Hermeneutics Citizenship And The Public Sphere:

Hermeneutics, Citizenship, and the Public Sphere Roberto Alejandro, 1993-07-01 This book sheds new light on the question of democratic politics by proposing a hermeneutic conception of citizenship and the public sphere At the same time it presents a critique of the postmodern arguments advanced by Richard Rorty Jean Francois Lyotard and Jean Baudrillard Questioning a dominant interpretation that sees Gadamer's hermeneutics as the expression of a conservative project Alejandro argues that it includes an important element of critique that could challenge dominant structures and practices

Hermeneutics, Citizenship, and the Public Sphere Roberto Alejandro, 1993-01-01 Alejandro offers a theoretical reflection on citizenship as a political category that could make possible a collective identity defined by the citizens' interpretations of traditions and their participation in the public sphere as well as their construction of a hermeneutic historical consciousness This reflection seeks to pave the way for a vision of citizenship as a space of fluid boundaries within which there is room for diverse and even conflicting understandings of individuality community and public identity Paper edition unseen 17 95

Spheres of Influence Alex Ben-Chimol, Willy Maley, 2007 This book explores the ways in which intellectual and cultural publics from the early modern period to the postmodern present have actively constructed their cultural identities within the social processes of modernity It brings together some of the most compelling recent writing on the public sphere by scholars in the fields of literary history cultural studies and social theory from both sides of the Atlantic Taken together the essays in this collection offer a major re-examination of recent scholarship on the theory of the public sphere as developed by Jürgen Habermas They also stand as a collective effort both to interrogate and to extend this influential model by exploring modern forms of intellectual and cultural activity in all their rich diversity and ideological complexity Contributions range from the divided inheritance of Shakespeare publishing history to the new forms of mass mediated cultural experience in contemporary Britain from attempts at cultural regulation in the literary public sphere of the Romantic period to the postmodern political conflict played out in the American public sphere of the 1990s and from varieties of religious dissent to modes of postcolonial criticism The book furthers the dialogue between academic methodologies fields and periods and presents readers with a contested narrative of the key cultural and intellectual practices that have made up our modern world

Civil Society and Lebanon Michael D. Dawahare, 2000 This study pursues a hermeneutic and dialogic conception of the public sphere Through a critical assessment of the development of the closely related ideas of civil society and a democratic public sphere Specifically this study explores Ibn Khaldun's notion of *Asabiya* and its impact on the constitution of civil society and the public sphere in Lebanon paying particular attention to the notions of power and authority within the context of this indigenous concept in particular and Lebanese and Arab culture in general Professor Dawahare has applied a set of complex theories to the Lebanese situation and the result has been to better explain Lebanese politics as well as to probe new theoretical terrain The study is comprehensive and represents a better use

