted This tenet provides the
basis for the ideological associations attending the appearance of music in the modern German narrative With his
understanding of the arts as involved in often unacknowledged ideological forces within a culture Marc Weiner s Undertones
of Insurrection bridges the gap between the New Musicology s rewarding infusion of modern cultural and literary theory into
the study of music politically insightful examinations of narrative structures in the modern novel and the methodologically
conservative area of musical literary relations in Germanic Studies In other words the questions it raises are different from
those pursued in most examinations of music and literature because previous works of this kind concerning the literature of
German speaking Europe have often disregarded social concerns in general and political issues in particular Ranging from
1900 to Doctor Faustus 1947 Weiner study sets the stage by examining public debates that conflated such issues as national
identity racism populism the role of the sexes and xenophobia with musical texts In the literary analyses that follow Weiner
discusses both obvious connections between music and sociopolitical issues Hesse s equation of jazz and insurrection in
Steppenwolf and covert ones the suppression of music in Death in Venice and the use of politically charged musical subtexts
in Werfel s Verdi and Schnitzler s Rhapsody By uncovering the ideological agendas informing cultural practice in modernist
Germany Undertones of Insurrection calls for a reevaluation of the function of music in the modern German narrative