of theory to produce insights into one of the most complex political systems in the Middle East region than many other recent works on the subject This book will be of interest to both social theorists and Middle East Scholars John D Stempel Director The Patterson School of Diplomacy and International Commerce University of Kentucky Imagining the People Joshua A. Fogel, Peter G. Zarrow, 2020-07-24 While much attention has been focused on the rise of the modern Chinese nation little or none has been directed at the emergence of citizenry This book examines thinkers from the period 1890 1920 in modern China and shows how China might forge a modern society with a political citizenry *European Identity and Citizenship* Sanja Ivic, 2016-06-08 This book uses a theoretical and empirical approach to explore the philosophies of European citizenship and European identity The author applies a focused analytical framework to argue that European identity and citizenship should be perceived as postmodern categories which are multi layered dynamic and fluid The book offers a detailed review of political and legal studies which do not comprehend or explain postmodernist concepts of citizenship and identity In the theoretical part of the book various philosophical models of citizenship and identity from antiquity to the postmodern era are portrayed and the author s own theory and analytical framework is developed The empirical part of the book discusses a variety of case studies illustrating how European Union policies apply to this framework **Research Methods in Public Administration and Nonprofit Management** David E. McNabb, 2015-06-01 Designed for both students and practitioners the new edition of this popular text has been thoroughly revised It incorporates the latest thinking in public administration and nonprofit management The book integrates both quantitative and qualitative approaches to research and also provides specific instruction in the use of commonly available statistical software programs such as Excel and SPSS The book is exceptionally well illustrated with plentiful exhibits tables figures and exercises *McQuail's Reader in Mass Communication Theory* Denis McQuail, 2002-04-22 This text is a companion to McQuail s Mass Communication Theory but can be used independently It is a resource of statements drawn from communication studies media sociology and cultural studies **Hermeneutic Communism** Gianni Vattimo, Santiago Zabala, 2014-08-05 Having lost much of its political clout and theoretical power communism no longer represents an appealing alternative to capitalism In its original Marxist formulation communism promised an ideal of development but only through a logic of war and while a number of reformist governments still promote this ideology their legitimacy has steadily declined since the fall of the Berlin wall Separating communism from its metaphysical foundations which include an abiding faith in the immutable laws of history and an almost holy conception of the proletariat Gianni Vattimo and Santiago Zabala recast Marx s theories at a time when capitalism s metaphysical moorings in technology empire and industrialization are buckling While Michael Hardt and Antonio Negri call for a return of the revolutionary left Vattimo and Zabala fear this would lead only to more violence and failed political policy Instead they adopt an antifoundationalist stance drawn from the hermeneutic thought of Martin Heidegger Jacques Derrida and Richard Rorty Hermeneutic communism leaves aside the ideal of development and the general call for revolution it relies

on interpretation rather than truth and proves more flexible in different contexts Hermeneutic communism motivates a resistance to capitalism's inequalities yet intervenes against violence and authoritarianism by emphasizing the interpretative nature of truth Paralleling Vattimo and Zabala's well known work on the weakening of religion Hermeneutic Communism realizes the fully transformational politically effective potential of Marxist thought

Articulating Citizenship Robert Culp, 2020-03-23 At the genesis of the Republic of China in 1912 many political leaders educators and social reformers argued that republican education should transform China's people into dynamic modern citizens social and political agents whose public actions would rescue the national community Over subsequent decades however they came to argue fiercely over the contents of citizenship and how it should be taught Moreover many of their carefully crafted policies and programs came to be transformed by textbook authors teachers administrators and students Furthermore the idea of citizenship once introduced raised many troubling questions Who belonged to the national community in China and how was the nation constituted What were the best modes of political action How should modern people take responsibility for public matters What morality was proper for the modern public This book reconstructs civic education and citizenship training in secondary schools in the lower Yangzi region during the Republican era It also analyzes how students used the tools of civic education introduced in their schools to make themselves into young citizens and explores the complex social and political effects of educated youths' civic action

Visions of the 21st Century Antony Anghie,Garry Sturgess,1998-10-29 Wouter de Vos Civic Liberalism Thomas A. Spragens Jr.,1999-09-30 In *Civic Liberalism* Reflections on Our Democratic Ideals prominent political theorist Thomas A Spragens Jr asserts that most versions of democratic ideals libertarianism liberal egalitarianism difference liberalism and the liberalism of fear lead our polity significantly astray Spragens offers another alternative He argues that we should recover the multiple and complex aspirations found within the tradition of democratic liberalism and integrate them into a more compelling public philosophy for our time or what he calls civic liberalism Civic liberalism Spragens contends endorses both liberty and equality although neither can properly be understood as a maximizing principle Instead liberty should be seen as the constitutive threshold good of autonomy and equality should be seen as a moral postulate and instrumental good Moreover civic liberalism explicitly embraces forms of fraternity civic friendship and civic virtue consistent with respect for

social pluralism Therefore a better understanding of our democratic ideals will free us from the constrictive orthodoxies of the left and right lead us toward better public policy and help us become a well ordered society of flourishing self governing civic equals
